Repairs are the bane of the property owner. Today it is new porch steps, tomorrow it will be a new sidewalk, soon it will be a well curb. Why not cut out bothersome patching? Why not build those things once and for all, using concrete? It will stand the frost, rain and sun for years, if you make it carefully. Use clean, coarse sand, well graded gravel or crushed stone and UNIVERSAL PORTLAND CEMENT and stop that repair nuisance. The best dealers sell UNIVERSAL and are proud of its record of successful work. Ask them for helpful booklets and prices or write us.

How About It?
It may also be true that the rolling moss gathers no rocks.

Do you ever have Headache, Toothache, or Earache? Most people do. Hamlin's Wizard Oil is the best household remedy and liniment for these everyday troubles.

Such a platitude of a world, in which all working horses can be well fed, and innumerable working men die starved.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM
Take the old Standard GROVENS TASTELESS CHILL TONIC. You know what you are taking. The formula is plain: printed on every bottle, showing it is simply Quinine taken from its stastical form, and the most effective form. For grown people and children, 50 cents.

Hewitt—What did you do when he wouldn't give you credit?
Jewett—I gave him a bad check, just to show him that I could pay cash.

Proper Treatment.
"I have a terrible cold," he complained. "My head feels all stopped up."
"Have you tried a vacuum cleaner?" she queried sweetly.—Judge.

Forebodings.
Webster had made his great speech in reply to Hayne.
"Some day, I suppose," he mused, "it will devolve upon Henry Cabot Lodge or Winthrop Crane to squelch Ben Tillman, and I'm not so blamed sure they can do it!"

Qualified Player.
Marion's mother was ill, and the aunt who took her place at the head of the household plied the children with unaccustomed and sometimes disliked articles of diet. One day, after being compelled to eat onions, Marion refused to say grace.
"Then you must sit at the table until you are ready to say it!" was the aunt's stern judgment. An hour or so later, when the brilliant sunshine and impatient calls of her comrades together comprised an irresistible appeal, Marion capitulated—thus:
"Oh, Lord, make me thankful for having had to eat horrid old onions, if you can do it. But I know you can't."

The Flavour of Post Toasties

SPEEDING AUTO RUNS INTO CROWD

Nine Persons Killed and Fourteen Injured.

PANIC AT SYRACUSE FAIR

Leo Oldfield Driving Death-Dealing Machine—President Taft Had Left Fair Two Hours Before.

Syracuse, N. Y.—Nine persons were killed and 14 injured, some of them seriously, as the result of an accident near the end of the 150-mile automobile race at the State Fair track here, when a Knox racing car, driven by Leo Oldfield, leaped from the track, crashed through the fences surrounding it and plunged into the throngs that lined the other side of the speedway.

Six of the nine persons were killed outright and three others were so badly injured that they died on the way to the hospital.

The accident came as the fatal termination of a day that was undoubtedly the biggest the State Fair has ever held in point of attendance as well as in the matter of attractions.

The honored guest of the fair was President Taft. It was only a short time after he had left the grounds that the tragedy occurred.

Just before he left, President Taft took a short ride in an auto on the track, which was wet to keep down the dust for the President and his party.

This wetting was such as to cause drivers who were to compete in the 50-mile event to protest.

When the race was called Ralph De Palma and "Bob" Burman, who had been driving in previous races, refused to go on because of the condition of the track, saying the water had made it too dangerous to take chances. There was some delay during which the track dried somewhat.

The race was called and De Palma and Burman were both entrants, along with Oldfield and six others.

The accident happened in the forty-third mile. De Palma was leading by a lap, with Oldfield trailing him as they entered the first quarter of that mile. The big cars, traveling, it is estimated, at 75 miles an hour, were running side by side as they swung around the turn, after passing the grandstand.

When they took the turn there was a report. The car driven by Oldfield leaped in the air. Then it swerved to the outer side and crashed through the fence. The crippled machine, beyond the control of the driver, ploughed through hundreds of persons lined along the fence to view the race.

The runaway car had left people piled together on the ground, several mangled almost beyond recognition.

GOV. KITCHIN REMEMBERED

Alone on Interference of Federal Judge in State Affairs.

Spring Lake, N. J.—Gov. W. W. Kitchin, of North Carolina, will long be remembered by all who attended the Governors' conference for his pathetic acknowledgment of the emptiness of his office, as well as for his willingness to stand alone on the question of the interference of Federal Judges in State affairs.

"The duties of the Governor of North Carolina consist in drawing his salary and granting pardons," he told his associates when some of them were complaining of their lack of power. "Why, if I had as much power as any one of you gentlemen, I'd rest content," he added.

North Carolina's Governor is the only one of the 48 who lacks the power of vetoing bills. But Governor Kitchin is laying his plans to become United States Senator, and if he succeeds, he will probably have enough responsibility to make life interesting.

Later in the day Quadrata Orrighelli, an Italian, was arrested on suspicion of knowing something of the crime, and it was with difficulty that troopers of the constabulary preventing the elder Steen from throttling him.

Kills Self Accidently.

Atlanta, Ga.—D. O. Dougherty, a prominent business man of Atlanta, was found dead on the rear porch of his home with a bullet through his heart. A pistol was found at his side. The coroner's jury determined Mr. Dougherty came to his death through the accidental discharge of his own weapon. Mr. Dougherty was president of the Dougherty-Little Redwine Company, one of the largest wholesale dry goods firms in Atlanta.

He told Price to pick up some stones. The order angered the colored man and he turned on Mueller with a heavy pick he had in his hand. He crushed in the guard's skull with a number of blows.

WEAK, ILL AND MISERABLE.

How many people suffer from back ache, headache, and dizziness without realizing the cause? These symptoms of kidney trouble are too serious to neglect.

Mrs. F. L. Stewart, Eagle St., Princeton, Ky., says: "There was a constant, dull ache across my back and I could not stoop without suffering severely. Kidney secretions were inactive and the doctors told me I had gravel but their medicine did not help me and death seemed very near."

I began using Doan's Kidney Pills and improved from the first. In six weeks I was entirely well. "When Your Back is Lame, Remember the Name—DOAN'S."

LOT WAS IMPROVED.

PHYSICIAN SAID ECZEMA CAME FROM TEETHING

"When my little girl was about eight months old, she was taken with a very irritating breaking out, which came on her face, neck and back. When she first came down with it, it came in little watery-like festers under her eyes, and on her chin, then after a few days it would dry down in scaly, white scabs. In the daytime she was quite worrisome and would dig and scratch her face nearly all the time."

"I consulted our physician and found she was suffering from eczema, which he said came from her teething. I used the ointment he gave me and without any relief at all. Then I wrote for a book on Cuticura and purchased some Cuticura Soap and Ointment at the drug store. I did as I found directions in the Cuticura Booklet, and when she was one year old, she was entirely cured. Now she is three years and four months, and she has never been troubled with eczema since she was cured by the Cuticura Soap and Cuticura Ointment." (Signed Mrs. Freeman Craver, 311 Lewis St., Syracuse, N. Y., May 6, 1911.)

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 2 K, Boston.

A Drop of Blood

Or a little water from the human system when thoroughly tested by the chief chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., tells the story of impoverished blood—nervous exhaustion or some kidney trouble. Such examinations are made without cost and in only a small part of the work of the staff of physicians and surgeons under the direction of Dr. R. V. Pierce giving the best medical advice possible without cost to those who wish to write and make a full statement of symptoms. An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative and glyceric extract of roots, without the use of alcohol, such as

Dr. Pierce's Golden Medical Discovery

Which makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment. Get what you ask for!

One Cure for Sarcasm.

Bunsen always was sarcastic. One evening last week when he got home his wife had a new hat to show him. It was some hat. Anybody could have seen that it was the final phrase in female headgear.

But Bunsen started to make remarks. He said it looked as if it had been trimmed by a cross-eyed milliner on an empty stomach. An he made a lot of other disparaging remarks.

Mrs. Bunsen was almost in tears. Bunsen had to go into the other room to have a quiet laugh at her expense.

The next day he had forgotten all about the hat.

The day after that he was reminded of it. Mrs. Bunsen handed him a bill for retrimming that hat—\$18 34 it came to.

Bunsen paid it without a murmur and said the revised edition of the hat was just exactly right. He is not criticizing hats any more.

Order of Independents.
Larry O'Neil had no love of discipline save as he administered it. When he decided to "fine the grade," he breathed defiance with every order issued by the military leader.

"Here, you! Look out for yer feet!" muttered the man next him. "Keep shtep, can't you?"

"Get along wid yer sheeps" said Larry, turning on him. "I've a shtep of me own, an' I'll take it or lave the p'rade to get on widout me."—Youth's Companion.
