The Bellefonte fair has been postponed and will begin to-day (Thursday) and will continue until Saturday evening.

Nelson Marshall, west of Centre Hall, had the misfortune to lose by death one of the best horses on the farm, beginning of this week. The

animal was worth over \$200. W. Gross Mingle, of the Howard Creamery Corporation, was appointed their home, which is on semi-high nation for county coroner. He rea delegate by Governor Tener to, the National Conference on Dairy Products, at Milwaukee, Wisconsin, Octo-

ber 10 to 18. George Robertson, of Hartford, was in Centre Hall for several days last week. He is a druggist, but did not come here on business. While in town he was a frequent caller at the Brisbin home, which place he visited in times past.

W. P. Leitzel, of Belvidere, Illinois, after visiting relatives about Spring Mills returned to his home again. He is a son of Percival J. Leitzel, who years ago taught school in Centre Hall. The father and son are engaged in the grocery business in Belvidere and are doing well.

The Bellefonte Republicans nominated two women for school directors, and the Democrats endorsed one of them. Mrs. Roger R. Brouse and Mrs. Charles Gilmour will have their names on the Republican ballot, and the former will also have her name on that night, the precipitation being in the town. the Democratic ticket.

Parsonages, unless under the same roof as their respective churches, under an act passed by the recent legislature, are taxable, and assessors bave tractions of all kinds are being held no discretion in the matter. In some boroughs councils are exonorating parsonages from tax, but it is questioned whether they have this power.

D. K. Geiss for the present will make his home with his son D. Wagner Geiss, in Bellefonte. It is his intention later on to make a prolonged visit to his brothers in Kansas. Mr. Geiss moved to Centre Hall and into the house he just varated about 1870, and is therefore one of the oldest citizens in point of length of residence.

Misses Elsie and Virna Geiss left Centre Hall on Monday afternoon for Bellefonte, and Tuesday morning the entire crop was sold at thirty-five started for Philadelphia, in which cents per bushel, Mr. Rossman's part city they have cast their lots. On the seventh page of this issue is condensed, yet complete, report of the Austin disaster. The account was written a few days ago, and since the number of lives lost have been reduced to between one hundred and one hundred and fifty.

Mrs. J. D. Smithgall, nee Miss Romie Van Pelt, came to Centre Hall from Austin on Tuesday, and in relating her personal experience during the catastrophy stated that the pen pictures in city dailies were not overdrawn, except that the loss of life was not as large as was first reported.

Mr. and Mrs. Smithgall were on the streets when the dam broke, and the first word they had of the brake was the shrie's of a woman whe gave information. Mr. Smifhgall was skeptical, and made no immediate effort to flee, but soon his ears caught a sound the like of which he had never heard before. He was then convinced that the fright, but that the dam had broken and the waters were rushing through the gorge and would soon lay waste side where their five-weeks-old son was left in charge of a maid.

In a recent issue mention was made of the superior quality and the great yield of apples in a young orchard fertilized and sprayed by John C. Rossman, of Centre Hall. Tuesday also furnishes the barrels. This is the first crop of any consequence this orchard ever bore. The fruit consists of Baldwins, Spies, Greenings and Mrs. M. M. Condo, near Centre Hall. Ben Davis, about one half of the crop being of the latter variety, which acweek. Mr. Moyer has been employed counts for the somewhat shading in the price. It is estimated the yield of the orchard will be fully four hundred bushels, most of which can be picked from the ground.

The Great Violinist Didn't Play the Miser on This Occasion.

The following story places Paganini in a better light than this musical miser was accustomed to appear. And really one is led to wonder which is the true Paganini-the miser or the kind artist giving his talent to assist a poor servant girl. One morning the maid who waited on him in Paris came to him, weeping, and told how her lover had been conscripted and sent away to the war, and she, of course, was too poor to buy a substitute for him.

Paganini resolved to aid the girl and took a unique way to do it. He procured a wooden shoe and so fashioned it that it could be strung up and played like a fiddle. Then be advertised that he would give a concert and play five pieces on the violin and five on a wooden shoe. Of course this strange announcement drew a good house. The violinist had given the girl tickets to the concert, and after it was over he went to her, and, pouring 20,000 francs into her lap, he told her that she could now purchase a substitute for her sweetheart and with the remainder set up housekeeping. He also gave her the wooden shoe that had brought her such good fortune and told her to sell it. Of course this curious instrument brought her a goodly sum, which she added to the amount which was to bring her domestic happiness .- W. Francis Gates in "Anecdotes of Great Musicians."

MASTERS OF CHESS.

Some of the Greatest Blindfolded Players of the Past.

Playing at chess without seeing the board is a much older accomplishment than is generally known even among chess players. Buzecca, an Italian, as early as 1266 played three games at once, looking at one board, but not at the other two. His three competitors were skilled in the game, but he won two games and made a draw of the third. Ruy Lopez, whose name has been given to an opening; Mangiolini, Terone Medrano, Leonardi da Cutis. Paoli Boi, Salvia and others who lived between the thirteenth and seventeenth centuries were able to play the game without seeing the board. Father Sacchieri of Pavia early in the eighteenth century played three games at once against three players without see-

ing any of the boards. It remained for Phillidor, the greatest genius at chess known up to his time, to play blindfolded in England in 1783 against three of the best players then living, winning two games and drawing the third, surprising his antagonists and the throng of onlookers by keeping up a lively conversation all the while. Phillidor's achievement as to the number of simultaneous games has been far outdone by Paul Morphy. Paulsen, Blackburne and several of their successors. But Phillidor, lively Frenchman that he was, still holds the palm as a conversationalist and player

at the same time. Phillidor was the assumed name of Francois Andre Danican, born at Dreux in 1726. He was educated as a court musician for Louis XIV. He composed music to Dryden's "Alexander's Feast" and to many operas, all long since forgotten. Dunican's fame does not live in music, but as Phillidor, the chess player. As a chess player he visited Holland, Germany and England. In 1749, while in England, he published his "Analysis of Chess," a work which has taken its place among the classics of the game: He died in England Aug. 31, 1795.-Exchange.
