The Democratic vote in the borough for candidates for county offices is as follows:

Sheriff: Gingery 20, Hipple 1, Lee 65
Prothonotary: Foreman 71, Hoffer 14
Treasurer: Grebe 25, Miller 43, Schofield 3
Register: Smith 78, Trafford 8
Recorder: Alters 14, Detrich 19, McKinley 7, Speer 40
Commissioners: Butler 1, Dunlap 10, Fry 6, Grove 4, Hoy 5, Lemon 1, Noll 61, Runkle 28, Stover 10
District Attorney: Fortney 28, Johnston 28, Ketchline 9, Woodring 1
Coroner: Fisher 77
Auditor: Brungart 54, Collins 23, Hoy 50
Surveyor: Wetzel 54

The primary election in the borough was well attended, only two or three of the voters now at home being stay-aways. The tally sheets indicate this ticket nominated:

Judge, E. D. Foreman; inspector, A. V. Adams.
Constable, W. H. Runkle
Council, William Fiedler, 4 years
John D. Lucas, 4 years
John A. Martz, 4 years
Lyman Smith, 2 years
Overseers, Perry W. Brown
Auditor, T. L. Moore
Justice of the Peace, John G. Dauberman
William B. Mingle
School Directors, H. F. Bittor, 4 years
John G. Dauberman, 2 years
John H. Puff, 4 years
L. G. Reaick, 2 years
H. G. Strommeyer, 6 years
High Constable, John Geary

The ballot gave no choice, only sufficient names being on it to fill the various offices.

The borough Republican ballot was blank except for the names of B. D. Brislin, for inspector, and the candidates for school director which were the same as on the Democratic ticket. The ticket named is as follows:

Judge, W. A. Henney; inspector, B. D. Brislin.
Constable, W. H. Runkle
Council, J. I. Fetterolf, 4 years; J. S. Reich, 4 years; Wm. J. Smith, 4 years; H. C. Shirk, 2 years
Overseer, Alfred Durst, A. P. Krape
Auditor, E. E. Bailey
Justice and School Director, same Democratic ticket
High Constable, Charles Stump

The Potter township Democratic ticket is as follows:

North precinct—Judge, E. W. Crawford; inspector, Daniel Bohn; reg. assessor, J. C. Kuhn.
South precinct—Judge, D. C. Rosman; inspector, Lloyd Smith; reg. assessor, Jonas G. Boal.
West precinct—Judge, J. S. Housman; inspector, S. C. Brungart; reg. assessor, J. W. Isler.

School, Wm. Bower 2, Elmer Royer 2, Adam Heckman 4, Peter Jordan 4, A. C. Ripka 6.

Constable, Charles D. Frazier  
Auditor, John E. Rishel  
Supervisor, Frank Bogdan  
Overseer, James Moyer, W. C. Farmer  
GREGG TWP.

The ticket nominated by the Gregg township Democrats follows:

West precinct—Judge, William Meyer; inspector, Frank Ripka; reg. assessor, J. I. Husa.
East precinct—Judge, A. W. Neese; inspector, R. H. Shook; reg. assessor, N. W. Zerby.
Auditor, C. E. Royer
Constable, W. O. Graden
Overseer, T. J. Decker
Supervisor, Emanuel Eungard
School, W. H. Smith 2, John Zerby 2, C. A. Weaver 4, J. D. Neese 4, Adam N. Finkle 6

Harris township Democrats placed in nomination the following ticket:

West precinct—Judge, John Rupp; inspector, John Close.
East precinct—Judge, James W. Swab; inspector, David Rohn, Jr.; reg. assessor, J. L. Treasurer.
School, Jacob Meyer 2, F. E. Wieland 2, William Raymond 4, Charles D. Moore 4, Ernest Hess 6
Overseer, Albert Gingery, William Stover
Auditor, Henry Hosterman, D. B. Thomas
Constable, Mervin Kuhn
Supervisor, not reported

The Potato Crop.

Potatoes are more plentiful than first indications showed. York state and Minnesota show large yields, which are now being sold at prices ranging from thirty-five to forty-five cents at the leading stations. On account of the high prices being demanded at this point, the Howard Creamery Corporation are buying York state stock and making shipments direct to their customers.

**LOCALS.**

Mrs. John Van Pelt was the guest of Mrs. Susanna Spangler, in Centre Hall, beginning of this week.

H. F. Rosman, the Spring Mills merchant is in Philadelphia making a purchase of fall and winter goods. See his advertisement in this issue.

Lame back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Liniment will give relief. For sale by all dealers.

John Kline, of Center Mills, was quite ill last week, but a note from his granddaughter in Porto Rico, stating the family had arrived there safely and that she and her younger sister had started to school, was cheering to him.

Mrs. Sarah Beahm, widow of Henry Beahm, died at her home in Haines township, of heart disease, aged seventy-eight years, eight months eighteen days. She leaves to survive two sons and four daughters. Funeral services were held Tuesday forenoon, conducted by Rev. W. D. Donat and interment was made in the Lutheran cemetery at Aaronsburg.

**ANIMALS IN A FRENZY.**

There's Danger Afoot When Captive Wild Beasts "Go Bad."

What those who have charge of wild animals in captivity, and especially trainers, dread most among the large beasts is that inexplicable change of temperament on the part of the animal known in the parlance of the menagerie as "going bad."

Lions are likely to go bad about the tenth year of life; tigers, two or three years earlier. The male tiger is the dread of the profession when he reaches this condition, because he is more likely to go into a frenzy without warning, and once gone bad nothing will satisfy him but murder.

He will leap for any man within reach, and when once his teeth are on the bone nothing but fire will make him relinquish it, and not always that. This "going bad" may come in the nature of a sudden attack or it may develop slowly and be counteracted if taken in time. An old trainer can usually detect the symptoms of this curious ailment. It seems to be in the nature of a disease, and other animals recognize it and shun the affected one.

When its progress is apparent the danger is not great. All that is required then is a level head and the wisdom to refrain from further interference with the animal.

Sometimes this bad temper will last but a short time, and again it will become the permanent condition of the animal. In that case he is sent to the lonely cage to spend the rest of his life in comparative obscurity, disturbed merely by the passing crowd and his daily meals.—Pearson's Weekly.

**Respect of Dead Royalty.**

Dead royalty was treated with scant respect at Holyrood a century ago. C. K. Sharpe, the friend of Scott, writing to Robert Chambers in 1825, recounted some of his experiences during his wanderings among the tombs in Holyrood. "I remember many fragments of the royal bodies shown in the chapel of Holyrood House—one entire, saving the hand. . . . In later times I paid a visit to the chapel after the royal vault had been closed. 'Oh, man,' said the female in charge, 'if ye had cam here a while syne I cud hae showed ye muckle mair in this place—King James the Fifth's shuter (shoulder) and Lord Darnley's thigh bones, and a gude bit o' the Earl o' Buchan's back.'—London Chronicle.

**MAYONNAISE.**

The Way the Genuine Dressing is Prepared by French Cooks.

Housewives concoct all sorts of dressings—cooked and uncooked—which they call mayonnaise, but which are not properly entitled to that name. The genuine mayonnaise as prepared by French cooks is made by combining olive oil, egg yoke and vinegar without cooking in such a way that the mixture will not curdle. The proportions of these ingredients and the method of putting them together may be varied, and mustard and similar seasonings may be added, but fundamentally the real mayonnaise is always the same. The following rule will be found a good one:

Have ready one egg yolk, one scant cupful of olive oil, three teaspoonfuls of vinegar, a saltspoonful of salt, a saltspoonful of sugar, a light dust of cayenne and a level half teaspoonful of powdered mustard. Break the yolk with a fork, beat the mustard, salt, pepper and sugar into it and when a smooth mixture has been formed begin adding the oil, drop by drop, until the whole begins to look like creamed butter. Then pour in the oil faster until all is used. While the oil is being added the dressing should be beaten constantly with a fork. Last of all, pour in the vinegar very slowly, beating the dressing rapidly while doing so. Set it on ice to stand until wanted and add it to the salad the last moment before serving.

It is well to have everything very cold when making this dressing, although excellent mayonnaise has been made without the use of ice, but the oil must not be so cold that it has begun to thicken. It is sometimes stated that the drop by drop method is unnecessary, but while success may be obtained by putting the ingredients together more quickly it is always risky to do so. The drop by drop method practically insures success. If desired lime juice may be substituted for the vinegar.—Exchange.

**FRENCH POLICEMEN.**

They Can't Be "Fixed," and They Are Always Polite.

The laws of France relative to the out of door life of the masses are made in the interest of the people. Furthermore, they are enforced. There is no fixing things with a French policeman. If your bicycle has suddenly been twisted into junk by a careless driver the belted and brass buttoned gentleman who arrives on the scene questions you with intelligence and jots down in his notebook the facts of the occurrence as near as he can ascertain them. Throughout the interview he is polite, alert and painstaking in getting at the exact truth, and, whether you or the offending driver or both accompany him to the police station, he conducts you with a quiet dignity and an air of fulfilling his duty. It does not make the slightest difference in France who you are or whether or not you have mutual friends or come from his "ward" or are a relative of Congressman So-and-so. If you are at fault you must pay the damages. If the other fellow is to blame you will be ushered from the presence of the commissaire de police with as much ceremonial politeness as would be shown at a diplomatic interview.

If it is boiling hot or freezing cold and you are in need of information, go to the nearest policeman, address him as "monsieur" and raise your hat. He will immediately return you a military salute, listen attentively and give you, as carefully as possible, the necessary information, saluting you again as you raise your hat to leave him.—F. Berkeley Smith, "Parisians Out of Doors."

Couldn't Fool Him. Serving in the capacity of collector for a local bank is a colored man who spends his evenings playing in an Oakland band.

One of the clerks in the bank, knowing of the clerk's musical attainments, said to him, "Joe, I went to a vaudeville show last night, and one of the fellows there played 'Traumerel' great!"

Joe looked at him suspiciously for a moment and then said: "You tell that stuff to Bonny. You don't get me to bite, 'cause Ah knows they ain't no such instrument."—San Francisco Chronicle.

**A Simple Antidote to Poison.**

It is a valuable thing to understand thoroughly what simple antidote to take if one is so unlucky as to swallow poison of any kind. Sweet oil is to be found in nearly every house, however humble, and half a pint of it taken immediately is an effectual antidote to almost all poisons. Any one with a strong constitution should take a larger quantity of this simple remedy.—London Family Herald.

**Household Debate.**

"I could have done better than to marry you."  
"You bring that question up at inopportune times, my dear. Suppose we place a regular weekly evening on the calendar, to be devoted to its discussion."—Pittsburg Post.

**Sufficient Proof.**

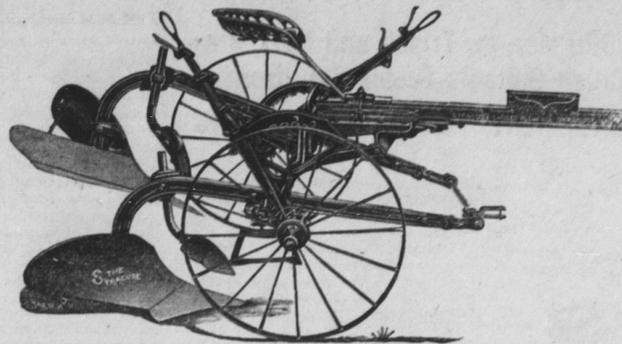

Lady—And you guarantee that the parrot talks quite a lot? Dealer—Rather. His last mistress sold him because she couldn't get a word in edge ways.—Fleisigende Blatter.

**Quite a Linguist.**

"My husband speaks three languages fluently."  
"English, French and German?"  
"No. Baseball, golf and aviation."—Chicago Record-Herald.

Centre Reporter \$1 a year, in advance.

**THERE IS NO PLOW SUPERIOR TO THE SYRACUSE RIDING PLOW**

It plows the same depth the whole day long; sticks to the ground in stormy soil; can be well handled on rocky hillsides. It leaves no dead furrows to wash; will throw the soil up hill better than any other plow made; it is strong enough to do its work, yet not clumsy. It is made for two or three horses.

**NEW IDEA MANURE SPREADER** Does its Work To Perfection

There are many of them in use, and every machine is giving satisfaction. The draft is light, yet no other spreader will do the work as well. The wear and tear has been reduced to the minimum in the New Idea.

**THE "OLDS" GASOLINE ENGINES**

have many superior qualities. The cut here represents the 4-A Hopper Jacket Engine. From the material that enters into it to the smallest detail, the engine is superior in quality. The Olds engines are built in all sizes. Ask for a descriptive catalog.

**THE MAGNETIC NEEDLE.**

It is Quite Often Very Far From Being True to the Pole.

"True as the needle to the pole," like many another popular saying, conveys a distinctly erroneous impression. In order to keep itself duly informed as to the unfaithfulness of the needle to the pole, or, technically, the "variation of the compass" from the true north, our government maintains a division of terrestrial magnetism.

Not only does the magnetic needle vary at different places, but the variation changes from year to year and even at different times in the day. On magnetic survey charts those places which at a particular time have the same amount of variation are connected by what is known as an isogonic, or equal variation line. Through these points on the map in which there is no variation of the needle from the true north a line known as the agonic passes.

Iron deposits and mountain ranges modify the action of the unknown causes of the periodical variation and cause these lines to become even more crooked than those which mark equal temperatures, known as isothermal lines.

Isogonic charts may be accurate today and full of small errors in a few years. The famous Mason and Dixon's line between Pennsylvania and Maryland, which was surveyed in the years 1763 to 1767, was run by the stars and not by the needle, a great piece of foresight in that day. If it had been surveyed by the compass in 1800 it would have shown a deviation in some places of two miles, and had the line been run by uncorrected compass a hundred years later, in 1900, the variation would have reached nearly nineteen miles to the south and the rich coal fields of two Maryland counties would have been thrown into Pennsylvania.

The discovery of the magnetic needle's shortcomings is believed to have been made during the voyage of Columbus. The disclosure constitutes a high tribute to the scientific perceptions of that day, even though it spread consternation among the ships' crews.—Harper's.

COLTS FOR SALE—Two Percheron spring colts, and one yearling colt weighing 1100 pounds. E. T. JAMISON, Spring Mills, Pa. St. paid

RED CROSS DOUBLE HEATER—A Red Cross double heater, good as new, and in first class condition for sale by J. H. WEBER, Centre Hall, Pa.

HELP WANTED—A girl or woman is wanted at the Delphi Home, State College, to do washing and general house work; no cooking. Answer by letter. MRS. F. E. HOMAN, State College.

FARM FOR SALE—The undersigned offers at private sale their farm, three-fourths mile north of Tusseyville, containing fifty-six acres, forty-nine of which are clear and under cultivation, the remainder is timbered. A good dwelling house, and out buildings are on the premises; also good cisterns and plenty of fruit of all kinds. The property is for sale until September 1st, after which offer to sell is withdrawn. The reason for selling is on account of the advanced age of the owners. For further particulars apply to the undersigned. J. S. SHOWERS, Mrs. J. S. SHOWERS, Yougalaie, Pa.
