

MUNYON PREACHES HOPE PHILOSOPHY

New Association Gaining Many Members.

FAITH'S CURATIVE POWER

NOTED HEALTH EXPERT GIVES REASON FOR BIG SUCCESS IN MEDICINE

Tremendous success has attended the organization of the new Munyon "Hope Cult." Professor Munyon claims that he has secured more converts than he even anticipated, and says that his "Hope Cult" is growing in leaps and bounds. It is said that the total membership of the association throughout the United States is now well over the half million mark.

In a statement for publication Prof. Munyon said:

"I want to talk to every sick, ailing and despondent person in this city. I want to preach my new creed to the people. I want to tell them about my new philosophy of health, which is the fruit of a lifetime of study and experience in dealing with sick folk.

"I want to expound the Great Truth that I have learned, that there is more curative power in an ounce of Hope than in pounds of drugs. That sick people should not take medicine except as a medium through which the great curative power of Hope may be made effective. Medicine is necessary in the present state of the world's progress because they give a patient physical support and strength and renewed vigor with which to brace up the will power. One knows, from the action of the proper medicine, that he or she is feeling better by this inspired hope and faith, which complete the cure.

"I think that probably a million persons at least in the United States have declared themselves cured by my medicines, and I know that these people have had the best remedies medical science had to offer. I have always contended that if there is any virtue in medicine it is in the hope that it gives, and I verily believe that more than one-half of those who have been lifted to health from the bondage of chronic illness, through taking my medicines, have been really cured by the knowledge that they had the utmost in medical lore at their command, and the Hope this inspired.

"I am not in any sense a practicing physician. I employ at my laboratories in Philadelphia a large staff of expert physicians and chemists, and I have many other physicians in various cities of the United States detailed to give free advice to the sick and afflicted. My headquarters are at Munyon's Laboratories, 533 and Jefferson Sts., Phila., Pa., and I have there a staff of duly registered physicians and chemists, who will attend to all who desire it. I offer the best of medical advice absolutely free of charge."

Not in Circulation There.

An error of a new clerk in the mailing department of an eastern publisher was responsible, the other day, for the mailing of a prospectus to a world-famous statesman, who had been dead for some years. The letter was returned a few days later with the following indorsement: "In Heaven—, 1911. Gentlemen: As your publications are not permitted to circulate here, I believe it would be useless for me to subscribe for them. Yours respectfully," and here followed the name of the famous statesman.

This One is on Hugh.

"When I came into the Union station the other morning, after traveling all night," said Hugh Kelly, at the Commercial club, "I went into the barber shop. When you spend the night in a sleeping car, I said to the barber, 'It doesn't improve your personal appearance, does it?'"

"Well," said he, as he looked me over, "I don't know how you looked when you started, but perhaps you're right."—Washington Herald.

The Climatic Autocrat.

"What I should like," said the self-indulgent person, "would be to have wealth enough to permit me to live in a cool place in summer, and regulate the temperature according to my own fancy in winter."

"You don't need wealth. What you want is the job of janitor."

If you are unable to keep your troubles to yourself they will expand.

STATE CAPITAL NEWS

Laws to Stop Flood Disasters.

After an all-day session the State Water Supply Commission announced that it would have further inquiry made into the causes of the breaking of the Bayless dam at Austin and would recommend legislation to give it full authority over all dams in the state, existing or to be built. The position of the commission was indicated by this statement:

"The Water Supply Commission of Pennsylvania at its meeting today after careful hearing and consideration of the facts submitted to it by three members of that body who have been on the ground since the disaster, as well as the report of its chief engineer, who was in Austin fifteen hours after the break, has decided to recommend to the Governor and Legislature the enactment of legislation as will preclude the probability of such occurrences.

"This recommendation concerning legislation will include dams heretofore constructed, as well as any future obstruction that may be placed in any stream. In the judgment of the commission such legislation is absolutely essential, as under existing law it is possible to place obstructions in streams not heretofore declared public highways without the knowledge of the Water Supply Commission, or any other State or public official."

The commission also directed a further careful investigation of the destroyed dam, its original design, method of construction and character of foundation.

Start Work on "Narrows."

Work was begun Wednesday by contractors of this city on the first section of what is destined to be the State's main highway between Philadelphia and Pittsburgh, passing through the famed Lewistown "Narrows."

The Harrisburg company has the contract for four and a half miles in Perry Township, Mifflin county, and a Punxsutawney man the Juniata county end of six and three-fourths miles. The contract price on the first is \$99,000 and on the second \$120,000.

Part of the road will run through a fine forest, over four miles having been cut so that it will be above all danger of high water in the Juniata river. The road will be over twenty feet wide and of Telford asphaltic macadam, the Telford being of eight by five inch stone blocks covered by three inches of macadam mixed with asphalt.

The road will be uniform and well equipped with drains to carry off any water coming down the hillsides. Big cuts will be made and telegraph and telephone poles removed for some distance.

The road has been prepared for grading by a corps of men from the State Highway Department and will be constructed under the supervision of Engineer George H. Riles, Philadelphia. The grading will be pushed and some concreting may be done this fall.

Good Freight Movement.

The freight movement over the Pennsylvania Railroad through Harrisburg was 169,746 cars, the best of any September in three years, and was a very fair showing considering the business being handled.

Full Crew Law Hearing Set.

Attorney-General John C. Bell announced that the argument on the full crew law contest would be heard in the Dauphin County Court probably on October 26 and 27. It was originally set for October 11.

Buller Visits McCall.

Fish Commissioner Nathan R. Buller made an inspection of the conditions at McCall's Ferry dam, where complaints have been made about the fishways and the fishing conditions. The Commissioner stated that he would prepare a statement on the results of his observations.

Prohibitionists State Ticket.

Burton L. Rockwood, chairman of the Prohibition State Committee, announced that the Prohibitionists had named complete tickets in fifty-six counties of the State. Tickets will be named by committees in other counties and a campaign in the interest of the party candidates started in every county.

Heavy State Receipts.

State Treasury receipts Monday aggregated \$453,235.58, the largest of any day in a month. One of the largest payers was the Standard Oil Company, which paid for State taxes on stock of subsidiary companies \$238,000, while the Pittsburgh Coal Company paid \$94,557.16; the Lehigh Coal and Navigation Company, \$40,000.

State Seeks Highway Bids.

The State Highway Department asked for bids for the construction of the third section of road to be built under the Sprout main highway law. It is located in Moreland township, Montgomery county, and is to be 6,500 feet long. Bids will close October 26. The department has let the contract for construction of 5048 feet of road in Salladasburg, Lycoming county, to the Juniata Paving Company of Philadelphia, at \$13,225.40.

RASH ALL OVER BABY'S BODY ITCHED SO HE COULD NOT SLEEP

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days a nasty rash came out all over his body. We took him to a doctor who gave us medicine for him.

"My trouble started with a pimple on rash and was all over baby's body, head and face, at different times. It irritated, and he would scratch it with all his might. The consequence was it developed into sores, and we were afraid it would leave nasty scars on his face.

"When we reached England we took baby to another doctor, who said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to itch and burn at night so bad that the child could not sleep. He was completely covered with it at different times. It was at this time that my mother advised us to try Cuticura Soap and Ointment. After using Cuticura Soap and Cuticura Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment. We have had no further trouble with baby's skin. Nothing stopped the itching, and allowed baby to sleep but Cuticura Soap and Cuticura Ointment." (Signed) Mrs. Margaret Gunn, 29 Burrell St., Roxbury, Boston, Mass., March 12, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. 14 K, Boston.

DOCTORS FAILED TO HELP HER

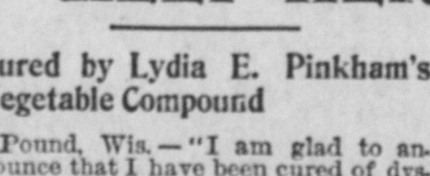

Cured by Lydia E. Pinkham's Vegetable Compound

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."—Mrs. HERMAN SLETH, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

COMMERCIAL

Weekly Review of Trade and Market Reports.

R. G. Dun & Co's weekly review of trade says:

"There is nothing in the industrial and mercantile situation to correspond with the commotion recently prevailing in the financial markets in this and other countries. While the promotion of large enterprises is checked and conservatism is the rule in all branches of trade, and industry supplies in nearly every line are so narrow and immediate requirements of a constantly increasing number of consumers are so large that the volume of business is very extensive. Moreover, with good weather and with crops well harvested, there appears in most sections a noticeable, even if moderate increase in activity, while mercantile and credit conditions are sound."

Bradstreet's says:

"Buying from jobbers and wholesale dealers continues relatively steady, and the week's reports indicate that recently reflected comparative improvement has been maintained. The larger centers indicate that road and house sales are better in a number of lines and that demand for staple dry goods, groceries, clothing and boots and shoes is gradually extending.

"That which deprives the situation of uniformity and invests it with irregularity is found in the lethargic condition of the iron and steel markets, where price cutting continues. In reports of diminished railway traffic and lighter earnings, together with existing strikes and talk of strikes on the part of railway shopmen and building trades hands at New York."

A Reader Cures His Constipation—Try It Free

Simple Way for Any Family to Retain the Good Health of All Its Members.

The editors of "Health Hints" and "Questions and Answers" have one question that is put to them more often than any other, and which, strangely enough, they find the most difficult to answer. That is "How can I cure my constipation?"

Dr. Caldwell, an eminent specialist in diseases of the stomach, liver and bowels has looked the whole field over, has practiced the specialty for forty years and is convinced that the ingredients contained in what is called Dr. Caldwell's Syrup Pepsin, has the best claim to attention from constipated people.

It is successful in the cure of stubborn constipation has done much to displace the use of salts, waters, strong cathartics and such things. Syrup Pepsin, by training the stomach and bowel muscles to again do their work naturally, and with its tonic ingredients strengthening the nerves, brings about a lasting cure.

Among his strongest supporters are Mr. John Gravette of 36 Milwaukee Ave., Detroit, Mich., Mr. J. A. Vernon of Oklahoma City and thousands of others. It can be obtained of any druggist at fifty cents and one dollar a bottle, or if you want to try it first a free sample bottle can be obtained by writing the doctor.

Terrible Kidney Trouble Cured After Physicians Gave Up Hope.

Mrs. Gertrude Wilson, 642 Beckley St., Camden, N. J., says: "I became bloated I could not button my dress. My head ached terribly and I was so dizzy I had to grasp something to keep from falling. A retention of kidney secretions set in and I often went 48 hours without a passage. Three physicians treated me but I gradually grew worse. As a last resort I began taking Doan's Kidney Pills and when I had used seven boxes, I was a well woman. I have had no return of kidney trouble during the past three years."
