Concrete work stands the weather. No rotting, shrinking, warping, no crumbling nor rusting can occur where good sand, gravel or crushed stone have been mixed properly with UNIVERSAL Portland Cement and cast into sidewalks, floors, steps, foundations or other concrete work. Our best customers are our old customers who know by experience that concrete made from UNIVERSAL cement is good for years of use. Ask your dealer for UNIVERSAL when you have any concrete work to do.

The shortest words sometimes carry the most weight.

Experience may be the best teacher, but some people prefer a more fashionable school.

Accidents, Burns, Scalds, Sprains, Bruises, Bumps, Cuts, Wounds, all are painful. Hamlin's Wizard Oil draws out the inflammation and gives instant relief. Don't wait for the accident. Buy it now.

Overlooked. Knicker—We can't carry revolvers any longer. Bocker—But they didn't take away the girls' hats.

And So On. "What is this domestic science?" inquired the engaged girl. "It consists of making hash out of the left-over meat, and croquettes out of the left-over hash," explained her more experienced friend.

Association of Ideas. "You have a great many flies and mosquitoes," said the rather supercilious girl. "Yes," replied Farmer Cornstossel. "I didn't like to mention it, but I've noticed every year that flies, mosquitoes and summer boarders all appear to be on hand at the same time."

When Friendship Counts. The doors of the deformed man are always locked, and the key is on the outside. He may have treasures of charm inside, but they will never be revealed unless the person outside cooperates with him in unlocking the door. A friend becomes, to a much greater degree than with the ordinary man, the indispensable means of discovering one's own personality. One only exists, so to speak, with friends. It is easy to see how hopelessly such a sensitiveness incapacitates a man for business, professional or social life, where the hasty and superficial impression is everything, and disaster is the fate of the man who has not all the treasures of his personality in the front window where they can be readily inspected and appraised.—From the September Atlantic.

**MISTAKEN DIAGNOSIS-DOCTORS GUESS WRONG AGAIN.**

About five years ago I wrote to you that I had been a terrible sufferer from kidney and bladder troubles, and that my physician informed me that my left kidney was in such condition that there was no hope for my recovery. I was advised to try your Swamp-Root as a last resort, and after taking four fifty-cent bottles, I passed a gravel stone which weighed ten grains. I afterwards forwarded you this gravel stone. Have had no return of any trouble since that time and cannot say too much in favor of your wonderful preparation, Swamp-Root, which cures, after physicians fail.

Very truly yours,  
F. H. HORNE,  
Roseboro, N. C.  
Personally appeared before me, this 31st day of July, 1909, F. H. Horne, who subscribed the above statement and made oath that the same is true in substance and in fact.

TEN YEARS OF SUFFERING.

Continual Pain, Dizziness and Nervousness Caused by Weakened Kidneys.

Mrs. Elizabeth Weiss, 2442 North Seventh street, Philadelphia, Pa., says "From morning until night I underwent tortures. My head throbbed and I could scarcely stay on my feet from dizziness. My back ached as if it would break and I was nervous and often cried. I doctored but grew no better and the outlook was dark indeed. Yet relief was to come and I can always thank Doan's Kidney Pills. They cured me and for over a year I have had no suffering from my kidneys."

In adjusting these, pad with any soft material that is at hand; straw, leaves or cushions made of grass may be used. Weekly Review of Trade and Market Reports.

R. G. Dun's Weekly Review of Trade says:

"Measured by every important test the volume of business is larger than at the corresponding period last year, and it is gradually expanding, the reports from the leading trade centers during the week being especially cheerful. There is apparently no decisive change in basic conditions, and the increased activity recently shown is due to the fact that shelves are practically empty and the immediate needs of a growing population, even on a more economical basis, are pressing for supply. Thus, with little or no speculative anticipation of the future, a volume of business is being transacted which, although below full productive capacity, is, nevertheless, large. This appearance of increased activity is particularly shown in the dry goods trade, in most of the branches of which, and particularly in cottons, a brisker movement is reported and more mills are resuming production. Woolens are also in fair demand and the clothing, millinery and other kindred branches appear to be doing well. An increasing activity is also reported in shoes and the sale of leather-make up a respectable total."

"They're All About Tailors." "All criticism," said Professor Brander Matthews in one of his brilliant Columbia lectures, "is to a certain extent, personal and biased." He paused and smiled. "The Tailor and Cutter, a weekly paper," he resumed, "said in a recent leading article: 'Carlyle's "Sartor Resartus," Meredith's "Evan Harrington" and Kingsley's "Alton Locke" will be great classics when the ephemeral novels of today will have long since perished.'"
