Leaves Kidneys in Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this yea" are very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to more serious sickness, such as dreaded Bright's Disease. Local druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver und bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample bottle of Swamp-Root, free by mail, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50 cts. and \$1.00. For sale at all druggists. Be sure to mention this paper.

Both Wrong.

A ludicrous story is told of an Edinburg bailie, whose studies in natural history seems to have been limit ed. The following case came before him one day:

A man who kept a ferret having to go into the country, left the cage with the ferret in charge of a neighbor till he should return. The neighbor incautiously opened the cage door, and the ferret escaped. The owner was quit work until he could regain his very angry, and brought a claim against him for damages.

The following was the decision of the learned bailie: "Nae doot," he of Mr. La Follette's serious condition said to the neighbor; "nae doot ye was Friday night at Philadelphia, was wrang to open the cage door; where he spoke to the publishers, debut," he added, turning to the owner. nounced the newspapers and was hiss-"ye was wrang, too. HOUSEWORK IS A HEAVY BURDEN

and Night

The woman who "keeps house" has enough to do when she is in good, sound health, but if she is weak, tired all the You in Misery Day The following case is typical of the cures You in Misery Day health, but if she is weak, tired all the time, and suffering from morn to night with an aching back, house-work becomes a heavy burden.

Many women who were afflicted in this way say that Doan's Kidney Pills have made life easier for them. Women are subject to kidney disease. The clothing they wear, the work they do,

the worry and strain of bearing and rearing children, the lack of proper exercise; all tend to it. Backache, bearing-down pains, headache,

dizzy spells, faintness, fits of "blues," and other troubles often thought to be peculiar to the sex, are found frequently in kidney disease. When any one of these ills appears, together with a discolored condition of the kidney secretions, with passages too frequent, scanty or burning, just make up your mind that your kidneys are weak, and be quick to help them.

Doan's Kidney Pills have helped a great many weak women through the trying times when kidney disease means so much added misery. They do not disturb the stomach or bowels and contain no poisonus, dangerous nor habit-forming drugs. Doan's are harmless for children too.

A Connecticut Woman's Awful Suffering.

Mrs. Selina Jones, 200 Main St., An-sonia, Conn., says: "I began to have kid-ney trouble about 1898. An inflammation of the bladder set in. I had cutting, drag-ging backaches; pain through the loins and ging backaches; pain through the loins and sides and soon got into a state of weak-ness, languor and general depression. My limbs were so sore and tender I could hardly bear the pressure of the bed cloth-ing. I bloated badly and my ankles swell-ed. I noticed a continual ringing in my ears and specks flitted before my eyes. The kidney secretions were unnatural and very irregular. At times I fairly screamed with pain. I became so weak and sick, that I was put to bed and stayed there three months under doctor's treatments. I grew was put to bed and stayed there three months under doctor's treatments. I grew worse constantly, and my family was en-tirely discomraged. Beginning with Doan's Kidney Pills, I was surprised at their ef-fect. "Come back, Fatty!" the other boys shrieked. "You'll bust it all in, an' den youse'll both be drowned!"

But the fat boy, flat on his stomach and spread out to his widest extent, ignored these warning cries and steadily crept toward the black bole and Tommy's clinging fingers.

Once the ice made a cracking sound and the watchers yelled with dismay. But the fat boy did not halt. Nearer and nearer he came, and finally his out-stretched hands caught those clinging fingers and drew the small boy, little by little, onto the firmer ice and so to safety.

"What did youse do it fer, Fatty?" one of the boys tearfully remonstrated

Quite So.

The teacher in the primary department of a Philadelphia school had been holding forth at some length with reference to the three grand divisions of nature-the animal, the vegetable and the mineral. When she had finished she put this question:

"Who can tell me what the highest form of animal life is?"

Whereupon the pupil nearest her hastened to supply the answer as follows:

sad anti-climax early Saturday morning.

After he had delivered his rambling philippic of 2 hours and 10 minutes against all the newspapers of America and most of the magazines, at the dinner of the Periodical Publishers' Association of America, in the Bellevue-Stratford, he sank into his chair beside Toastmaster Don C. Seitz, business manager of the New York World, When Mr. Seltz blisteringly described the La Follette utterances as "wicked, foolish and untruthful" the Senator's head dropped into his hands.

He talked disconnectedly with several friends when the long dinner came to an end, a quarter of an hour later, and then went to the suite occupied jointly by himself and his private secretary, J. C. Hannan.

He refused to go to bed and sat on a sofa moodily silent. After a time he complained, according to hotel attendants, of illness, and then was attacked by violent nausea. Mr. Hannan and friends did what they could to relieve his sufferings. He appeared to be very weak and to be absolutely Indifferent to his surroundings.

Confederate "Vet" Went Through War Without a Wound.

New York .- After going through the Civil War as an aid on General Lee's staff without receiving a wound, Col. Beverly Winfred Wrenn lost his left leg in New York as the result of a toe stubbed a month ago. Blood poisoning developed, and it was found necessary to amputate the limb just below the thigh. Despite his advanced years, the Colonel stood the operation well, and it is believed that he will recover.

"I have seen the Cuticura Remedies used with best results during the past twenty years. In my work as a nurse, many skin disease cases came under my observation, and in every instance. I always recommended the Cuticura Remedies as they always gave entire satisfaction. One case in particular was that of a lady friend of mine who, when a child, was afflicted with eczema which covered her face and hands entirely, breaking out at intervals with severer torture. She could not go to school as the disfigurement looked terrible. I told her to get at once a set of the Cuticura Remedies. After the use of only one set she was perfectly well.
