

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For twenty years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone that your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mount St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.

Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

FROM THE STATE CAPITAL

Information and Gossip From Harrisburg.

Blight Methods Lauded.
The closing sessions of the Chestnut Tree Blight Conference, called by the Governor so that the United States, various States and the Canadian Government, could devise a uniform method to fight the tree pest, ended here with the adoption of resolutions strongly supporting the system adopted by the Pennsylvania Chestnut Blight Commission and urging appropriations by the States and the Governments.

The final meeting was enlivened by professional difference between forestry authorities and charges that W. A. Murrill, assistant director of the New York Botanical Garden, was playing what looked like politics made by I. C. Williams, Deputy State Forestry Commissioner, brought an angry retort from the New Yorker, Williams charged that Murrill, who was one of the first men to get into the campaign against the blight, had plotted against the favoring of the Pennsylvania plan. He said that he had sent out letters in advance of the convention, tending to make this State's efforts ridiculous.

Murrill replied that he had not tried to asperse the work inaugurated by the Keystone State, but that he felt that it was not proceeding cautiously, as the blight is not yet known thoroughly to science and he deemed it inadvisable to spend public money when the result could not be definitely ascertained.

State Camp.
A camp of instruction for officers of the infantry regiments of the National Guard of Pennsylvania probably will be held this year, although neither the location nor the time has been officially determined upon. The plan is to have all of the infantry officers attend the camp for instruction by officers of the regular army, the guardsmen to be divided into classes of about twenty men each and to have conditions exactly like those of regular encampments. It is probable that the time will be between June 2 and 7 and an announcement will be forthcoming soon regarding the point where the camp will be held.

Aspire to Senatorship.
Two members of the last House fled petitions to be candidates for Senatorial nominations here. They are James N. Hunter, of Pottsville, Schuylkill County District, and Robert L. Wallace, Newcastle, Lawrence County District. Representative nominating petitions filed were: Archer H. Read, Democrat, Clearfield; James L. Curran and Benjamin H. Alexander, Republicans, Pittsburg, Sixth Allegheny; Samuel L. Simpson, Democrat, Dickey's Mountain, Fulton; Charles W. Sheldon, Republican, Tioga, Tioga, and Daniel L. Lechan, Democrat, Pittston, Third Luzerne.

Cutliver Pardon.
Without assigning any reason the State Board of Pardons announced that it had held under advisement the application for pardon of Alphonzo Cutliver, Jr., of Philadelphia, who has been in prison since 1896 for the murder in 1879 of his aunt, Mrs. Johanna Logue. The action means that the case may not be acted upon for a month and no one can tell what will be the outcome.

Celebration of Removal of Capital.
A movement has been started in this city to celebrate on April 1 the 100th anniversary of the actual removal of the State capital to Harrisburg. Prior to April, 1812, the capital of Pennsylvania was in Lancaster, whither it had been removed from Philadelphia. The Governor and various State officials will be invited to co-operate with Harrisburg officials in making the occasion notable.

Many Nominating Papers.
Nominating petitions are flying in Harrisburg these days and it is expected that many will be filed at the Capitol within a few days. Augustus Wildman, who is strongly backed for one of the Republican nominations for the House, will enter his papers soon, as will Ira J. Mosey, Republican, and Milton T. Robinson, Democrat, who want to represent the railroad men in the House.

To Order Plans For Army.
The State Armory Board shortly will order plans and specification for a new armory for the two companies of infantry at Pottsville. A property that is satisfactory to the State authorities has been secured. The construction will be undertaken this summer.

To Go Ahead With Lynching Cases.
Deputy Attorney-General Jesse E. B. Cunningham, when he learned of the action of the Supreme Court which refused to grant a change of venue in the Cotesville lynching cases, said that the Commonwealth would go right ahead with the cases in Chester county. "The Commonwealth has done all it can to take the cases into some other county and the action of the Supreme Court ends our efforts in that direction," he said.

TROOPS ARE READY TO CROSS BORDER

Orders Issued to Prevent Killing of Americans.

WILL ALSO BE REINFORCED.

Meat Vigorous Policy Yet Adopted By Government in the Mexican Trouble—Orders Sent To All Army Posts.

Washington.—Determined that no more American lives shall be sacrificed as a result of fighting on the Mexican border, the President ordered the United States troops along the Rio Grande to be reinforced and gave warning that firing into American territory must be stopped, even though it is necessary to cross the boundary line to enforce compliance.

The order, the most sweeping that has gone out from the White House in the present situation, was issued after a conference between President Taft, Secretary of War Stimson and Acting Secretary of State Huntington Wilson.

In addition to sending another regiment of infantry and three batteries of field artillery to the Mexican line orders were issued to division commanders throughout the country to hold their men in readiness to move at a moment's notice.

Army Establishment Prepared.
The acute situation in Mexico has had the effect of putting the army establishment in a high state of preparedness and mobilization on the Rio Grande could be effected quickly, if the occasion arose.

The Mexican government, it is understood, will be advised of the intention of the United States to prevent at all hazards a repetition of the casualties due to stray bullets coming across the line which marked the fighting during the Madero revolution at several towns along the border.

A neutral zone along the border will be insisted upon, in which fighting must cease. This zone the United States intends to have respected.

The twenty-second infantry and Batteries A, B and C of the Third Field Artillery will make up the reinforcements and will be sent to El Paso from San Antonio.

Troops Resting On Their Arms.
Troops have been practically resting on their arms for several weeks past as a result of the serious condition of affairs below the international line. The Army War College some time ago completed plans for a new mobilization, and it would be a matter of only a few hours to have troops on a train and ready for another "maneuver division."

Aim To Prevent Intervention.
The present mobilization will not mean intervention. It is rather the Government's final effort to prevent intervention. There can be no intervention except by authority of Congress. Mr. Taft may soon send a message to Congress on the subject. He is consulting on the situation. The Administration's policy is especially shaped to prevent excuse for any attack on Americans still in Mexico.

ASKS MADERO TO RESIGN.
Emilio Gomez Would Like To Have the Job.

San Antonio, Tex.—Emilio Vasquez Gomez has wired President Madero of Mexico from here asking him to surrender the presidency of the country and prevent further bloodshed and growth of the revolution movement. Gomez has been advanced as a presidential possibility by the Vasquista revolutionists in Mexico.

1 KILLED, 1 HURT BY DYNAMITE.
Virginians Victims Of a Premature Explosion in Pennsylvania.

Pottsville, Pa.—By the premature explosion of a blast of dynamite, D. B. Wilnot, of Elkins, W. Va., superintendent for a construction company which has a contract for a railroad extension near here, was killed and R. J. Robertson, of Danville, Va., was seriously injured.

Roosevelt and Harmon Lead.
Rochester, N. Y.—The Evening Times, of this city, has just taken a poll of the citizens, by postal card, on Presidential preferences. It resulted in a decisive majority for Mr. Roosevelt as the Republican candidate and for Mr. Harmon as the choice of the Democrats. The returns in detail were as follows: Roosevelt, 318; Taft, 260; Hughes, 136; La Follette, 20; Harmon, 58; Wilson, 56; Clark, 56; Bryan, 47; Foss, 13; Underwood, 6.

Wilson For Local Option.
Washington.—"I am in favor of local option. I am a thorough believer in local self-government and believe that every self-governing community that constitutes a social unit should have the right to control the matter of the regulation or the withholding of licenses." is an extract from a letter of Gov. Woodrow Wilson to Rev. Thomas B. Shannon, superintendent of the Anti-Saloon League in New Jersey, given out at Wilson headquarters here.

COMMERCIAL

Weekly Review of Trade and Market Reports.

Bradstreet's says: "Cumulative improvement is the chief characteristic of the week's trade reports. Demand is expanding and betterment is extending to those centers that have heretofore been particularly quiet. As yet the pace is only steady, but it seems to be consistent and conservative optimism is developing at a greater rate. Mail order concerns have done very well, thanks to the tendency to buy in small lots, and trade in dry goods, wearing apparel, shoes, groceries and other essentials reflects the influences of slow but steady improvement. Cotton goods continue to gain in strength as regards prices, one line after another being jacked up as order books present better aspects.

"Even the South has responded to the improved undertone of things, discontent is disappearing, especially from the larger cities, though some of the smaller centers are still suffering from a paucity of business.

"Wheat, including flour, exports from the United States and Canada for the week aggregate 2,299,137 bushels, against 3,816,458 last week and 2,180,921 this week last year. Corn exports for the week are 1,532,566 bushels, against 1,482,048 last week and 2,028,198 in 1911."

Wholesale Markets

NEW YORK.—Wheat—Spot easy; No. 2 red, 102½¢ elevator export basis and 104¼¢ f o b afloat; No. 1 Northern Duluth, 121 f o b afloat.
