A Mean Disposition.

"Is Puffkins all wrapped up in his motor car?"

"Not yet, but I have hopes."

Everything you need offered free. By conducting a Walker Co-operative Club you can get clothing and furniture and almost anything else without cost. 2,000 articles in 216-page Catalogue No. 11 explains everything. Write today for it. W. & H. Walker, Pittsburgh, Pa.

Rather Rough.

"Why is it that they can't find a 'white hope' man?"

"Because they first have to find a man who is white."

**TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM.** Take the Old Standard GLEW'S FAVORITE CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle. Showing its simplicity and its ease of use, and the most effective form. For grown people and children, 50 cents.

The Club at Midnight.

"He is a model husband."

"Who says so?"

"He does. He told me so at the club at midnight last night."

Counterfeiter Gets Stiff Sentence.

William Fink, a Brooklyn, N. Y., dealer in drugs, was sentenced by the New York Court of Special Sessions, to imprisonment in the penitentiary at hard labor, for four months. The charge was counterfeiting the trade-mark for Carter's Little Liver Pills, in violation of the penal law.

The Carter Medicine Company detected the counterfeit before any quantity of the spurious goods had been placed upon the market. In sentencing Fink, Judge Deuel laid special stress upon the injury done to the public when a remedy so well known as Carter's Little Liver Pills is counterfeited and put on the market. He imposed the sentence not only as the proper punishment of Fink himself, but in order to deter others from the commission of like frauds in the future.

Romance of the Rail.

It was in a Pullman car. The man who traveled for gent's furnishings had succeeded in working up a conversation with the lonesome-looking young woman. He leaned over her and breathed in her ear:

"Patches, I'm taking a little trip to New York. Don't you want to go along?"

"Sir," she said, angrily, "you are going too far!"

But she didn't object to accompanying him as far as Schenectady.

Acme of Laziness.

A story is told of a man who held the Kansas record for laziness. As he was too lazy to do anything at all, his neighbors finally decided to bury him alive. They laid him in the bottom of the wagon and started for the cemetery. On the way they were met by a man who asked what they were doing with that man.

"He won't work, and he has nothing to eat, so we are taking him to the cemetery to bury him alive," was the reply.

Touched with pity, the stranger said:

"Friends, I have a sack of corn here that he is welcome to."

Hearing this, the lazy man raised his head long enough to inquire:

"Is it shelled?"

"No, it isn't, but—"

"Drive on," interrupted the doomed man, as his head disappeared from view.

FROM THE NORTH COUNTRY  
Where the Winters Are Cold and the Snows Deep.

Writing from the vicinity David Harum made famous, a man says that he was an habitual coffee drinker, and, although he knew it was doing him harm, was too obstinate to give it up, till all at once he went to pieces with nervousness and insomnia, loss of appetite, weakness, and a generally used-up feeling, which practically unfitted him for his arduous occupation, and kept him on a couch at home when his duty did not call him out.

"While in this condition Grape-Nuts food was suggested to me, and I began to use it. Although it was in the middle of winter, and the thermometer was often below zero, almost my entire living for about six weeks of severe exposure was on Grape-Nuts food with a little bread and butter and a cup of hot water, till I was wise enough to make Postum my table beverage.

"After the first two weeks I began to feel better and during the whole winter I never lost a trip on my mail route, frequently being on the road 7 or 8 hours at a time.

"The constant marvel to me was how a person could do the amount of work and endure the fatigue and hardship as I did, on so small an amount of food. But I found my new ration so perfectly satisfactory that I have continued them—using both Postum and Grape-Nuts at every meal, and often they comprise my entire meal.

"All my nervousness, irritability and insomnia have disappeared and healthy, natural sleep has come back to me. But what has been perhaps the greatest surprise to me is the fact that with the benefit to my general health has come a remarkable improvement in my eye-sight.

"If a good appetite, good digestion, good eye-sight, strong nerves and an active brain are to be desired, I can say from my own experience, use Grape-Nuts and Postum." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

# FARM AND BEES

## GATE AND CONVENIENT LANES

Arrangement Shown in Illustration Permits Farmer to Drive Little Pigs Underneath.

(By R. G. WEATHERSTONE.)

In hanging our farm gates and building fences, we should look ahead for advantages and disadvantages that may come up later on.

This post that the gate hangs to is round, so that the bands of iron

Gate and Convenient Lanes.

that serve as hinges may slip up and down as wanted. If we wish the gate raised a little to get the pigs under and keep the large hogs back, all we have to do is to raise up the gate and put the pin in one of the holes just below the band.

## BEES AND FRUIT TOGETHER

Few Stands of Little Honey Gatherers Will Add Materially to Profits of Orchard.

The ideal fruit farm, with its orchards of apples, cherries, pears and plums, its shade trees and its gardens, is hardly complete without at least a few stands of bees. Properly managed they will not only add to the profits of their owner, but supply his table with an abundance of the most luxurious of all delicacies, and add materially to the fertility of his berries and fruits by the pollen-distributing habits that these insects possess, writes D. W. Otis in the North-west Farmstead.

This important feature, however, is generally omitted, or carried on in such a way as to result in very little profit and a great deal of trouble; and usually results in failure in the end; and this in face of the fact that it might easily be made one of the most profitable and fascinating of the fruit grower's occupations.

## SAFEGUARD FOR A BEE HIVE

Wire Cloth Cage on Light Wooden Frame as Illustrated Will Prove Effective.

The wire cloth cage on a light wooden frame as shown is not only a good swarm catcher, but useful also as a protector from the robbers, says the

Effective Swarm Catcher.

Orange Judd Farmer. For the latter purpose it is kept over the hive overnight and the robbers destroyed in the morning.

## Selecting Fertilizers.

Thousands of dollars are wasted in commercial fertilizer every year, not because the fertilizer is not all right, but because we do not know whether the kind we use is the kind our land needs. It is a great study and one that we must make for ourselves. Make some simple experiments this year. Put in a strip with fertilizer you have been in the habit of using, and just beside it another without it. This will be worth a great deal more to you than the opinion of some interested agent.

## Wet Cellars.

Unslacked lime is recommended to absorb excess of moisture in the cellar in which fruits and vegetables are stored. It will absorb a limited amount, but a good cellar drain, together with good ventilation, will take care of ground water. It is a good thing to air the cellar on mild days in winter, closing the openings at night. The ventilators may safely be left open for several hours when the outside temperature is several degrees below freezing.

## The Busy Farmer.

The most unhappy farmers in this country are those who have stopped work to rust out in the village. The man who markets his products only when he has nothing else to do will never get the most out of his farm. The moments spent in reading market reports are golden.

The more we make a noise like an oyster the less trouble we will have to overcome.

## HARROW AIDS GARDEN CROPS

Requires Less Physical Energy on Part of Operator Than Any Other Cultivator—Help to Plants.

Do not be afraid to harrow garden crops. When the soil is dry or in a good working condition it will do them much good. Harrowing with all teeth in the harrow just as the plants are coming up will assist many of the weak, struggling ones to push their way through the upper crust, in case a crust has been formed. Except in dry, loose soil, it is difficult for nearly all kinds of beans to push their way out and up, says a writer in an exchange. If the surface soil is much crusted many of them perish in the attempt, and a reseeding is often necessary. The best patch of lima beans that the writer ever grew was harrowed both ways at the time they began to come up. When the man was started on the work he told us that he thought it was not a good thing to harrow beans, for he had never known any one else doing it. He said, "I will harrow them if you say so, but I think it will kill them." When he had harrowed them lengthwise we had him turn on them for a cross-harrowing. At this the man complained loudly, saying that there would not be a bean left in the patch. His expression indicated that we were a better success as a lunatic than a gardener. When the cross-harrowing was completed the man admitted that the harrowing did put the soil in nice shape, and that it did not tear out so many beans after all. Within a few days he admitted that he had never seen so nice and even a stand of beans in his life. The harrowing helped hundreds of the beans to come up, and put the soil in such fine condition that the young plants began to grow rapidly.

## ELECTRICITY TO CLEAN GRAIN

Magnetic Pulley Arranged to Separate Iron and Steel Particles From Small Kernels.

A magnetic separator for removing iron and steel from grain was recently described in an English journal. The separator consists of a steel pulley magnetized by a current of electricity run through coils placed within the rim. The belt conveyor running over

Separating Iron Particles From Grain.

the pulley carries the grain in the usual manner, but as the iron or steel particles reach the magnetic field, they are kept in close contact to the belt until after it leaves the pulley on the under side. The sketch clearly illustrates the operation.

## Corn Silage.

An important consideration is determining the feeding value of corn silage as compared with that of corn stover, foddercorn or bunclecorn, is that in ensilage the whole of the plant, including the stems, is converted into succulent and nourishing food. When fed in any of the other forms the stems are rejected and are of value only as they gradually add to the humus of the soil.

## For Stormy Days.

When a stormy day comes, spend a few hours over the garden seeds for the coming season. See that they are not being affected by dampness nor by excessive heat. The mice may be helping themselves.

## Bees and Farm Notes

One of the great mistakes in dairy farming is in having too much land. No farmer can afford to have a cheap, inferior made silo on his farm. Commercial fertilizer, when properly used, will increase the yield of crops.

Young cabbage plants require thorough protection in the hotbed and cold frame.

Barley and oats, as well as wheat, are usually improved in quality on flax land.

There is no better way by which the corn crop can be used than through the silo.

Garden seeds require much the same treatment as grass seeds or small grains.

Alfalfa is the most wonderful of all cultivated plants, and the oldest one known to history.

You cannot make as good silage from dry cornstalks as you can from mature green corn.

It will take good farming to keep up and increase soil fertility without purchasing feed grown outside.

The egg plant is one of the least known garden vegetables and one that deserves being better known.

The preparation of manure for a hotbed should begin at least three weeks before the hotbed is to be used.

Demand for good, productive farm property is steadily increasing. Some very high prices are paid for well improved farms.

When sowing seed of early vegetable in flats in the hotbed it is a decided advantage to cover the manure with soil.

## FOREIGN SPEED CAR IN 500-MILE RACE

Ralph de Palma.

Ralph de Palma of New York has entered a 90 horse power foreign made car in the 500-mile international sweepstakes race to be held at the motor speedway at Indianapolis next Memorial day. The car is owned by E. J. Schroeder of New York and is the same one in which De Palma won second place in the Vanderbilt cup race at Savannah.

## All-College Baseball Team and 1911 Records

IT is a lucky thing for organized ball that the purity wave anent summer baseball wasn't sighted ten years ago. Had the reform campaign been touched off that long since chances are professional clubs of the present day would have gone begging for truly greats, writes Arnold D. Johnson in the Chicago Record-Herald.

At least 24 diamond idols of today, talented enough to fortify a regulation, full-grown major league club, started their tempestuous careers on the varsity of some institution dealing in the distribution of advance knowledge, and nine of these headliners mustered on the club list boast a team batting average of .223.

Summer ball, just as at present writing, was the big game of our leading universities ten years ago, and stars galore, after going through the varsity mill, and winning their letters, found a ready haven for their skill along this line in salaried ranks. Chief among these now engaged by clubs of the "big show" are Mathewson, Bender, White, Stahl, Eddie Collins, Harry, Harry Lord, Coombs, Heitsch, Plank, Ray Collins, Krause, Meyers, Carrigan, Chance, Chase, Bescher, "Doc" Miller, Daniels, Cree, Birmingham, Grant, Devlin and Shean. The table given herewith is self-explanatory:

Name, University, Position, Club.	Games.	A. B.	P. ct.	Batting	Fielding
Mathewson, Bucknell, pitcher, Giants.....	45	112	196	.886	
Bender, Carleton, pitcher, Athletics.....	32	79	165	1.000	
White, Georgetown, pitcher, White Sox.....	39	78	256	.919	
Coombs, Colby, pitcher, Athletics.....	52	141	319	.913	
Reulbach, Notre Dame, pitcher, Cubs.....	23	67	690	.943	
Plank, Gettysburg, pitcher, Athletics.....	40	94	191	.975	
Collins, Vermont, pitcher, Red Sox.....	31	69	150	.917	
Krause, St. Mary's, pitcher, Athletics.....	28	59	254	.947	
Meyers, Dartmouth, catcher, Giants.....	128	391	332	.979	
Carrigan, Holy Cross, catcher, Red Sox.....	72	232	289	.972	
Chance, U. of Washington, 1st base (mgr.), Cubs.....	29	88	239	.990	
Chase, Santa Clara, first base, Yankees.....	123	527	315	.974	
*Stahl, Illinois, first base, Red Sox.....	144	531	271	.985	
E. Collins, Columbia, second base, Athletics.....	132	493	365	.966	
Barry, Holy Cross, shortstop, Athletics.....	127	442	295	.943	
Lord, Bates, third base, White Sox.....	141	561	321	.941	
Bescher, Notre Dame, left field, Reds.....	153	499	275	.954	
Miller, McGill, center field, Boston, Nationals.....	146	577	333	.961	
Daniels, Notre Dame, right field, Yankees.....	121	462	286	.941	
Cree, Penn State, outfield, Yankees.....	137	529	348	.964	
Birmingham, Cornell, outfield, Naps.....	125	447	304	.973	
Grant, Harvard, utility, Reds.....	133	458	223	.953	
Devlin, Georgetown, utility, Giants.....	95	269	273	.944	
Shean, Fordham, utility, Cubs.....	43	145	193	.947	

\*1910 record.

## PLAYERS DON'T KNOW RULES.

President Lynch of National League Says Fans Want Something Doing Every Second.

President Thomas J. Lynch, of the National League and member of the joint rules committee, thinks the present baseball rules cover every salient point of the game. Most of the fault is with the players, he asserts, not with the regulations of the diamond sport.

"Too little thought is paid the playing rules of the game," said Mr. Lynch. "Just stop a minute and consider. How many ball players do you think are thoroughly conversant with the laws of the game by which they earn a livelihood? I do not believe

plenty of hitting, which implies plenty of base running, plenty of scoring and plenty of sensational fielding. But the games were not unusually long.

"In my estimation, speaking, of course, in an unofficial capacity, all that the baseball rules need is polishing. It speaks volumes for the stage of perfection into which the national pastime has stepped just to recollect that the rules of today are almost identical with those of ten years ago. Since the foul strike rule went into effect there has been practically no change whatever in the playing code."

## TANNEHILL AT SOUTH BEND

Former Star Lefthander of Pittsburgh Pirates, to Play With Central League Team.

Jesse Tannehill, the former star lefthander of the Pirates, Highlanders and Boston Red Sox, has signed to play the outfield for the South Bend club of the Central league. Jesse has decided that his sturdy left wing, once one of the craftiest in the business, has lost its cunning, but believes he can last a few years more as an outfielder. Jesse tried to do a "Callahan" with the Reds last season, but it was not successful.

Jesse recently recommended a man as an umpire to President Neal of the Blue Grass league.

"Well, we need umpires," said Neal. "Of course he is a friend of yours?"

"I should say not," responded Jesse. "Do you think that I'd recommend any one I really liked for an umpiring job? I guess not."

## Penn's Baseball Dates.

The University of Pennsylvania baseball schedule for the coming season, public today, contains 30 games. Among the teams that will appear here will be Yale, Harvard, Princeton, Dartmouth and Michigan.

The schedule includes these dates:

April 10, Philadelphia nationals at Philadelphia; 13, Yale at Philadelphia; 15, Dartmouth at Philadelphia; 19 and 20, Army at West Point.

May 2, Virginia at Philadelphia; 4, Princeton at Philadelphia; 11, Yale at New Haven; 18, Princeton at Princeton; 25, Michigan at Philadelphia; 30, Harvard at Philadelphia.

June 1, Cornell at Ithaca; 5, Columbia at New York; 17, Cornell at Ithaca; 19, Cornell at Philadelphia; 22 and 23, Michigan at Ann Arbor.

President Lynch.

that four in ten of the major league stars are absolutely sure of themselves. In the minor leagues the percentage is even less.

"No changes should be, made in modifying play that could in any way offend the patrons of the sport. Let us look at the present playing code from the standpoint of the fan. Wherein are the rules at fault? How could they be improved?"

"The American public likes action. For that reason the best game is the shortest, provided, of course, that there is something doing every second. Last year the games in both major leagues were unusually spirited. There was

## KIDNEY TROUBLE RELIEVED IN TWO HOURS.

### A SPEEDY CURE

I derived so much benefit from the use of Dr. Kilmer's Swamp-Root that I believe it will be most important for the public to know of its worth.

Last November I was suffering severely with kidney and bladder trouble. The burning pain was terrible. I sent you for one trial bottle of Swamp-Root and it relieved me in about two hours. After taking the small trial bottle, could feel no more pain, so purchased one fifty-cent bottle of Swamp-Root. After taking the contents have not felt one pain from the kidneys or bladder since.

You are at liberty to publish this testimonial should you wish to.

Yours very respectfully,  
W. H. WARREN,  
R. R. No. 2, Box 39, Gainesboro, Tenn.  
Sworn to and subscribed before me  
W. F. Dodson, enacted Justice of the Peace of Jackson Co., Tenn., this 14th day of July, 1909.

Letter to  
Dr. Kilmer & Co.  
Binghamton, N. Y.

## Prove What Swamp-Root Will Do For You

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

**Making Good.**

"Sire," expostulated Nero's confidential adviser, "what do you propose to do to rehabilitate this burning city of Rome so that its inhabitants will not hold the devastating conflagration against you?"

"Oh, fiddle!" retorted Nero. Which he did.

**Important to Mothers**

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher* In Use For Over 30 Years. Children Cry for Fletcher's Castoria

**Unrealized Idyl of a King.**

King Arthur had just invented the round table.

"Can you invent a bureau that a man's wife will let him have two drawers of?" we asked.

**If You Are a Trifle Sensitive**

About the size of your shoes, you can wear a size smaller by shaking Allen's Foot-Ease, the antiseptic powder, into them. Just the thing for dancing parties and for breaking in new shoes. Sample Free. Address Allen S. Olmsted, Le Roy, N. Y.

A woman's idea of heaven is a place where every day is a bargain day.

Most human maladies arise from wrong dieting. Garfield Tea gives immediate relief.

A married woman's description of an ideal man seldom fits her husband.

## MOTHER OF LARGE FAMILY

Tells How She Keeps Her Health—Happiness For Those Who Take Her Advice.

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children.

Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, Lydia E. Pinkham's Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has helped her.

"I am always ready and willing to speak a good word for Lydia E. Pinkham's Vegetable Compound. I tell every one I meet that I owe my health and happiness to your wonderful medicine."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy for woman's ills known.
