

AKIDNEYREMEDYADVERTISEMENT BROUGHT GREAT HAPPINESS.

I take pleasure in stating that I have used Dr. Kilmer's Swamp-Root, that I was greatly benefited by the same and have used it in my family. I had a son, when quite young he suffered from bladder or kidney affliction. I called in my physician, he attended him, but did him no good. Almost by accident I noticed an advertisement about the curative properties of Dr. Kilmer's Swamp-Root. I procured a bottle and gave it to him according to directions. It cured him of what we thought was almost impossible and the same with others of my family. I have such strong faith in Swamp-Root that I have never done without it in my family since the wonderful cure of my son as well as myself. I recommend it to all who suffer from kidney or bladder troubles and I am led to believe that it is one of the best medicines for the purpose for which it is used, that has ever been discovered.

This is my experience from the use of Swamp-Root. Wishing the promoters of this wonderful medicine a large sale to the suffering public, I am,

Yours respectfully,
W. H. MAFFEE,
College Park, Ga.

Witness,
E. O. WILLIAMS, Notary Public.

Letter to
Dr. Kilmer & Co.
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You
Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

UNFEELING!

His Wife—James, I feel faint. I—I can't take a long breath.
The Brute—Take two short ones.

PHYSICIAN SAID ECZEMA CAME FROM TEETHING

"When my little girl was about eight months old, she was taken with a very irritating breaking out, which came on her face, neck and back. When she first came down with it, it came in little watery-like festers under her eyes, and on her chin, then after a few days it would dry down in scaly, white scabs. In the daytime she was quite worrisome and would dig and scratch her face nearly all the time.

"I consulted our physician and found she was suffering from eczema, which he said came from her teething. I used the ointment he gave me and without any relief at all. Then I wrote for a book on Cuticura, and purchased some Cuticura Soap and Ointment at the drug store. I did as I found directions in the Cuticura Booklet, and when she was one year old, she was entirely cured. Now she is three years and four months, and she has never been troubled with eczema since she was cured by the Cuticura Soap and Cuticura Ointment. (Signed) Mrs. Freeman Craver, 311 Lewis St., Syracuse, N. Y., May 6, 1911. Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to 'Cuticura,' Dept. L, Boston.

Summing It Up

"Was the charity ball a success?"
"Oh, yes, indeed. They say the gowns must have cost a half million at least."
"And how much was raised for charity?"
"Why, nearly \$700. Wasn't that fine?"

Doctor Endorses Children's Remedy.
Dr. D. R. Rothrock, New Berlin, Pa., writes that he has used Kopp's Baby's Friend with excellent results. He considers it the best remedy for children. Invaluable in Teething Troubles, Wind Colic and Diarrhoea. 3 sizes, 10c, 25c, 50c. at drugists or sent direct. Kopp's Baby's Friend Co., York, Pa. Sample by mail on request.

'Twixt Satan and the Sea.
Doctor—You are in pretty bad shape. You must stop going to those sickers.

For HEADACHE—Beck's CAPUDINE
Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c, 25c, and 50 cents at drug stores.

The young man who marries an heiress may not have to wait 50 years in order to celebrate his golden wedding.

As a corrective for indigestion and a regulator of the system, no remedy can excel in purity and efficiency Garfield Tea.

A woman seldom eats if there is anything else for her to do.

Many a man can't afford to dress well because his wife does.

Love laughs at locksmiths, but it sometimes cries over spilled milk.

DAIRY

CARING FOR THE YOUNG COW

Early Breeding of Heifers Advocated by Dairymen—Very Best Market for Skim Milk.

(By W. H. UNDERWOOD.)

I have long followed the plan of raising ten to a dozen calves each year, thus being allowed to replace the inevitable losses of the dairy and to constantly cull and sell those

An Excellent Milk Type.

which I consider least desirable. I think this practice ought to be followed on every farm where skim milk is available, because a dairy calf offers one of the very best markets for this dairy by-product.

I let these calves become mothers rather young. It is surprising how very early a vigorous young heifer will breed if the opportunity is given her. I had once a Jersey-Holstein cross-bred heifer that gave birth to her full term calf when only fourteen and one-half months old.

It is the business of a dairy cow to give milk and to learn to turn all her products and energies along this channel, and so the earlier she can get started in the right way the better.

It is sometimes said that early breeding stunts or dwarfs a heifer, but I have had many heifers to drop their first calves at from eighteen to twenty months of age, and afterward they developed into cows which were large and vigorous for their breed.

I like best to start with a September or October calf and then, if they spend their first winter under favorable conditions, with plenty of skim milk and early cut hay, bran and ground oats in addition, they will be sleek and plump when they go to pasture in the spring.

HOW TO WORK A SEPARATOR

Good Machine Will Soon Pay for Itself and With Proper Care It Will Last Lifetime.

(By BESSIE L. PUTNAM.)

Did you ever know a person who has a reliable separator to say that it does not pay? They all tell you it is the way to do it—the only way.

Look at a first-class machine and note the high speed attained. Only the best material and workmanship can be included in such a combination. It is no wonder that separators which are worth owning cost money. Yet a good one will soon pay for itself and with proper care it will last almost a lifetime. Look over the standard makes and no others, thoroughly before investing, but get a good one.

The work of separating a moderate amount of milk is easy in comparison with the old way, or even with keeping water on it in a tank. If it runs too heavy a gasoline engine will soon fix that beside proving a most profitable servant in many other duties.

Keep a dish for the dog and the cat in a convenient place where you can take off the froth before straining and separating. Froth only proves a nuisance in the separator but the chickens will be glad to get any that the dog or cat leaves.

USEFUL STOOL FOR A MILKER

Provision Is Made in Front for Placing Milk Pail—Not Hard to Put Together.

I have a good milking stool which provides a seat for the milker and a place to set the pail, says a writer in the Farm and Home. Two by 10-inch stuff was used in the making. The

Inexpensive Milking Stool.

seat is 10 inches square, and underneath it is nailed a board 18 inches long which projects out far enough to hold the pail. The legs are 12 inches high.

Great Difference in Milk.

Every person who has never milked cows, as well as some who have only witnessed this interesting process at a very safe distance, realize that there is not much variation in the quantity of milk from certain cows in the herd and on the same feed, but to most people "milk is milk," very few having any correct ideas as to what is commonly called the "richness of it."

AYRSHIRES GOOD DAIRY COWS

Almost Ideal Animal for Consumer on Account of Uniform Composition of Her Milk.

The Ayrshires are distinguished more as good average dairy cows than for heavy production either of milk or butterfat. In both these regards they occupy a position midway between Jerseys or Guernseys and Holsteins. An average herd of Ayrshires would probably produce more milk and butterfat than an average herd of other dairy breeds, but a selected herd of Ayrshires would fall much behind the production of a selected herd of the other breeds. For advanced registry, an Ayrshire cow must produce 6,000 pounds of milk and 214 pounds of butterfat as a two-year-old. The requirements gradually increase until the cow is five years old, when she must produce 8,500 pounds of milk and 322 pounds of butterfat. The milk tests somewhat less than 4 per cent. of butterfat and about 12 1/2 per cent. total solids. From the standpoint of the milk consumer the Ayrshire is almost ideal, because of the uniform composition of the milk, but the heavy flow which many producers want for profitable production is lacking.

Twenty-four head of Ayrshire cows owned by different experiment stations in America produced an average of 5,532 pounds of milk per year and an average test of 3.85 per cent. of butterfat, or 252 pounds per year. The test of the milk 17 cows gave an average of 12.93 per cent. total solids. In this the fat represented 29.6 per cent. of the total solids, as compared

Florence Melrose.

with 34.5 per cent. for the Jerseys and 28 per cent. for the Holsteins.

For veal production the Ayrshire ranks next to Holsteins. The calves weigh from 60 to 75 pounds at birth and are strong, vigorous and active. Doubtless no dairy breed produces as good beef as the Ayrshire. They fatten readily when dry and are said to dress out a good proportion of meat.

INCREASED YIELDS OF MILK

Pennsylvania State Experiment Station Makes Comparative Study of Soiling Crops.

The Pennsylvania state experiment station has made a comparative study of soiling crops for dairy cows. It was found that the chief influence upon quantity of milk produced during the experiments seemed to be closely related to the palatability of feeds. That is to say, those feeds eaten by the cows with the greatest relish, and consequently of which the largest quantity of green forage was consumed generally gave the largest yields of milk. This seemed to be true regardless of the amount of dry matter or percentage of protein contained in the feed. Briefly, the milk produced bore a much closer relationship to total green forage than to dry matter or protein consumed. The effect upon quantity of milk was shown only in an indirect manner. In no case was a flavor imparted sufficiently marked to be detected after the milk was aerated and cooled. The percentage of butterfat seemed to vary inversely as the live weight of the cows. In other words, those feeds which produced a gain in live weight seemed to produce a milk containing a lower per cent. of butterfat than was secreted when the cows were losing weight. This was true regardless of the quantity of milk produced. The indications are that some feeds tend to fatten the animals themselves, while others tend to produce fat in the milk.

DAIRY NOTES

Observe with care and note as a first point that the cow should have a large and ample-sized body.

Cold rains are much harder on cows than dry cold. Damp cold penetrates to the bones. Provide dry shelter.

Turn separator with a steady and uniform speed and flush down with skim milk or water at end of separation.

One man says the first year of milking is the proper time in which to make the foundation for a persistent milker.

In dairying there is no excuse for the man who goes at it blindly and blames luck and the weather for his failure.

Dairying is not necessarily a complicated line of work but at the same time it takes care in order to make a success.

It is quite customary among dairymen to quit feeding calves skim milk when they attain the age of eight to nine months.

If you don't believe in keeping cows comfortable visit the stables of the men who get large milk checks. That ought to convince you.

If the cream does not ripen rapidly as is often the case in the winter time the addition of a small amount of buttermilk will help the ripening process.

ALL OVER THE STATE

Notes That Are of Interest to Pennsylvanians.

Bloomsburg.—William V. Robbins, seventy-seven years old, tax collector for several years, fell dead.

Bethlehem.—Little Mary McLaughlin was run over by a team as she ran in front of the horses, but escaped without a scratch.

Allentown.—Silk dyers here, without demand, received an announcement that their pay had been raised \$1 a week.

Allentown.—Ruth Glendenmeyer, three years old, suffered a broken arm, when she fell down stairs walking in her sleep.

Carlisle.—Miss Martha A. Hannon was found lying dead on the floor of her home here when two neighbors went to the house to call.

Bethlehem.—Robert T. Weaver was drowned together with two horses, in the Saucon Creek, which was greatly swollen by the heavy rains. He leaves a widow and six small children.

South Bethlehem.—After much delay the School Board has accepted the new annex to the Facker Public School, the contractor having complied with the specifications.

Columbia.—Dorat Duvac, a track watchman at the Martie Forge bridge, was shot and seriously wounded by a stranger to whom he refused entrance to his shanty.

Hamburg.—This town's new broom works, erected at a cost of \$25,000 by W. E. Schmitt, is completed, and when in full operation 150 men will be employed.

Allentown.—The city has raised the salary of its chief of police and fire chief from \$75 to \$100 a month, and other city employees will get increases in proportion.

North Wales.—In order to keep the firemen from becoming despondent because of the scarcity of fires a piano firm has presented a piano to the local company.

Allentown.—The Lehigh Saengerbund is organizing a chorus under the direction of F. Joseph Bayarl, the conductor, to compete in the great saengerfest in Philadelphia to begin June 29.

Allentown.—George Lusick, a slate worker from Emerald, is in the Allentown Hospital with a broken back, the result of being struck when he tried to beat a passenger train across the tracks.

Pottsville.—Michael Dalton, of Schuylkill Haven, was crushed between two cars and squeezed to death. Dalton is survived by a widow and two children, who live at Philadelphia.

Media.—Henry L. Broomall, the Media attorney who has entered a plea of guilty to the charge of embezzling \$950 from Herman Cope, of Moylan, pleaded guilty of embezzling one thousand dollars which was given to him by Reuben Bailey to invest.

Hazleton.—After being out two weeks the striking tinmiths won their demand for a uniform wage scale of \$3 a day and an understanding with their employers that there will not be any discrimination in the rehiring of men.

Mt. Penn.—While Mrs. Jacob Folk was pouring coal into her kitchen stove an explosion resulted which tore away the front part of the stove and knocked her unconscious. She was severely burned. It is believed that a dynamite cap was in the coal.

South Bethlehem.—Interest in Bible study among the students at Lehigh University is on the increase. At present seventeen groups, representing 150 students, are meeting weekly for the purpose of moral and religious discussion.

Altoona.—In keeping with the steel construction in the passenger service, the Pennsylvania Railroad Company will introduce a new style cattle car, the superstructure, sides and roof of which will be steel. An order for thirty-five cars of the new pattern for the Vandalla lines has been received at the local shops.

South Bethlehem.—The Bethlehem branch of the Pennsylvania Society for the Prevention of Tuberculosis elected Dr. W. P. Walker, president; Dr. W. Chase, first vice-president; Kenneth Wilbur, second vice-president; Mrs. H. S. Drinker, third vice-president; J. M. Degan, fourth vice-president, and Prof. R. W. Hall, secretary and treasurer.

York.—A dynamite bomb that exploded near the residence of Constable Albert Myers is believed to have been intended for the constable's seventeen-year-old daughter, Irene. Miss Myers, who was on a visit, was expected home at the time the bomb exploded, but she remained at the house of a friend and escaped injury.

Reading.—A large Swiss barn, owned by Oliver N. Hein, in Greenwich Township, was burned to the ground, together with its contents. The opinion is that the fire was of incendiary origin. The loss is about \$2,500.

Ebensburg.—Judge Stephens sentenced Edith Ford, of Nantyglo, to a year in jail following her conviction on a charge of burning a two-year-old baby with a red-hot poker. The woman, who was housekeeper for Adam Sheets, declared she had to burn the child with the iron because it would not obey her.

Pleasant, Refreshing, Beneficial, Gentle and Effective,

NOTE THE NAME

HEW SCORED ON ARISTOCRAT

Ill-Bred Remark Brought Discomfiture on Duke of Westminster and His Companion.

A friend of mine who is in Cairo just now told me a good story in a recent letter of an old Jew of that city who scored off the young duke of Westminster and his inseparable companion, Lord Ricksavage, when they were there a few weeks ago. They were buying some jewelry in the bazaar there, and the duke remarked audibly to his friend:

"The fool doesn't speak English of course." But the fool understood well enough.

"Do you spik Italian?" he asked them, to which they replied in the negative.

"Do you spik Grik?"
"No."
"Do you spik Turk?"
"No."
"Do you spik Russian?"
"No."

"Me one time fool," said the old man after a short but eloquent pause; "you five times fool!" And the duke and his friend retired discomfited.—Exchange.

The Ugly Brute.
"See that measuring worm crawling up my skirt?" cried Mrs. Bjenks. "That's a sign I'm going to have a new dress."

"Well, let him make it for you," growled Mr. Bjenks. "And while he's about it, have him send a bookworm to do you up the back. I'm tired of the job."

Curative Agent.
"Do you think an ice cold plunge is good for people?"

"Well," replied the indolent person, "I fell in while skating and I must admit that the frigid cure me of hicoughs."

The Reason for It.
"That candidate certainly has a skillful way of working on people's feelings."

"But, then, you know, he's a dentist."

HARD TO DROP But Many Drop It

A young Calif. wife talks about coffee:

"It was hard to drop Mocha and Java and give Postum a trial, but my nerves were so shattered that I was a nervous wreck and of course that means all kinds of ills.

"At first I thought bicycle riding caused it and I gave it up, but my condition remained unchanged. I did not want to acknowledge coffee caused the trouble for I was very fond of it.

"About that time a friend came to live with us, and I noticed that after he had been with us a week he would not drink his coffee any more. I asked him the reason. He replied, 'I have not had a headache since I left off drinking coffee, some months ago, till last week, when I began again, here at your table. I don't see how anyone can like coffee, anyway, after drinking Postum!'

"I said nothing, but at once ordered a package of Postum. That was five months ago, and we have drank no coffee since, except on two occasions when we had company, and the result each time was that my husband could not sleep, but lay awake and tossed and talked half the night. We were convinced that coffee caused his suffering, so we returned to Postum, convinced that the coffee was an enemy, instead of a friend, and he is troubled no more by insomnia.

"I, myself, have gained 8 pounds in weight, and my nerves have ceased to quiver. It seems so easy now to quit the old coffee that caused our aches and ills and take up Postum." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkg. "There's a reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MINIATURE PICTURE OF PACKAGE.

HAD THE HABIT.

He (nervously)—What will your father say when I tell him we're engaged?
She—He'll be delighted, dear. He always is.

A Quarter Century
Before the public. Over Five Million Free Samples given away each year. The constant and increasing sales from samples proves the genuine merit of Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes for Itch, Aching, Swollen Tender feet. Sample free. Address, Allen S. Olmsted, Le Roy, N. Y.

Small Encouragement.
Kate—They say a woman is as old as she looks.
Maud—Never mind, dear; we all know you are only twenty-six.

Parlez-Vous Francais?
He—Does she speak French at all?
She—Well, yes; but only enough to make herself unintelligible.—Judge.

TO DRIVE OUT MALARIA
Take the Old Standard GILBERT'S TASTELESS CHILLS-TYFIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in its most effective form, and the most effective form. For grown people and children. 30 cents.

Quite So.
"Pa, what is a 'tidy fortune'?"
"A clean, crisp, ten-dollar bill, my son."

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

In every action, reflect upon the end, and in your undertaking it consider why you do it.—Jeremy Taylor.
