

AWONDERFUL HEALING INFLUENCE IN KIDNEY TROUBLES.

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed Lithia Water. I took Lithia Water and tablets for some time and received no relief from them. I stopped taking medicines for some time and having some of Dr. Kilmer's Swamp-Root in the house, I decided to try it and felt much relieved; while taking the second bottle commenced to pass gravel, in all at least a half dozen or more and have not suffered the slightest since and in all have taken one bottle and a half and feel very grateful to Swamp-Root. Yours very truly,

H. W. SPINKS,
Camp Hill, Ala.

Personally appeared before me this 16th of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that same is true in substance and in fact.

A. B. LEE,
Notary Public.

Letter to
Dr. Kilmer & Co.
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

The more a trust magnate wants the less the other fellow gets.

To overcome constipation and resultant ills, take Garfield Tea, a pure herb laxative.

A man isn't necessarily worthless because his neighbor is worth more.

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And What Saved Her From An Operation.

Upper Sandusky, Ohio.—"Three years ago I was married and went to house-keeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so when I saw your advertisement in a paper, I wrote to you for advice, and have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health.

"If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BENJ. H. STANSBERRY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy and should give every one confidence.

The Wretchedness of Constipation

Can quickly be overcome by CARTER'S LITTLE LIVER PILLS.

Purely vegetable—act surely and gently on the liver. Cure Bileousness, Headache, Dizziness, and Indigestion. They do their duty. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature

Mexican Mustang Liniment

For SPRAINED ANKLE.

Chas. B. Wheeler, Haines City, Fla., says: "Several days ago my horse sprained his ankle and your Mexican Mustang Liniment helped him very much. Please send me your circular about poultry ailments as I intend going into that business soon."

25c. 50c. \$1 a bottle at Drug & Gen'l Stores

THE NEW FRENCH REMEDY, No. 1, No. 2, No. 3, THERAPION

Dropsey TREATMENT. Give quick relief, usually remove swelling and short breath in a few days and entire relief in 10-15 days. Trial treatment FREE. DR. GRASSBORN, Box 4, Atlanta, Ga.

Pettis Eye Salve

QUICK RELIEF FOR EYE TROUBLES

POULTRY

COOP FOR YOUNG CHICKENS

Illinois Man Arranges Device of Galvanized Iron, Which is Rain, Rat and Vermin Proof.

A coop that provides a safe and sanitary home for young chickens has been invented by an Illinois man. It is made of galvanized iron, with a circular body and a peaked roof, with over-hanging eaves. It is rain, rat

Coop for Little Chicks.

and vermin proof. The apertures for ventilation are so arranged that vermin cannot crawl up the sides and enter them, and the openings through which the mother hen and the little chicks pass in and out are in a slidable section, so that the egress of both, or of the hen only, can be cut off at will. Even when closed, however, the ventilation is such that the air is always pure. Another advantage of this coop is that the top, bottom and sides are detachable, and the whole affair can be knocked down in an instant.

GOOD FOOD FOR POULTRY

There Should be a Variety and While Some Grains Are Favored Others Are Not—Grit Needed.

Poultry food should be palatable. Some grains are the favorite food of chickens, while others are not. Rye may be fed, but it is not generally liked by poultry, and should never be made the principal feed. It may be used in a mixture with other grains, and will be eaten by the flock. Relish is one of the factors of proper feeding.

Food should be varied. The best commercial poultry-foods on the market are combinations of the common farm grains. There are varying amounts of each, according to nutritive value and cheapness—wheat, oats, corn, barley, rye, millet-seed, caneseed, field peas, buckwheat, sunflowerseeds, and grass-seeds. With these are combined grit, shells and charcoal. These foods produce good results, mainly because of the variety. With a little instruction, one could make such a combination, for the flock, of grains on the farm.

VENTILATOR FOR HEN HOUSE

Many Buildings Prove Quite Unsatisfactory Because They Are Not Properly Ventilated.

Poultry houses are often unsatisfactory solely because they are badly ventilated. Of course it is out of the question always to tear them down and build anew or to install the King system of ventilation, so some form of ventilator may be the best device to adopt. In the illustration is shown a force draft ventilator built like a revolving stovepipe chimney top, says the Orange Judd farmer. The wing

Novel Ventilator

with the arrow on top turns the top so the opening, a, always faces the wind. Some of the wind passes through this opening and out of the top at b. It thus creates a draft up the flue, c, and thus ventilates the poultry house below. The principle is the same as that used in the atomizer.

SURE DEATH TO ALL INSECT.

Home-Made Torch Shown in Illustration Should Find Place on Every Farm—Used for Many Things.

The home-made torch herewith illustrated, or one similar in construction, should find a place on every farm, says the Homestead. Such torches are for sale in hardware stores, but the prices asked for them seem rather high, and then they are mostly used by painters and the average farmer seldom if ever gets sight of one of them. To make the torch shown in the cut, secure any stout can that will hold a pint or more, preferably an old oil can with a handle, drill a hole in the center and place a short piece of one-fourth-inch iron pipe in the hole as shown. It should extend to within half an inch of the bottom of the can and project above the top about three or four inches. Place a cap on the top and drill several very small holes in same. There should be about five holes, with one in the top of the can. Make the holes one-third-second or one-sixteenth of an inch in diameter. Fill the pipe with candle wicking and fasten tightly in place. It should be soldered. Fill can about four-fifths full of gasoline and light same by heating the top of can and pipe with a small blaze. If the weather is not too cold this can be done with matches. The heat forms a gas in the can which forces itself up through the wicking, and when lighted makes a strong light and a very hot blaze. This can be used for many things on the farm. For instance, no better device has been invented for cleaning old paint from any surface, such as bugies, wagons, or the walls of the house. It is sure death to all insect life in the poultry house. Go over all cracks with the blaze and eggs and nits will be killed as well as the insects. It makes a good light and will withstand a strong breeze. A tap or nut that cannot be otherwise removed will at once come off on being heated with the torch. In short, anything that requires a small and

A Handy Torch.

safe heat can be heated or burned with this torch. Any tinner will make the torch for 25 cents if you cannot make one yourself. It is perfectly safe and cannot explode.

Good Egg Food.
Dry bran is good egg food and should be kept before the hens practically all the time. Keep it in a dry place and give it to the hens in a narrow trough slatted over the top so they can pick it out, but not tramp in and spoil it.

Feed for Hens.
Clover leaves and heads break off in handling clover hay. These should be saved and fed to the hens. They may be fed dry or placed in a pail and steamed by pouring on boiling water and covering tightly.

POULTRY NOTES

Mongrel fowls should not be kept for egg production because the eggs will be uniform neither in color nor size.

Where there is no other chance for early green picking a patch of oats sown now will answer the purpose well.

It is better to go slow and heat up the eggs in an incubator in 24 hours than to get in a hurry and do it in two hours.

February hatched chickens are apt to molt in the fall, and will not be worth anything for egg production in winter.

Any sharp stones will answer for grit, if they are smaller than a grain of corn, and larger than a grain of wheat.

A good, well-balanced, laying ration: Two parts bran, one part corn meal, one part alfalfa meal, and one part beef scrap.

Ducks that are hatched in an incubator can be cared for the same as those hatched by hens or ducks in the natural way.

Goose eggs will hatch in an incubator but not so well as fowls' eggs unless the incubator is especially built for that purpose.

The Leshoras, Minorcas or any of the breeds of the Mediterranean class are non-sitters and are bred for the purpose of laying.

One fatal mistake made at the end of the hatch is to keep the door of the incubator open too long after the eggs have begun to pip.

The poultry business requires study and constant attention, the same as any other business. First efforts are rarely ever successful.

STATE CAPITAL NEWS

Late Happenings of Interest at Harrisburg.

Measles Leads in Diseases.

More measles developed in Pennsylvania in February than any other disease, according to reports made to the Department of Health. The total of communicable diseases of all sorts reported was 11,988, distributed as follows:

Anterior poliomyelitis	4
Anthrax	1
Cerebro spinal meningitis	14
Chicken pox	1,530
Diphtheria	1,139
Erysipelas	192
German measles	39
Malarial fever	6
Measles	3,559
Mumps	887
Pneumonia	837
Puerperal fever	2
Scarlet fever	949
Smallpox	35
Tetanus	4
Trachoma	1
Tuberculosis	1,145
Typhoid fever	575
Whooping cough	1,055
The following is a statement of the causes of death during January, as reported by the Bureau of Vital Statistics. The total number of deaths, exclusive of stillbirths, during the month of January from all causes, 10,345, was distributed as follows:	
Typhoid fever	128
Scarlet fever	38
Diphtheria	274
Measles	73
Whooping cough	63
Smallpox	1
Influenza	157
Malaria	3
Tuberculosis of the lungs	822
Tuberculosis of other organs	111
Cancer	452
Diabetes	74
Meningitis	43
Acute anterior poliomyelitis	3
Pneumonia	1,594
Diarrhoea and enteritis, under two years	153
Diarrhoea and enteritis, over two years	62
Bright's disease	654
Early infancy	587
Suicide	70
Accidents in mines	106
Railway injuries	134
Other forms of violence	476
All other diseases	4,267

The total number of births recorded in Pennsylvania during the month of January, exclusive of stillbirths, was 17,633. The total number of stillbirths was 819.

Fear Flood at Austin.

Acting on reports that the old crib dam of the Bayless Company, at Austin, a mile above the big structure which gave way last September and partly destroyed the town, was filling because of heavy rains, the State Water Supply Commission directed the owners to take all possible steps to prevent damage and to warn residents of the valley in case of a break and also detailed engineers to make observations. A report received from the State engineers is to the effect that water in the upper dam is receding and that there is no danger. The company, however, has stationed watchmen and arranged to give notice of any break so that people in the valley may be warned in time. The probabilities are that a spillway will be erected at the crib dam to take care of accumulation of water during heavy rains such as have occurred during the past week.

Building For Young at Mt. Alto.

The new children's building at the State Tuberculosis Sanitarium, at Mt. Alto was opened and preparations have been made to receive one hundred children who are arriving from all sections of the State. They are all under fourteen years of age. The results which have been achieved in the treatment of children at Mt. Alto have led Commissioner of Health Dixon to rush the work on this latest addition to the big sanitarium. Children respond more quickly to the treatment than their elders and the most encouraging results have been obtained in arresting the disease.

For Pure Cider Vinegar.

"The grocers of the State should make an effort to co-operate with the farmers in the manufacture and sale of genuine cider vinegar," said Dairy and Food Commissioner James Foust in discussing the activity of his division in the prosecution of people for the sale of adulterated cider vinegar. Allegheny, Butler, Cambria, Indiana and Westmoreland counties have furnished cases of violation of the vinegar act, it having been found that some of the stuff sold as vinegar did not originate in orchards at all.

Adopts Physicians' Grading.

The State Bureau of Medical Education and Licensure has settled the question of what men can come before it for entrance into the field of practice in Pennsylvania by taking the physicians' own grading of colleges.

Withdraws For Harmony.

William H. Albright, one of the nine candidates for the two legislative nominations of the Republicans in this city, withdrew in the interest of harmony.

In a Hurry.

Magistrate—What is the charge against this old man?
Officer—Stealing some brimstone, your honor. He was caught in the act. Magistrate (to prisoner)—My aged friend, couldn't you have waited a few years longer?

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Dr. W. G. GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply quinine and iron in a tasteless form, and the most effective form. For grown people and children it is perfect.

Rats.

Jim—Do you think Mamie is taller than Susie?
Tim—I should say that she is just about one rat taller.

FOR COLDS and GRIP

HICKS' CAPSULES is the best remedy—relieves the aching and feverishness—cures the cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c., and 50c. At drug stores.

The Natural Thing.

Lawyer—Of what did you take cognizance in the saloon?
Witness—I took a drink.

Poor Fellow!

"He has no control over his limbs."
"You wouldn't if you had had your leg pulled as often as he has."

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO QUININE TABLETS. Drug stores refund money if it fails to cure. Dr. W. G. GROVE'S signature is on each box. 25c.

Talent in the kitchen and a balance in the bank should form a combination for generating domestic bliss.

Pure blood is essential to Good Health. Garfield Tea dispels impurities, cleanses the system, and eradicates disease.

There are times when we should be thankful for what we fall to get.

BACKACHE IS DISCOURAGING

Until You Get After The Cause

Nothing more discouraging than a constant backache. Lame when you awake. Pains pierce you when you bend or lift. It's hard to work, or to rest. You sleep poorly and next day is the same old story. That backache indicates bad kidneys and calls for some good kidney remedy. None so well recommended as Doan's Kidney Pills. Grateful testimony is convincing proof.

Here's Another "Every Picture Typical Case"—Tells a Story!

Mrs. J. L. Warwick, 406 W. Mulberry St., Lebanon, Ohio, says: "No tongue can tell the agony I endured. My limbs were lifeless and there were weeks when I could not put my feet to the floor or stand alone. As a last resort I began using Doan's Kidney Pills. In six weeks I was as free from kidney trouble as though I had never had it."

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs, distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of these peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Rheumatic Pains quickly relieved

Sloan's Liniment is good for pain of any sort. It penetrates, without rubbing, through the muscular tissue right to the bone—relieves the congestion and gives permanent as well as temporary relief.

Here's Proof.
A. W. LAY of Lafayette, Ala., writes—"I had rheumatism for five years. I tried doctors and several different remedies but they did not help me. I obtained a bottle of Sloan's Liniment which did me so much good that I would not do without it for anything."
THOMAS L. RICE of Easton, Pa., writes—"I have used Sloan's Liniment and find it first-class for rheumatic pains."
Mr. G. G. JONES of Baldwin, L. I., writes—"I have found Sloan's Liniment par excellence. I have used it for broken sinews above the knee cap caused by a fall, and to my great satisfaction I was able to resume my duties in less than three weeks after the accident."

SLOAN'S LINIMENT

is an excellent remedy for sprains, bruises, sore throat, asthma. No rubbing necessary—you can apply with a brush. At all dealers. Price, 25c., 50c. & \$1.00. Sloan's Book on Horses, Cattle, Sheep and Poultry sent free. Address Dr. EARL S. SLOAN, BOSTON, MASS.
