He also advertises for sale a house, located on a corner lot, with an abundance of fruit. The dwelling has eight rooms in it, and is desirably situated. If you are contemplating investing in real estate in Centre Hall, call on Mr. Mingle and get the particulars concerning the properties he has for sale.

The crop conditions in Brush Valley are slightly better than the average in Potter township, although not up to the standard. The wheat fields are not at all promising of a big yield, although there is an occasional field that looks well. Grass is slightly in better condition there than here. Corn is also farther on and much of it has been cultivated or harrowed for the first time. Oats are also longer, and the fields more generally covered than in this section of Penns Valley. Heavy rains on Sunday a week and Thursday of last week were refreshing to all crops.

To Remodel Union Church.

A congregational meeting of the Reformed and Lutheran congregations was held at Union church on Saturday afternoon. It was decided to give the present building a complete renovation. The steeple is to be reduced in height; a new roof placed on the building, and all the woodwork to be painted. The interior is to be of South Carolina pine, both the ceiling and the wainscoting. The walls are to be frescoed, and the pews grained in harmony with the woodwork. The pulpit platform is to be extended, and additional pulpit furniture, lectern and altar to be purchased and placed so as to produce a churchly effect.

Additional touches may be given as the work progresses. A building committee of six are to look after this work. The Reformed congregation has elected the following: James Grove, Jacob Musser, and Lewis Corman. The Lutheran congregation will hold an election next Sunday immediately after the services.

A LARGE CONTRACT.

What Murray & Bitner Wants Every Person in Centre Hall to do.

When Murray & Bitner the enterprising druggist, first offered a 50 cent package of Dr. Howard's specific for the cure of constipation and dyspepsia at half price, and guaranteed to return the money if it did not cure, they thought it probable from their experience with other medicines for these diseases that they would have a good many packages returned. But although they have sold hundreds of bottles, not one has been brought back.

To those suffering with dizziness, headache, poor digestion, constipation and straining, Dr. Howard's specific offers quick relief. It is an invaluable boon to all who feel uncomfortable after eating, and is today the popular dinner pill in all the larger cities.

We may have good crops yet. Most of the later reports, both of cotton and grain, are better than the earlier ones. If crops are late it does not follow that they will be short. Daniel G. Reid, of New York, and President Ripley, of the Aitchison, Topoka & Santa Fe, have just returned from extensive trips through the middle west and the southwest with very cheerful news. Mr. Ripley says: "Never have I seen crops that promised better yields than the crops in the southwest at this time." Mr. Reid says that agricultural conditions in Illinois, Nebraska, Iowa, Missouri and Kansas are better than they were a year ago. From the time the snow goes till the crops are gathered one may get opinions of every sort, but in weighing the evidence it is necessary to remember the activity of the "crop killers" every spring.
