The Rev. Stephen W. Pomeroy, retired Presbyterian clergyman, who; was pastor of the Mill Hall Presbyterian church for a goodly number of years and who was a veteran of the Civil War, died in Harrisburg, from a very sudden attack of neuralgia of the heart. He was in his seventy-sixth

John J. Irwin, one of Altoona's aldermen, died in that city at the age of sixty-four years. He was born at Jacksonville. He read law under Judge Beaver and was admitted to the Centre county bar in 1871. A wife, nee Miss Sarah D. Harkness, and two sons survive, as does also Robert H Irwin, of Bellefonte, a brother.

On July 4th, Emms, wife of O. M. Sheats, died at her home near Pine Hall, aged seventy-two years. Her maiden name was Hess. She was first married to B. Bates.

Thomas Kustenborder died at the home of his son-in-law, O. F. Shaw, at State College, aged eighty-six years.

The R'ght View.

There is no use talking about what parcels post is going to do to the small towns. It is a condition and not a theory. Parcels post will be added to the mail service, if not at this session of Congress, then soon. Two generations ago railroads were going to kill the small towns. Then it was the electric cars. Free rural delivery and a telephone in every farmer's house would fix it so that they never would come to town, and country stores were doomed, remarks the Middleburg Post. And yet, towns like Middleburg push right along, and show an increase each census. No wide awake merchant will be airaid of a law that will enable him to load up the rural mail carrier with boxes and bundles and start him out to do his delivering. We also remember the rural delivery was going to kill all the weekiy papers, because all the farmers wou'd take dailies. But, papers like the Post keep right on growing.

## If you own a nice home

be it large or small, you can improve its appearance immensely by building not only the sidewalks, but the front steps, curbstone, well cover, cellar, fence posts, etc., of concrete. It is so much neater than wood and more sanitary. It never decays—is fire and rat proof—and can be easily kept clean.

Concrete is the simplest building material and the most durable. It is readily made from clean sand and a few sacks of good Portland cement—preferably Universal because of its uniform quality and great strength.

## Attention, Farmers.

We are here again this spring with a larger line of Implements and Machinery than ever before.

The "Lancaster" Side-delivery Hay Rake

The having season will soon be on, and the Lancaster Side-delivery Hay Rake is a labor saver. It is simple, durable and easily operated.

The Lancaster gathers up the hay in a continuous, loose and fluffy windrow, which allows the air to pass through freely. The machine will rake clean the shortest blue grass as well as the heaviest clover and timothy.

The "Gearless" Hay Loader

Its name describes it-it is gearless, and has no gears to break, clog up, chains and sprockets to break, run off and cause no end of trouble. The long easy stroke delivers the hay whether heavy or light, on the wagon in better shape without chewing it up, without tearing off the leaver or without threshing out the seed as other

The GEARLESS Hay Loader is not the cheapest hay loader you can buy but it is the best one. They are worth more than is asked for them.

The GRARLESS does its own loading. It pushes the hay well up onto the wagon; it does not need a watchman to keep it from clogging. The Gearless is sold on its merits, because it never fails to perform the work it is Gearless will pick up and load winrows and haycocks which other machines cannot handle.
