

HOPPERS FOR THE CHICKENS

Details and Illustrations for Free Delivery of Feed Into Trays for Young and Old.

I make all my dry-feed hoppers for and covers from five-pound lard pails, says a writer in the Farm and Home.

With a can opener I cut a slit about two inches long, close to the bottom | eggs will bring. of the can, then at each end of the

For Baby Chicks.

to sift through but not large enough for a chick to get its head through, lest they get hung. Next I drive two holes in bottom of can at the proper distance from each other to admit the points of a wire staple. Make corresponding holes in the pail cover, insert the staple through the four holes and bend each point outward, fastening cover and can together. Remove top from can and fill with meal or bran and there is not a hopper on the market more useful for baby chicks up to four and five weeks of

The hopper for larger fowls is made from a long but narrow wooden box. Any dimensions which suit the space or wishes of the poultry man may be use. Remove cover and front side from box, saw a small strip from end of the removed front and fit carefully upon cleats placed from front corner of top to back corner of bottom. (See line a b.) Acrass front of bottom c, nail a narrow strip to prevent feed from being pushed out on floor.

to allow fowls to eat comfortably. In fitting the front upon the cleats allow half an inch space from bottom and one inch from back of hopper. This gives free delivery of feed into the

SUNFLOWER SEED FOR HENS

Russian Variety is Most Prolific for Furnishing Good Quality of Rich Oll Feed.

the place of cottonseed or flaxseed them. meal. Sunflower seed is used in all the poultry mixtures now sold in the markets.

The sunflower is a hardy plant, a vigorous and rapid grower, and a good plant to grow not only for its seeds, but also for its bright, beautiful yellow blossoms. The plant, when in full bloom, makes a good food for honey bees. Have the ground deeply plowed and thoroughly mellowed. The ground should be rich to grow large heads full of seed. Mark the rows off three feet apart and three inches deep. Drop two seeds to the running foot. When plants are up thin out the stand 15 to 20 inches apart. Good culture, free of grass and weeds, must be given through the season.

Vacation for Breeding Stock. Give the breeding stock, you intend to carry over for next season, a vacation in vacation quarters. If possible separate the males and females anud give each flock outdoor quarters on ample range, well shaded. Let them lice paint and disinfectants freely. occupy this summer range until time to house in winter quarters in the fall. You will find that they moult out cleaner and earlier and that they will prove better in breeding condition.

Reduce Egg-Laying Power. An egg is a chemical combination, is hot. and if hens lack in their feed any elepower to produce eggs is lowered. drones.

Well Kept Flock of Thoroughbreds Costs No More to Feed and House Than the Mongrels.

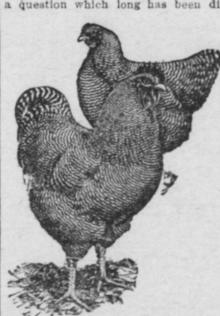

(By MRS. H. F. GRINSTEAD.) The person who raises chickens, turkeys, ducks or any other fowl naturally feels a greater pride and interest in thoroughbred stock and, therefore, gives the flock better care than would be given to mongrels. No matter what kind of birds you have, however, the same rule of good care and both of these are felt to a greater degree by the owner of the thoroughbred fowls.

Houses, yards and feed cost about chicks, from one-pound coffee cans, bloods and a well kept flock of thoroughbreds always attract attention tion and was "wise" to almost every-They are very satisfactory as well as are often willing to pay a much betposes from such stock than ordinary combined batting and fielding average

HERE IS REALLY GOOD IDEA

Fire Insurance Would Be an Easy Mat ter if It Could Be Conducted That Way.

Senator Williams, at a dinner at Yazoo, said in condemnation of a moot-

ed tariff change: "They who advocate this change know just as much about the tariff as the old lady knew about fire in-

"This old lady visited an insurance office and insured her barn for \$3,500. The policy was drawn up, signed, sealed and handed over to her, and she put it in her cabba and started out. "'But hold on, ma'am,' said the agent. 'I must ask you, please, for the first year's premium."

'The first year's premium,' said she. 'And how much will that be?' "'There it is, ma'am, written on the policy,' said the agent. 'A small matter of \$24."

'Oh,' said the old lady, 'I'm in a hurry this morning. You just let the premiums stand and deduct them when the barn burns down."

ECZEMA FOR TEN YEARS

1809 Little Walsh St., Baltimore, Md.-"I was afflicted with eczema for about ten years, the most tormenting and agonizing. It was dry eczema, all itching. It was scratch, scratch, scratch and burn, burn, burn. By scratching I brought sores which scabbed. I tried all remedies which I knew or heard of; some gave me temporary relief, but none permanent cure. I couldn't sleep for scratching, after which there was burning. I saw the advertisement for free samples of Cuticura Soap and Cuticura Ointment and wrote for them. They did me good immediately and I then bought a box of Cuticura Ointment and a cake of Cuticura Soap. I was cured in two weeks." (Signed) George Wooden, Jan. 21, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."

Human Yardstick.

"Cholly, but I's tired!" exclaimed a tall and thin negro, meeting a short and stout friend on Washington street. "What you been doin' to get tired?" demanded the other.

"Well," explained the thin one, drawing a deep breath, "over to Brother Smith's dey are measurin' de house for some new carpets. Dey haven't got no yawdstick, and I's just exacetly six feet tall. So to oblige Brother Smith, I's been a-layin down and agettin' up all over deir house,"-Youth's Companion.
