

Rebersburg and Velocity Does Honor to Civil War Veterans on Saturday.

The fiftieth anniversary of the mustering in of the members of Company A, 148th Regiment, was held near Rebersburg on Saturday. Of the thirty-one surviving members of the company, fifteen answered to roll call. Many of the surviving ones are scattered over western states. Among those who came a great distance were Lieut. Erast J. Burkert, of Chicago, Illinois; George Corman, of Freeport, Illinois; and Samuel Strayer, of Geneva, Nebraska. Veterans of other companies, twenty-five or more, came to join in this memorial occasion.

The town was beautifully decorated with flags, bunting, etc., and never in the history of the town was a bigger gathering assembled, the number being estimated at 2000. After the large procession of veterans, sons of veterans, various orders, Sunday-school children and citizens, two bands, had paraded the town, a halt was made on the exact ground where the mustering took place within a day of fifty years ago (August 25, 1862) and the following reported:

MEMBERS CO. A. PRESENT.

- | | |
|----------------------|------------------|
| Lieut. E. J. Burkert | George Corman |
| James T. Corman | Samuel Strayer |
| Thomas P. Meyer | Daniel B. Weaver |
| Samuel R. Goring | Jacob Brochbill |
| Manasse Gilbert | Moses Gilbert |
| Henry Meyer | Charles Beirly |
| Nathaniel Boob | Levi H. Palmer |
| Jesse Long | |

Then the immense crowd went to Smull's Grove, and after dinner the day was given to speeches by eminent speakers. To the great regret of all General James A. Beaver, the general under whom these men served, could not be present on account of poor health. The speakers were Col. Hugh Taylor, Judge Ellis L. Orvis, Clement Dale, Esq., Col. D. F. Fortney, all of Bellefonte; also, Dr. T. P. Meyer, of Lock Haven. All paid fine tributes to the remaining veterans. Col. Fortney gave an exceptionally fine tribute to Gov. Beaver as an officer, soldier, and an upright, straight christian citizen—one who was always mindful of the boys under his care while in service, then and in after years.

Citizens and friends distant from Rebersburg helped to make this a great occasion, and among these was Dr. Alfred Beirly, of Chicago, who composed words and music, dedicated to the "Boys of Company A." About a thousand copies of this music was distributed, and sung by everyone, and made the chorus echo to the uttermost parts of the grove. Thus passed a day into history, never to be forgotten by any of the surviving veterans or citizens.

They are all refined, distilled and treated. They contain no "natural" gasolines, which are crude and unrefined and which carry the maximum of carbon-producing elements.

THERE IS NO PLOW SUPERIOR TO THE SYRACUSE RIDING PLOW

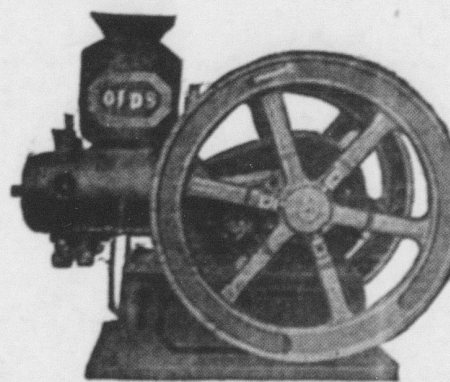

It plows the same depth the whole day long; sticks to the ground in stormy soil; can be well handled on rocky hillsides. It leaves no deep furrows to wash; will throw the soil up hill better than any other plow made; it is strong enough to do its work, yet not clumsy. Made for two or three horses.

NEW IDEA MANURE SPREADER Does its work to perfection

There are many of them in use, and every machine is giving satisfaction. The draft is light, yet no other spreader will do the work as well. The wear and tear has been reduced to the minimum in the NEW IDEA.

THE "OLDS" GASOLINE ENGINES

have many superior qualities. The cut here represents the 4-A Hopper Jacket Engine. From the material that enters into it to the smallest detail, the engine is superior in quality. The Olds engines are built in all sizes. Ask for a descriptive catalog.

There is no FARM MACHINE OR IMPLEMENT that we do not handle.

Farmers, Attention

This is the time to make those much needed repairs about the house and barn. Arrange to make them of

Concrete

Cheaper and more Lasting than Wood

I have just received another car of Portland Cement, thus assuring you a fresh article, which is so much appreciated by users of cement, as that stored in warehouse since early Spring is often partly set in the bags when purchased.

I have also two sizes of Crushed Lime Stone, and sharp river sand, especially adapted for cement work. Plans and specifications for concrete work on the farm, may be had free for the asking.

Might be well to look after your chimneys before cold weather sets in. A few brick and a bag of cement may save your home from destruction. I have two grades of brick suitable for the work.
