

DEATHS

J. Samuel Houseman, for more than forty years a resident of the southern section of Potter township, died at his home early Tuesday morning. He was afflicted with dropsy, and had been ailing for some months. His condition just previous to his death led his friends to believe that he might live for some time. He was conscious to the very last, but at the same time realized that the end had come.

He was the son of John Houseman and was raised at Green Grove, near Penn Hall. His age was sixty-seven years, five months, and ten days. Interment will be made this (Thursday) forenoon in the Esher cemetery, at the Zion church, near his home. It was his desire that Rev. Fred Solver, of Telford, should be at the funeral, but sickness prevented this request. Rev. W. O. Martin, the pastor, will then preside.

There survive a widow, nee Susan Moyer, and one daughter, Blanche Estella, wife of Thomas A. Hosterman, of Centre Hill. Also two brothers, John and Charles, of Millheim.

Mr. Houseman was a tanner by trade. He served as justice of the peace for many years, and also conducted a farm.

Farmers, Attention

This is the time to make those much needed repairs about the house and barn. Arrange to make them of

Concrete

Cheaper and more Lasting than Wood

I have just received another car of Portland Cement, thus assuring you a fresh article, which is so much appreciated by users of cement, as that stored in warehouse since early Spring is often partly set in the bags when purchased.

I have also two sizes of Crushed Lime Stone, and sharp river sand, especially adapted for cement work. Plans and specifications for concrete work on the farm, may be had free for the asking.

Might be well to look after your chimneys before cold weather sets in. A few brick and a bag of cement may save your home from destruction. I have two grades of brick suitable for the work.

THERE IS NO PLOW SUPERIOR TO THE SYRACUSE RIDING PLOW

It plows the same depth the whole day long; sticks to the ground in stormy soil; can be well handled on rocky hillsides. It leaves no deep furrows to wash; will throw the soil up hill better than any other plow made; it is strong enough to do its work, yet not clumsy. Made for two or three horses.

NEW IDEA MANURE SPREADER Does its work to perfection

There are many of them in use, and every machine is giving satisfaction. The draft is light, yet no other spreader will do the work as well. The wear and tear has been reduced to the minimum in the NEW IDEA.

THE "OLDS" GASOLINE ENGINES

have many superior qualities. The cut here represents the 4-A Hopper Jacket Engine. From the material that enters into it to the smallest detail, the engine is superior in quality. The Olds engines are built in all sizes. Ask for a descriptive catalog.

There is no FARM MACHINE OR IMPLEMENT that we do not handle.
