

THE DUTY OF THE HOUR

GET OUT THE VOTE

Upon every loyal Pennsylvania Democrat rests the responsibility of helping to elect your entire State ticket and fortifying it with a Democratic legislature; also the Congressional and National tickets, thus insuring to the people, under the leadership of Woodrow Wilson, efficient, honest, economical government, progressive legislation and equal opportunity for all.

Pennsylvania occupies a strategical and important position in this campaign. The result of the whole national election may hinge on the outcome of the election in this State. At this time every indication is favorable to democratic triumph in Pennsylvania, nevertheless there is danger of overconfidence and indifference. We want to make victory certain by arousing the people from their lethargic attitude, and, if possible, roll up the biggest majority Pennsylvania has ever given a Democratic presidential candidate.

WILSON WILL WIN.

At the Baltimore convention the Pennsylvania delegation carried a striking banner with the inscription: "*Give Us Wilson and We Will Give You Pennsylvania.*"

It then seemed absurd to many that the Democracy of Pennsylvania should make such a pledge—to carry the key-stone in the Republican arch. But there has been a revolution throughout our great State. Never was there such independent thought among our people. As a result, at this time, conservative calculations place this State in the Wilson column.

This has aroused to action some

of the most powerful financial influences to stem the growing tide for New Jersey's famous Governor; and from this on, to November 5, a desperate effort will be made to retrieve their lost ground.

From this on, and including election day, every loyal Democrat, everyone interested in clean politics and good government, should be a volunteer in the Wilson ranks. Not only your vote, but your influence and active support is needed to redeem our State.

Be sure that you go and vote, then see that all your friends and neighbors vote—and vote with you to restore the government again to the people, instead of the privileged few.

GET OUT THE VOTE.

The time for argument has practically passed; the duty of the hour is—GET OUT THE VOTE. That is your duty.

The Baltimore convention, largely upon the insistence of your delegation, gave us Wilson—let us redeem our pledges and give Pennsylvania to Wilson.

From the Atlantic to the Pacific the Wilson tide is sweeping across the continent, but there is danger in overconfidence. Great battles, really won, have been ultimately lost through overconfidence at critical moments.

Let the bright promises of a great victory for popular government inspire in you new zeal, new energy. Be a volunteer, and sacrifice at least one day for the triumph of those principles which you believe will bring the dawn of a new era to this great land.
