RINGWORM SPREAD ON FACE

Campbell, Va.—I have been troubled with ringworm on the right side of my face for six or eight years. It began with just very small pimples in spots and continued to spread more every year until it covered the right side of my face. It was red, rough and in circles, and itched and burned very much. It was sore when I scratched my face and it worried me so much I couldn't keep from scratching. It looked very bad; I would hate to go out while it was on my face. Every one noticed it and some would ask what it was.

"I tried some home remedies before using Cuticura Soap and Ointment, such as — and — I could only find temporary relief until I began to use Cuticura Soap and Ointment. I put the Cuticura Ointment on my face and let it stay on for about an hour and then I washed my face with Cuticura Soap. I used the Cuticura Soap and Ointment for one month and I was cured." (Signed) Miss Virginia Woodward, Feb. 21, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston," Adv.

BAD BACKS DO MAKE WORK HARD

Backache makes the daily toil, for thousands, an agony hard to endure. Many of these poor sufferers have kidney trouble and don't know it.

Swollen, aching kidneys usually go hand in hand with irregular kidney action, headache, dizziness, nervousness and dependency.

When suffering so, try Doan's Kidney Pills, the best-recommended kidney remedy.

Here's a Connecticut Case

Boysen Sweet, of Talmun St., Norwich, Conn., writes: "I was sick in bed so long that I couldn't turn over. I suffered terribly from the sharp pains across my loins, and was greatly troubled by prostate passages of the kidney secretion. Doan's Kidney Pills cured me completely after 10 to 12 days."

COMPLETE FIRST STAGE OF THE WAR

Allies Plan to Starve Out Turkish Army.

TERRIBLE BAYONET CHARGE.

Strong Reinforcements of the Ottoman Troops Coming Up—The Montenegrins Bombard Scutari.

London.—Pushing on under the magnificent leadership of Czar Ferdinand, leaving behind only enough soldiers to bury the dead, care for the wounded and guard their prisoners, the main Bulgarian forces are entrenched less than three miles from the city of Adrianople preparatory to a siege, on the result of which military critics declare depends the future of the Sultan's dominions in Europe.

A dispatch from Sofia, in an estimate of the losses at Kirk-Kiliseh, places the total Bulgarian dead and wounded at 7,000, and the Turkish at 12,000. Estimates of the number of Turkish prisoners taken vary from 3,000 to 5,000. The battle lasted 30 hours.

Back in Kirk-Kiliseh, the streets are piled high with the dead of the conflict, and the adjoining plains are strewn with corpses. Ten thousand lives were lost before the isolated Turkish garrison of 5,000 men, cut off from all possible escape by the daring flank movement of the invaders, surrendered.

Outside of the killed and wounded, the Turkish losses in food and ammunition and modern guns at Kirk-Kiliseh are described as tremendous. Chief among the Turkish prisoners are Mukhtar Pasha, son of the grand vizier; Prince Abdul and several generals.

Even after the fortress of Kiliseh was overcome by the fire of the Bulgarian artillery, fierce fighting took place in the streets of the town, into which the Bulgarians effected their entry from the lower part.

A dispatch from Stara Zagora says the battle was waged from street to street, every foot of the ground being obstinately contested. The soldiers fought with knives as well as bayonets. The Turks, on their part, declare that the evacuation of Kirk-Kiliseh was a "strategical retreatment," a phrase which became familiar during the Russian retreat in Manchuria. They will have a big army at Adrianople, and if as the Bulgarians say only 50,000 Asiatic troops have so far reached the theatre of war the Turks have strong reinforcements coming up.

Sacrifice Made for Dress.
Using the Los Angeles fashion show for his text, Dr. Alfred Jones, a distinguished nerve specialist of London, now visiting the California city, made the assertion that "dress is causing the ruination of more lives in America than malignant disease." He said the intense competition among American women of all classes to keep up the pace set by fashion was nerve-racking and nerve-destroying.

"Why, I always understood that breaking windows was a perfectly pane-less operation."
