Henry H. Frederick departed this life October, 30th, at six o'clock in the evening, at his home at Boalsburg. He was born at Hartleton, Union county, 1830, and was aged eighty-two years, four months and twenty-six days. He was the third son of John and Barbara Frederick.

He was married to Miss Rachael Musser, of Aaronsburg, in 1852. They commenced housekeeping near Aaronsburg, but a few years later they moved to Boalsburg, where they resided until the present time. His last sickness lasted six weeks, and was due to a general breakdown incident to old age. Mrs. Frederick died August 30th, 1911. Two children died when quite young—Alice, aged three years, and Sarah, aged six years. Surviving him are one brother, Samuel, of Hartleton, and a sister, Mrs. Mary Bowersox, of Coburn.

The deceased was an active member of the Lutheran church. Funeral services were held in the Reformed church on Saturday forenoon, conducted by his pastor, Rev. J. I. Stonecypher, assisted by Rev. S. C. Stover, and interment was made in the cemetery adjoining the church.

Among the relatives from a distance who attended the funeral, were Dr. and Mrs. Bowersox and daughter Mrs. Sarah Weaver, Misses Tammie Stover and Margaret Musser, of Aaronsburg; Mr. and Mrs. John A. Williams, Port Matilda; Mrs. Blanche Whitmer, Bellefonte; Miss Alida Rothrock, Bloomsburg; Irvin Musser, of Millinburg; Mr. Katherman, of Hartleton; Mr. and Mrs. Jacob Springer and Mr. and Mrs. John Schell, Pottsgrove; and Mr. and Mrs. Jacob Lee, Mr. and Mrs. John Lee, and Mrs. George Bitter and son, of Centre Hill.

Charles B. Schaffer died of acute in-

digestion, October, 30th, at 7:30 a. m. at his home, 2033 North sixty second street, Overbrook, Philadelphia. He was born at Bellefonte May 26th, 1834, making his age seventy-eight years, five months and four days. His parents were Jonathan and May Wagner Schaffer. He grew to manhood at Boalsburg. October, 25th, 1859 he was married to Miss Rachel Sparr. They commenced housekeeping at Boalsburg, but moved to State College in April, 1887. Their daughter Susanna Katharine died August, 26th, of the same year. They moved from State College to Philadelphia, in November, 1892. Mrs. Schaffer died May 10th, 1911.

He is survived by five children, two sons and three daughters, John Sparr, Benjamin Franklin, Mary, Margaret Ellen, and Julia Agnes, also five grand children, all living in Philadelphia.

Funeral services were held at the home at 8 o'clock Friday evening, conducted by Dr. Guds Brosard, pastor of the Overbrook Presbyterian church, of which Mr. Schaffer was a member. Saturday morning the remains were brought on the train to Lemont, from there they were taken to the Branch cemetery where they were laid to rest beside those of his wife. The burial rite was performed by Rev. W. K. Harnish, of Lemont.

The Carpet Cure.

Matrimony reduced the Smith household until there was nothing left of it but the old couple, neither of whom looks old enough to be in the father and mother in law class. When Bessie got married Papa Smith took possession of her room, and it has been his study, library, smoking room and growlery since then, and its condition made the life of his otherwise happy wife a burden. "Since he has his room," she complained, "John has developed a passion for disorder which would break a housekeeper's heart." "Is there a carpet on the floor?" she was asked. "No." "Is there a rug?" "No; he wouldn't have one." "Well, surprise him and have a carpet put down," was her friend's advice, and it was followed. "He was a little surprised to find it," said the woman, "but from that day the floor has not been littered, there's more order on the desk and the place looks tidy. John doesn't know it, but he could serve as a living specimen of the carpet cure."—New York Tribune.

Birds Big Eaters.

Baby robins have been observed to eat half their own weight of beef scraps, digest all this within three hours and then be ready for another meal.

A pair of red eyed vireos were noted by a naturalist to feed their offspring over a hundred times in ten hours. Grosbeaks, sworn enemies of the Colorado potato beetle, have been seen to assimilate almost a hundred C. cerpillars or larvae an hour. Over 3,000 aphids have perished by the bills of the insect loving yellow throats in the same period of time.—Suburban Life Magazine.

No Chesterfield.

"Muggins has made a pile of money, and now he's trying to get into society, but the question of manners comes up. Has he got any?" queried Bolivar. "Muggins? Manners? Well I should say not," retorted Silthers. "Why, that man wouldn't give up his seat in a dentist's chair to a lady."—Harper's.

Impractical.

"He has a lot of good ideas, of course, but then some of them are utterly impractical."

"For instance?"

"Well, one of his schemes is to reform politics so that those who hold public offices will have to work."—Detroit Free Press.

Look Beyond the Frames.

We should laugh if a man said he went to an art gallery to see the picture frames. Yet that is how many go through life and it is little wonder that they are soon tired.

Time appears long only to those who don't know how to use it.

For the Hair
Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it, if not before. Remember, it does not color the hair. Show the list of ingredients to your doctor. Let him decide their value. He knows.

Sucrene Dairy Feed
The Most Nourishing Feed for Cows
The Biggest Producer of Milk
The Most Economical to Feed
A thousand scientists are experimenting every day with a thousand different phases of the Feed-for-Milk problem. There is just one judge to whom they refer their elaborate theories and by her decision the theories stand or fall—THEY PUT IT UP TO THE COW.
That's what has been done in developing "Sucrene" Dairy Feed at every stage of its evolution—every time an improvement was made in the formula, that was done.
"Sucrene" is not a theoretically balanced ration—to most feeders that means only digestible protein, fat and carbohydrates in proper proportions, but that's only the beginning. It takes more than that just to build the animal—it takes phosphorus for brain and bone and nerve—it takes lime to make a frame work that will carry a strong and efficient body, and it takes both lime and phosphorus to make milk.
But a scientifically balanced, highly digestible ration isn't enough—it's got to be appetizing, and that's what the "Sucrene," the sugar part of Sucrene Dairy Feed does—it makes the cow enjoy eating and she digests her food all the better because she has a good taste in her mouth.
A trial will convince you that Sucrene Dairy Feed is a profit maker for your herd.
