Lutheran-Union, communion, morning, pre paratory service Friday and Saturday evenings Georges Valley, morning, Luther Day Services Mrs. Helen C. Beegley, field secretary of the Woman's Home and Foreign Missionary Society. will make the address, and a program will be rendered by the members of the Sunday-school. Centre Hall, evening.

The Democrats who voted for Roosevelt are content just to let the matter drop there.

The Misses Wilson are real ladies, ladies.

Teddy wasn't as big a man in the mind of the people as he thought he was. Measured by others, he got his real dimensions.

Among the spoils of victory were twenty-one Democratic Governors, while the Republicans and Progressives got about seven.

Bryan's Commoner devotes its first page to the poultry business, or at one-half per cent. on the preferred least it has a row of roosters there that look like prize winners.

Now about scup : Brother Wilson 16;h. Checks will be mailed. during the next four years, will likely dish it out to Democrats, and the supply will not be equal to the demand.

And " Nick " Longworth was made Mrs. William Haines. a private, too. The voters of the first Mrs. William Wolfe returned to her Congressional District in Ohio didn't think it worth while to reelect Alice's the parental roof, near Woodward. husband.

Golden Wedding At Orangeville, Illinois, Mr. and Mrs. James M. Miller celebrated their golden wedding a few days ago. Mr. Miller is the son of the late Capt. John Miller, of Millheim, and was born in that town in 1840. Mrs. Miller is the

daughter of Henry Wile, and was born at Spring Mills. Their marriage took place at Madisonburg in 1862, to which place the Wile family had moved. Five years later Mr. and Mrs. Miller went to Illinois, and for a short time also lived in Wisconsin. Returning to Illinois they lived on a farm near Orangeville for more than forty years, and live retired in that town

Five of their eight children are living. Marriage Licenses.

SADDLE MAKING IN MEXICO.

Entire Families Often Take Part in the Home Industry.

The making of saddles, while in the aggregate an important local Mexican service. The manager of the largest wholesale and retail dealers in saddles in Mexico City says that all the saddles which they handle are made locally at similarly employed.

Many of these handmade saddles are handsomely carved and most creditable in appearance, although the leather as retailers to furnish the trees, leather and fittings of all kinds to the workmen and pay them for their actual labor. The labor is the cheapest item entering into saddle construction, many entire families being satisfied with a wage of 50 cents to \$1 American currency per day.

The suddletrees used for the better grade of saddle are imported from the state of Colima, the cheaper grade of saddles using a tree of local make. No American saddles or saddletrees are carried in stock by local merchants, but are ordered from time to time according to the specifications of the individual purchaser .- Trade and Consular Reports.

ROLLING THUNDER.

Why the Rumble at Times Is So Long Drawn Out.

The prolonged roll of thunder is readily explained by comparison with a volley fired along a line of troops. Suppose troops to be drawn up on a line in such numbers as to extend for a mile and ordered by a signal that all could see to fire at once. One standing at the end of the line would hear the report of the musket nearest him instantly. He would hear the others successively. Thus a report 550 feet away would come to him in half a second, and he would not hear the to be compared with what it accomlast report for five or six seconds after the gun had been fired. This would produce a sort of roll, which would gradually increase in intensity.

If the listener stood exactly midway between the two ends of the line the reports from both ends would reach him at once, and the sound would be but half as long in reaching him as if commonly called-was used in the camhe stood at one extremity. If the sol- era. From time to time other subdiers formed a circle there would be stances of greater and greater sensione sharp explosion.

ered as representing three lines of the solar beam a wider play and more troops along which the explosions oc astonishing power.

LIVED UP TO THE TEXT. TROUBLES OF THE EAR.

Many of Them Are Caused by Abuses It Made a Deep Impression on Little of Some Kind. The best way to care for the ear is

at once.

Julia, and She Did Her Best. "Be not forgetful to entertain strangers, for thereby some have entertain-

to study the things not to do. It is one industry, is purely a home affair, the of the most independent of organs, ed angels unawares." artisans for the most part working in- knowing very well how to take care of The foregoing quotation is from dependently in their own homes and itself. When the Budding Composer Was Flogged by Royal Command.

An amusing incident of the healthy boyhood of the great composer, Joseph Haydn, is given by Mary Maxwell Moffat in her biography of the Austrian empress, Maria Theresa.

When von Reutter became choirmaster of St. Stephen's cathedral he had Joseph Haydn among his pupils.

During a visit to the Hungarian Prince Esterhazy, in 1773. Maria Theresa took occasion to say a word of praise to Haydn, who had composed the music of the opera given in her honor and had conducted the performance. She expressed the conviction that she had seen him before, although she could not remember the occasion. "The last time your majesty was pleased to take notice of me," said

Haydn, "you ordered me a good thrash-"That does not sound like me," re-

joined the empress. "How did it happen?

Then Haydn told of a Whitsuntide when, with other pupils of Von Reutter, he had been brought to Schoenbrunn to sing in the chapel. Between the services the boys took to clambering over the scaffolding of the new wings of the palace. The empress caught sight of them and sent word forbidding the dangerous sport. But the attraction of the scaffolding was irresistible. On the following day the boys were again risking their necks. When Maria Theresa expostulated with Von Reutter his surmise that the ringleader was "that young scamp, Joseph Hadyn," led her to suggest that the rod be used to improve his memory.

The Glowworm Cavern.

The greatest wonder of the antipodes is the celebrated glowworm cavern, visiting in Paris was conducted to the discovered in 1891 in the heart of the gallery of battle pictures. They first Tasmanian wilderness. The cavern or caverns (there appears to be a series of such caverns in the vicinity, each separate and distinct) are situated near the town of Southport, Tasmania, in a limestone bluff, about four miles from cavern is that of an underground river, They passed to St. Louis, who, on the the entire floor of the subterranean passage being covered with water about a foot and a half in depth. These "That's Napoleon I.?" queried the wonderful Tasmanian caves are similar to all caverns found in limestone formation, with the exception that They arrived at Henri IV., who was their roofs and sides literally shine with the light emitted by the millions of glowworms which inhabit them.

Strange Cure For Lunacy.

Our forefathers were so fond of the whip that they seem to have regarded it as a cure for lunacy and even for donshire parish under date 1691 have the entry. "Pd. in charges taking up lew years later eightpence is paid for

more than absolutely necessary. for they obstruct the canal and interfere with the natural way of casting off wax.-Exchange.

cur at the same time. variety of distance and position of the listener and we account for the varlety of sound in thunder. In mountainous regions the rolling is augmented by reverberations or echoes.

Pharaohs Had the Hookworm. The hookworm has been preying on man perhaps for thousands of years A papyrus written 3.400 years ago con tains a description of a disease in Egypt which many physicians declare was the bookworm disease. It describes it too accurately to be anything else In recent times it was observed in Egypt first in 1883, but the first recorded treatment was made in 1887.

Whether or not malaria was one of the chief causes of the downfall of Greece and Rome, it is very certain that hookworm disease has played a part in Asiatic history. The anemie condition of millions of people, century after century, has profoundly affected their economic life, their intellectual qualities, their social habits and ideals and their religion. Of that there can be no doubt .- World's Work.

How She Jogged Memory.

Little Marjorie was taking her first lessons in dancing. The teacher noticed that Marjorie always failed to put out her left foot when commanded to do so. The teacher was patient and thought Marjorie would learn in time, but a number of lessons did not out her left foot. Marjorie would put out that foot when the other children were placing their right feet foremost. Finally the teacher asked Marjorie for an explanation.

get a hollow place in a tooth on the left side, and I always have to find that hollow place with my tongue to find out which is my left foot."-Indianapolls News.

Silenced.

"What did you mean by starting the story that I was an unbeliever in the Scriptures?" asked the deacon in great wrath.

"Well, deckin," said the man who had originated the report. "you know you told me that all you said about that hoss I bought was as true as gospill. An' you know how true it was." "Er-ah," said the deacon,

Laugh and Live Long.

It has been aptly said that there is not the remotest corner of the inlet of the minute blood vessels of the human body that does not feel some wavelet from the convulsions occasioned by good hearty laughter. The life principle of the central man is shaken to its innermost depths, sending new tides of life and strength to the surface, thus materially tending to insure good health to the persons who indulge therein. The blood moves more rapidly and conveys a different impression to all the organs of the body as it visits them on that particular mystic journey when the man is laughing from that conveyed at other times. For this reason every good, hearty laugh in which a person indulges tends to lengthen his life, conveying as it does new and distinct stimulus to the vital forces.

What Wellington Was Doing.

When Sir John Steell, the sculptor, had the Iron Duke sitting for a statue he tried to induce him to look warlike. All his efforts were in vain, however, for Wellington seemed, judging by his face, never to have heard of Waterloo seem to make her know when to put or Talavera. At last Sir John lost his patience. "As I am going to make this statue of your grace," he exclaimed. "can you not tell me what you were doing before, say, the battle of Salamanca? Were you not galloping about "Well, you see," said Marjorle, "I've the field, cheering on your men to deeds of valor by words and action?" "Bah!" said the duke in evident scorn. "If you really want to model me as I was on the morning of Salamanca, then do me crawling along a ditch on my stomach with a telescope in my hand!"

> Suspicious Fervor. "Well, brother," said the deacon.

"that was a fine prayer you made last night. "Thank you, deacon. 1 am very glad

to hear you say so." "Yes, it was a splendid prayer, long and fervent. And, say, what have you been doing anyway? You can confide in me with the utmost confidence. I wouldn't betray you for anything in the world."-Chicago Record-Herald.

Willing. "Now," began the philosophier, "take the life of your neighbor, for instance. He"-

"I'd do it in a minute," interrupted the practical man, "if the law would not interfere. He's learning to play
