A DOCTOR'S SLEEP Found He Had to Leave Off Coffee.

Many persons do not realize that a bad stomach will cause insomnia. Coffee and tea drinking being such an ancient and respectable form of habit, few realize that the drug-caffeine-contained in coffee and tea, is one of the principal causes of dys-

pepsia and nervous troubles. Without their usual portion of coffee or tea, the caffeine topers are nervous, irritable and fretful. That's the way with a whisky drinker. He has got to have his dram "to settle his

nerves"-habit. To leave off coffee or tea is an easy matter if you want to try it, because Postum gives a gentle but natural support to the nerves and does not contain any drug-nothing but food.

Physicians know this to be true, as one from Ga. writes: "I have cured myself of a longstanding case of Nervous Dyspepsia by leaving off coffee and using Post-

um," says the doctor. "I also enjoy refreshing sleep, to which I've been an utter stranger for

20 years. "In treating dyspepsia in its various types, I find little trouble when I can

induce patients to quit coffee and adopt Postum." The Dr. is right and "there's a

reason." Read the little book, "The Road to Wellville," in pkgs.

Postum now comes in concentrated, powder form called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavour is always uniform. Sold by grocers-50cup tin 30 cts., 100-cup tin 50 cts.

Wilson Will Make Radical Change in Old Tradition.

TO WAIT FOR GOOD WEATHER.

Announces a Departure From Inauguration Arrangement That Has Prevailed Since Washington's Day.

Hamilton, Bermuda. - Presidentelect Wilson has announced that though he would agree to begin sworn in as president on March 4, as provided by the Constitution as the legal beginning of a presidential term, the main inaugural ceremonies would be postponed until Thursday, April 24, because of the notoriously bad weather old clip is in scant supply, in normal that prevails in Washington during the early part of March.

As his reason for making the proposed change Governor Wilson gave the health of those participating in as in the case of some markets, road the inaugural ceremonies. He said orders have more than made good the that in nearly every instance the deficit. weather had been inclement on the occasion of the induction of presidents into office and he thought that nobody could suffer any grievous inconvenience by a few weeks delay of the pomp and ceremony if the letter of the law was carried out by his taking the oath on the legal day.

By his announcement of a postponement of inaugural ceremony Governor Wilson has changed a custom that has been traditional since the second induction of Washington. The first president on his first election took the oath in New York on April 30, but the second time he formally took up his duties in Washington on March 4 and every president since that time has fo b affoat. followed the custom.

Mr. Wilson's change of date for the great display of pomp and circumstance surrounding the induction into office of a new president comes as the result of the agitation regarding which recurs almost every four years, 221/2@23.

NAVY AGAIN DOWNS ARMY.

James H. Brown, Hero Of 1912 Foot-

ball Game. Philadelphia.-In one of the most

stirring football games ever played by the two arms of the national service. the Navy, on Franklin Field, defeated the Army by the score of 6 to 0. The midshipmen did not need Jack Dalton, the Navy by field goals, for the Annapolis team had another sure kicker in J. H. Brown, a tall guard, who booted the Navy to victory by two splendid goals from placement. Both goals came in the last period of play from the 23 and 37 yard lines after it began to look as if the fierce struggle would result in a scoreless tie.

Weekly Review of Trade and Market Reports.

Bradstreets' says:

"Trade channels are running full, with optimism predominant, and this despite widespread evidences that mild weather is a bar to fullest activities in final distribution. Still in this very matter of unseasonably warm weather, apparently the only real current cause of complaint, it is to be noted that mild climatic conditions are and have been in a high degree favorable to agricultural and transportation interests.

"In the textile trades is a subject of interest. Dry goods are in active demand from mill to retailer, though mild weather hampers retail demand for heavy-weight goods. Cotton goods are strong, and print cloths and brown cottons have advanced in price with commission men. In the yarn trades both cotton and woolen lines are strong and active. Raw wool of the demand and firm in price.

"Best reports as to jobbing and retail trade come, as heretofore, from the West, Northwest and Southwest, and where house trade has fallen off,

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the delicate female organism. There is every reason why she should write or personally consult an experienced specialist.

As a powerful, invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For "run-down," debilitated women of all occupations

DR. PIERCE'S **Favorite Prescription**

is unequaled as a restorative tonic. As a soothing and strengthening nervine "Favorite Prescription" allays and subdues nervous excitability, irritability nervous exhaustion, and other distressing symptoms commonly attendant upon functional and organic diseases of the feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of

vast experience in the treatment of women's maladies. Its ingredients have

the indorsement of leading physicians in all schools of practice. The "Favorite Prescription" has been sold by dealers in medicine in its liquid form for over 40 years. Now it can also be obtained of them in tablet form-or send 50 one-cent
