

**GLASS WORKS FOR BELLEFONTE.**

Pittsburgh Promoters Endeavor and May Succeed in Interesting Bellefonte Capital.

The Keystone Gazette of last week contained this news item of general interest throughout the county:

Another big industry is practically assured for Bellefonte, to be established in the near future from plans already consummated, in the erection and operation of a large glass factory. A proposition was submitted to the Executive Committee of the Board of Trade by J. H. Fisher and B. G. Ott, of Pittsburgh. The gentlemen represented the Merchants Realty Company, of Pittsburgh, builders and promoters.

At the conclusion of the meeting between Messrs. Fisher and Ott and the Bellefonte Board of Trade bright assurances were given for the early location of the plant here. A charter has been granted to the corporation and the project may be taken as a "sure go." The company will be known as the "Centre County Window Glass Company." The corporation will be composed chiefly of Bellefonte men, with a view of erecting a plant on a plot of ground owned by the Thomas estate, near the old Glass Works site.

At the meeting on Tuesday the promoters from Pittsburgh stated that the sum of \$30,000 had been pledged in Bellefonte for the project. They asked from the Board of Trade free taxes and water for a period of five years, improvement of railroad facilities at the proposed site; that the Board of Trade manifest interest in the deal by securing an option on the land and that the members aid in securing slag from the furnaces for the purpose of concreting.

Col. W. Fred Reynolds, president of the Board of Trade, appointed a committee as follows to co-operate with the visitors in furthering the project; namely, Hon. J. Linn Harris, Adolph Fauble and Frank E. Naginney.

It is practically assured that the desired inducements can be secured and little stands in the way of certain announcement of the location of this industry in Bellefonte, which will be welcomed by every resident here.

**The Pink Label.**

The Pink Label appears on this issue. This means that all subscribers who paid subscription between September 10th and December 10th will for the first time have credit on their labels. The Pink Label appears on all wrappers, whether or not you have paid subscription.

If you have not received proper credit for subscription paid report at once.

**MEETING OF STATE GRANGE.**

Sessions Now on in Clearfield—Election of Master Creasy's Successor.

Much interest has been aroused throughout the State among the Patron of Husbandry in the election of State officers, which will be one of the chief features of the meeting of the Pennsylvania State Grange, being held in Clearfield this week. The officers are elected every two years and this is the year when their term expires. The greatest interest centers in the contest for State Master, which has been held the past two terms by Hon. William T. Creasy, of Catawissa, Columbia county, familiarly known as "Farmer Creasy." He is a candidate for re-election and there can be no doubt that he will be strongly supported because as a legislator and Master he has always been a very powerful advocate of every interest of the farmers of the State. His opponents are Hon. E. B. Dorsett, of Tioga county, who has held the office of State Lecturer for several years; Hon. John McSparran, of Lancaster county; and State Senator Jerome T. Ailman, of Juniata county, who has been a member of the State Legislature for a number of years.

There are something like one thousand Granges in Pennsylvania, and since each order is entitled to two representatives the attendance will swell into several thousand Patrons. Every Fourth Degree member may be admitted to the hall.

**Weber's Special Sale.**

In this issue J. H. and S. E. Weber advertise a special sale of farm implements, wagons, tools, etc. They prefer to sell at a greatly reduced price, rather than hold over their goods, giving those in need of any of the articles advertised an opportunity to profit. A careful reading of the advertisement will convince you that the stock offered is not only a few selected articles, but includes almost, if not altogether, every piece of machinery and tool used on the farm, except binders and rakes of which there are none in stock.

When you buy one of the Weber advertised articles you know it is new, and just as good as the factory can make it. It has not already served half or more of its usefulness and ready for repairs, but is new and can be used many years without repairing, an item that must not be lost sight of.

This large stock of implements and tools on hand simply because J. H. Weber, the senior partner of the firm, for several months was unable to get to his place of business on account of sickness. His misfortune is your fortune.

Christmas post cards at 15 cents per dozen. Postage paid at this end.

**Pronunciation.**

There is a story that Terryson, hearing at a dinner party somebody pronouncing knowledge with a long o, jumped up from the table, rushed at his fellow guest and shook hands with him. "Among the faithless faithful, he!" he exclaimed, and he proceeded to denounce in vehement terms the iniquitous mispronunciation of the English language. It is remembered that a greater English poet—Byron, to wit—did not agree with him, as a couplet in "Don Juan" shows: No, no; I'd send him out betimes to college, For there it was I picked up my own knowledge.

**Bad For Tall Hats.**

New Year's eve, which is sacred to St. Sylvester, is celebrated in Berlin by the blowing of tin horns, the ringing of bells and all other devices for making a noise. The only horseplay indulged in is at the expense of the wearer of the silk tite. Any one on the street is privileged to bring his cane down on the crown of the offending headgear as hard and as often as he can. When the man with the dilapidated hat complains to the police the only consolation he gets is, "It serves you right for wearing it on Sylvester night."

**Feminine Finance.**

A poor lady whose husband had just failed was bemoaning the fact. "At any rate," she said as she wiped the tears from her eyes, "the Brown failure was worse than ours." "How so?" said one who knew that her husband's smashup had been terrible. "Why," she said, "we only failed for 5 cents on the dollar, whereas Mr. Brown failed for 55."

**Discovered His Mistake.**

"Do you believe that all men are created equal?" "I used to before I was married." "And now?" "Now I find that I can't begin to compare with other women's husbands."—Detroit Free Press.

**Proof to the Contrary.**

"They say that Wombat is a genius." "Nothing to that story. It's a canard. I loaned him a dollar once, and he paid me back all right enough."—Pittsburgh Post.

**Sympathy.**

Proud Mother—Such enormous sums as we've spent on Clara's voice! Sympathetic Visitor—And you can really do nothing for it?—London By-stander.

**A Discovery.**

"There is something uncanny about this baby, John." "Then, my dear, it must be his creepy ways."—Baltimore American.

The fate of all of us, men and women alike, is to be forever wanting what we have not.—Jerome K. Jerome.

**Gifts That Delight the Man**

**Sucrene Dairy Feed**

The Most Nourishing Feed for Cows

The Biggest Producer of Milk

The Most Economical to Feed

A thousand scientists are experimenting every day with a thousand different phases of the Feed-for-Milk problem. There is just one judge to whom they refer their elaborate theories and by her decision the theories stand or fall—THEY PUT IT UP TO THE COW.

That's what has been done in developing "Sucrene" Dairy Feed at every stage of its evolution—every time an improvement was made in the formula, that was done.

"Sucrene" is not a theoretically balanced ration—to most feeders that means only digestible protein, fat and carbohydrates in proper proportions, but that's only the beginning. It takes more than that just to build the animal—it takes phosphorus for brain and bone and nerve—it takes lime to make a frame work that will carry a strong and efficient body, and it takes both lime and phosphorus to make milk.

But a scientifically balanced, highly digestible ration isn't enough—it's got to be appetizing, and that's what the "Sucrene," the sugar part of Sucrene Dairy Feed does—it makes the cow enjoy eating and she digests her food all the better because she has a good taste in her mouth.

A trial will convince you that Sucrene Dairy

Feed is a profit maker for your herd.
