**After Long Suffering**  
Women Are Constantly Being Restored to Health by Lydia E. Pinkham's Vegetable Compound.  
"Worth mountains of gold," says one woman. Another says, "I would not give Lydia E. Pinkham's Vegetable Compound for all the other medicines for women in the world." Still another writes, "I should like to have the merits of Lydia E. Pinkham's Vegetable Compound thrown on the sky with a searchlight so that all suffering women could read and be convinced that there is a remedy for their ills."  
We could fill a newspaper ten times the size of this with quotations taken from the letters we have received from grateful women whose health has been restored and suffering banished by Lydia E. Pinkham's Vegetable Compound.  
Why has Lydia E. Pinkham's Vegetable Compound accomplished such a universal success? Why has it lived and thrived and kept on doing its glorious work among the sick women of the world for more than 30 years?  
Simply and surely because of its sterling worth. The reason no other medicine has ever approached its success is plainly and simply because there is no other medicine so good for women's ills.  
Here are two letters that just came to the writer's desk—only two of thousands, but both tell a comforting story to every suffering woman who will read them and be guided by them.

**FROM MRS. D. H. BROWN.**  
Iola, Kansas.—"During the Change of Life I was sick for two years. Before I took your medicine I could not bear the weight of my clothes and was bloated very badly. I doctored with three doctors but they did me no good. They said nature must have its way. My sister advised me to take Lydia E. Pinkham's Vegetable Compound and I purchased a bottle. Before it was gone the bloating left me and I was not so sore. I continued taking it until I had taken 12 bottles. Now I am stronger than I have been for years and can do all my work, even the washing. Your medicine is worth its weight in gold. I cannot praise it enough. If more women would take your medicine there would be more healthy women. You may use this letter for the good of others."—Mrs. D. H. BROWN, 809 North Walnut Street, Iola, Kan.

**MRS. WILLIAMS SAYS:**  
Elkhart, Ind.—"I suffered for 14 years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

**BOY OBEYED ORDERS GIVEN**  
Meant Well, But Information Was Not Welcomed by Hotel Manager Just at That Time.

A certain New York hotel manager is one of these nervous men who constantly warn their employes against keeping them in ignorance of any happening around the place. He hired a new bell boy recently, and gave him the usual warning:  
"Remember," he warned, "if anything happens around here I'm to be the first person to know about it."  
Soon after that he was showing three haughty Daughters of the Confederacy one of the best rooms in the place, when the new bell boy rushed in with his hair on end.  
"Something's happened!" he yelled.  
The three Daughters of the Confederacy turned coldly, and the manager, anxious to get rid of the boy, demanded to know the trouble.  
"That old cat down stairs," said the boy, "has just had kittens! What shall we do?"  
The manager's suggestion was rough.

Irreclaimable Skeptic.  
How big an income should a young man have before he is justified in getting married? This question is asked in various departments of the Sunday papers at various seasons of the year and it is variously answered. Conditions change and domestic happiness changes with the conditions.  
The best answer we remember to have heard was given by a cynical bachelor and skeptic last week. This person was in the newspaper office when the woman editor opened her mail and read forth this question:  
"Could a young couple be happy on \$900 a year?"  
"Sure they could," answered the skeptic eagerly. "They couldn't live together on it."  
It takes more than a soft answer to turn away the book agent.

**STUDIES BIG PROBLEM**  
BUREAU OF SOCIAL HYGIENE IS EXPLAINED.

John D. Rockefeller, Jr., Tells of its Origin, Work and Plans for the Investigation of Vice Conditions.

New York, Jan. 27.—In order that the public might better understand the Bureau of Social Hygiene, John D. Rockefeller, Jr., today gave out a statement explaining the origin, work and plans of that institution. The bureau, he said, came into existence about two years ago as a result of the work of a special grand jury appointed to investigate the white slave traffic in New York city. This jury recommended that a public commission be appointed to study the social evil.

Mr. Rockefeller was foreman of that grand jury and he thereafter gave the subject deep thought and conferred with a large number of leading men and women. "These conferences," says Mr. Rockefeller, "developed the feeling that a public commission would labor under a number of disadvantages, such as the fact that it would be short lived; that its work would be done publicly; that at best it could hardly do more than present recommendations. So the conviction grew that in order to make a real and lasting improvement in conditions, a permanent organization should be created, the continuation of which would not be dependent upon a temporary wave of reform, nor upon the life of any man or group of men, but which would go on, generation after generation, continuously making warfare against the forces of evil. It also appeared that a private organization would have, among other advantages, a certain freedom from publicity and from political bias, which a publicly appointed commission could not so easily avoid."

"Therefore, as the initial step, in the winter of 1911 the Bureau of Social Hygiene was formed. Its present members are Miss Katharine Bement Davis, superintendent of the New York State Reformatory for Women at Bedford Hills, N. Y.; Paul M. Warburg, of the firm of Kuhn, Loeb & Co.; Starr J. Murphy, of the New York bar, and John D. Rockefeller, Jr. As the work develops new members may be added."

"One of the first things undertaken by the bureau was the establishment at Bedford Mills, adjacent to the reformatory, of a laboratory of social hygiene, under Miss Davis' direction. In this laboratory it is proposed to study from the physical, mental, social and moral side each person committed to the reformatory. This study will be carried on by experts and each case will be kept under observation for from three weeks to three months, as may be required. When the diagnosis is completed, it is hoped that the laboratory will be in position to recommend the treatment most likely to reform the individual, or, if reformation is impossible, to recommend permanent custodial care. Furthermore, reaching out beyond the individuals involved, it is believed that thus important contributions may be made to a fuller knowledge of the conditions ultimately responsible for vice. If this experiment is successful the principle may prove applicable to all classes of criminals and the conditions precedent to crime, and lead to lines of action not only more scientific and humane but also less wasteful than those at present followed."  
That its work might be done intelligently the bureau employed George J. Kneeland to make a comprehensive survey of vice conditions in New York, and Abraham Flexner to study the social evil in Europe, and their reports are now being prepared. These studies will be followed by others in various American cities, and it is the hope of the bureau that, based upon all of them, may be devised a practical plan for dealing with the social evil.

In conclusion Mr. Rockefeller's statement says: "It cannot be too strongly emphasized that the spirit which dominates the work of the bureau is not sensational or sentimental or hysterical; that it is not a spirit of criticism of public officials; but that it is essentially a spirit of constructive suggestion and of deep scientific as well as humane interest in a great world problem."

**CUT THIS OUT**  
Recipe that Breaks a Cold in a Day and Cures Any Curable Cough.

"From your druggist get half ounce of Globe Pine Compound (Concentrated Pine) and two ounces of Glycerine. Take these two ingredients home and put them into a half pint of good whiskey; shake well and use in doses of one to two teaspoonfuls after each meal and at bedtime. Smaller doses to children according to age. But be sure to get only the genuine Globe Pine Compound (Concentrated Pine). Each half ounce bottle comes in a sealed tin screw-top case. If your druggist does not have it he will quickly get it. Many mixtures are of large quantity and cheap, but it is risky to experiment. This formula comes from a reliable doctor and is certain. This was first published here six years ago and local druggists say it has been in constant demand ever since. Published by the Globe Pharmaceutical Laboratories of Chicago.

**SCURF ON BABY'S HEAD**

Campbell, Va.—"I used Cuticura Soap and Ointment for scurf on my baby's head and they made a complete cure. It came on her head soon after birth. It broke out in pimples and itched and she would scratch it and cause sores to form. Her head was very sore and her hair fell out in bunches. She was very cross and fretful and could not sleep at night. I tried many remedies, all failed, then I tried Cuticura Soap and Ointment and they commenced to heal at once. I put the Cuticura Ointment on, and a half hour after washed her head with the Cuticura Soap. I used them a month and she was cured entirely." (Signed) Mrs. W. B. McMullen, Mar. 8, 1912.
