LOCALS

Mr. and Mrs. Thomas Fleisher, of Colyer, expect to go to Tyrone for a prolonged visit.

Mrs. William Ertle, of Coburn, was taken to the Bellefonte hospital last week. She is a sister of Daniel Daup, of Centre Hall.

W. K. Foster, representing Wanamaker & Brown and Victor's Ladies' Department, was in town on Wednesday making calls on customers in his line of trade.

Andrew H. Kreamer, of Altoona, has been a sufferer from a mammoth carbuncle on his neck. His condition became so alarming that last week he was removed to a hospital for treatment.

tilds, formerly county commessioners' to hear the boys again on Friday Eva Fiedler, of Fiedler, were united in

Rebersburg.

These bills were introduced in the Mr. and Mrs. Jacob Sprow, of near Centre Hall, were visitors in town Mr. Kaiser, Allegheny-Fixing pay over Sunday.

All the ice bouses in town are now filled with the frozen crystal of a Mr. Foster, Philadelphia-Providing superior quality. that District Attorneys shall not have

David Meyer, who has reached the eighty-sixth milestone of his age, is at present on the sick list.

Wm. Bowersox quite recently purchased a saw mill from Dr. Leib and placed the same in the woods on his farm near Wolfs Store.

Charles Bressler has rented a dwelling house and blacksmith shop in Madisonburg and will make sale this spring of his farm implements and stock and will move there in April. George Greninger, of Freeport, Illinois, is at present visiting relatives and old acquaintances in this vicinity. Mr. Greninger left this place for Illinois fourteen years ago, and this is his first visit east since then.

Ammon Shrayer, who was on the sick list for over a month, has fully recovered and will make sale of bis farm stock and move to Illinois. Edwin Greninger will move on the farm which Mr. Shrayer will vacate.

One day last week while Wm. Haines and Lowell Bierly were returning home from Millheim in a top buggy and while driving along in the vicinity of Elias Breon's home, they caught up with Winkleblech's lumber teams and in attempting to drive around them the buggy upset, taking the horse with it over an embankment into a fence conner. The men were not injured, and after getting the horse on his feet it was found he had also escaped injury. The buggy top was badly smashed and the shafts

were broken.

Woodward.

C. D. Molz is spending the greater part of the week in Harrisburg.

John Eby and wife, of Millheim, The minstrel show given by the spent the Sabbath with the former's oung men of Millheim in that town parents, Mr. and Mrs. N. W. Eby.

ast Saturday evening was such a Master James Ard, of Aaronsburg, grand success that it will be repeated spent the greater part of last week on Friday night of this week, the pro- with his grand parente, Dr. and Mrs. ceeds to be for the Millheim town hall W. P. Ard.

Mrs. Emma Hasslett and sister. Miss Margaret Boyer, of Pittsford, N. ing at their first performance, and Y., were visitors in town Saturday those who were there were so well and Sunday.

Mr. and Mrs. A. B. Meyer, of Cowish to go a second time. It is right burn, spent the Sabbath with friends and proper that the efforts of these in town. They were accompanied young men should be appreciated and home by Miss Dorthea Whitley.

Edward J. Williams, of Port Ma- their show liberally patronized. Go Roy Musser, of Woodward, and Miss

WEIGHTS AND MEASURES.

A Joke on Himself That Mark Twain Failed to Enjoy.

When Mark Twain was a resident of Hartford, Conn., he once called at the office of Dr. Swan, a focal specialist of considerable repute, to consult him regarding a trivial aliment.

REFUSED TO LAUGH.

The physician was inclined to be rather arbitrary in his charges, was very independent and disliked exceedingly to be consulted in regard to mipor ailments. In this instance he named a fee for his services that the economically minded Clemens thought

excessive. After a little argument Mr. Clemens such price as the physician asked, and rose to leave. Just as he turned his back on Dr. Swan a voice said distinctly: "Go along home, you old fool, you!"

Instantly Mark Twain wheeled around, angry through and through. 'What's that, sir?" he roared at the doctor. "What's that you say?"

With a smile that was cloying in its sweetness Dr. Swan pointed to a cage in the corner where his parrot was swinging and chuckling with birdish glee, and explained:

"That is the gentleman who spoke to you, sir." Somehow the explanation did not seem to reduce Mr. Clemens' anger very much, and he never entirely believed in Dr. Swan's innocence .-New York American.

Without These Organs the Insect Would Tumble to the Ground.

The insects of the Diptera order, to which the common housefly belongs, have, as a rule, one pair of wings and ancers" and, as experiments have

moved cannot direct its flight, and if it tries to by from the edge of a table will immediately take a downward course, dropping to the floor on its head about three feet away and falling over on its back. Similarly, if it tries to fly from the floor after succeeding in getting on its feet again it will rise in the air two or three inches and then again tumble, striking its bead and turning over on its back as before, but only about four inches from its starting point. Horizontal and ascending flight becomes absolutely impossible.

causes it to upset ma

Care With Which England's Standards

Are Preserved. Every twenty years government officlais compare the current weights and measures with the standards, which are sealed up in the staircase of the house of commons. There are only two standards, the pound weight and ding, two cook stoves, parlor chairs, kitchen the yard measure. The standard pound is of platinum, which despite its weight chairs, tubs, wash rubber, wringer, doughtray, is no larger than a cubic inch, and.

small as it is, the metal of which it is composed is worth £40. The standard yard is a bar of bronze thirty-eight Inches long, on which a yard has been marked off in thirty-six divisions of an Frank L. Mayes, Auctioneer. declared that he would not pay any inch. The greatest possible care is taken of these two important articles.

> they are handled with tongs. The head of young cattle, 2 brood sows, 1 boar, 16 pound weight is weighed in the most showts; also a full line of farming implements, delicate of chemical balances, and the yard is measured with a micrometer. When they are done with the pound it is wrapped in a special soft paper and and a full line of farming implements; also laid in a silver gilt case, which is plac- some household goods.

ed in a bronze case, this being put in a ed on eight rollers in a mahogany case.

which is carefully sealed. Both cases are then put into a leaden casket, which rising four years; one is rising three years, and is sealed by soldering. The packing is, not yet finished, however, for the lead case is placed in a strong oak box. When this is screwed down it is placed in the hole in the wall. The wall is built up by a mason, and the standards clean up sale for that farm. F. L. Mayes, succan only be obtained by demolishing it

once more.-London Globe.

A HANDICAP IN GOLF.

It Was a Rather Mean Advantage, but It Won the Game,

An unusual golf handicap was played on one of the local links recently, the proponent of the same winning hands down. One of the rules of golf is that one must not talk to a player when he is about to make a drive, nor must others discuss any subject in his hearing. Mayes, suctioneer. It might take his mind off the game for just an instant, and that might prove fatal.

In Kansas City lives a crack but extremely nervous golf enthusiast. He had been in the habit of beating a fat and phlegmatic friend until the latter tired of it.

"I'll tell you what I'll do," the friend said not long ago. "I will play you eighteen holes if you will give me a handicap."

"Done," said the nervous player. "Name the handicap." "Three times during the game, and

not more than three, I am to be permitted to stand behind you and say ated below : 'Boo!' while you are preparing to

drive."

Sale Register. TUESDAY, MARCH 11, ten o'clock, three

miles south west of Spring Mills, at Samuel Ertle home, by Amanda C. Gobbie and Ida C. Decker executrixes : 1 horse, 2 cows, brood sow, 3 shoats, farming implements, tools, machinery, harness, blacksmith and chrpenter tools, stoves, chamber suits, sewing machine, faraiture, and many

fly's balancers go a long way toward solving the prob lem in acroplane construction .- Westminster Gazette.

Beware of Cousins!

Cousins are not as simple as they seem. The very fact of being a cous in, or having a cousin, is complicated The laissez faire of cousinship is both eluding and deluding. Cousins will be cousins, even if you did not choose them. They can borrow money from you, visit you without being asked, tell people they belong to your family, con test your will, even fall in love with

you-and a cousin once removed is twice as apt to. Never completely trust a cousin. Never depend on his not doing any of these things. Never take him for granted. The "cousinly kiss" may or may not mean what it

means. And cousins always do kiss It's part of being cousins. (Not that cousins need necessarily prove perilous. Once in a blue moon they invite you to Europe or leave you money, but that almost always takes an aunt or an uncle.)-Atlantic.

Cod Liver Oil From Sharks.

Shark spearing is a profitable industry in Mainysia, though attended by an element of danger and no little excitement. The chief value of the fish is its liver, which yields an oil that is refined in Europe and sold as cod liver oil. In October the ocean sharks come into the lagoon, between the barrier reef and the atolls, to pair. At this time they can be speared in large numbers by people skilled in catching them There are several species of these sharks, and they ordinarily run from seven to fifteen feet in length. The liver of a shark of this size gives about five gallons of oil. The sharks are found in pairs, and the harpooners try to kill the male first, for they are then able to spear the female also, as it does not desert its mate.

The Apple.

Scandinavian legends affirm that the apple was the favorite food of the gods. It was one of the first fruits grown by the Romans; it was early introduced 18-tooth Perry harrows, Old's Gasoline into England and brought from there to engine, 1 1-2 horse power, single and ex-America. It is easily cultivated, bears tention ladders, Pittsburg ready roofing; fruit farther north than almost any stock, worm and poultry powder ; axle other, and by means of grafting almost grease, oils ; harness and top dressing. 2,000 varieties have been produced. These facts show in part why the apple stands at the head of all fruits .-
