Both of the ceremonies proper were conducted in a severely simple but most impressive manner. The surroundings of the scene of the president's induction into office, however, were not so simple, for it was an outof-door event and the great gathering of military, naval and uniformed civil organizations gave much more than a touch of splendor to the scene.

When President Taft and the president-elect emerged from the capitol on to the portico they saw in front of them, reaching far back into the park to the east, an immense concourse of citizens. In the narrow line between the onlookers and the platform on which Mr. Wilson was to take the oath, were drawn up the cadets of the two greatest government schools, West Point and Annapolis, and flanking them were bodies of regulars and of national guardsmen. The whole scene was charged with color and with life.
