What's in a Name?

There has been but one president named Thomas since the republic was founded. There have been five named James, and three named John. There have been three Williams and one George.

Martin, Zschary, Millard, Franklin, Abraham, Ulysses, Rutherford, Ches. number of musical selections were ter, Grover and Theodore are not what rendered and some very interesting might be called common names, and stories were recited by Mrs. Shoop. yet none is quite so distinctive as Woodrow.

Blakesiee Recognized.

The following important appointments have been made by the President:

First assistant postmaster general, Daniel C. Roper, of South Carolina. Third assistant postmaster general,

Alexander M. Dockery, of Missouri. Fourth assistant postmaster general, James I. Blakeslee, of Pennsylvania. Blakeslee is secretary of the Pennsylvania state Democratic committee.

United States judge, district of Porto Rico, Peter J. Hamilton, of Alabama. Commissioner of labor, Charles P. Neill, of the district of Columbia. This is a reappointment.

G. H. Long Writes from Ohio. Editor Reporter :

Please find check herewith which will date my label to January, 1914. Obio is a pretty good state, next to fire was first seen on the attic. the old Keystone. You know we are all Democrats now-can't be helped. You will see us about a neck ahead o Pennsylvania on the prohibition question. Our legislature is now struggling over a license bill, and in a few years we hope to go under the prohibition banner. Hope Billy Sunday will preach his "booze sermons" in the centre of the state with sufficient force to be felt on the north, the east, the south and west borders.

Just say on a Postal Card: "Send me a copy of Stark Year Book for 1913." When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

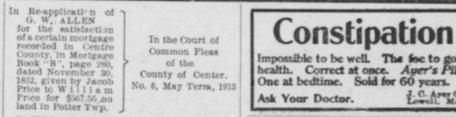

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical easy to understand text book for the guidance of the man who plants trees. Our own experience of nearly 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, spricot, quince, grape and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shade trees will find this book of inestimable value; totally different from the average nurseryman's publi-cations. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.
