### Backache Is aWarning

Thousands suffer kidney ills unawares -not knowing that the backache, headaches, and dull, nervous, dizzy, all tired condition are often due to kidney weakness alone.

Anybody who suffers constantly from backache should suspect the kidneys. Some irregularity of the secretions may give just the needed proof.

Doan's Kidney Pills have been curing backache and sick kidneys for over

fifty years. A South Carolina Case Mrs. Mary West, Spartanburg, S. C., says; "was so run down with my back I couldn't ge about. My appetite became poor and I felt all worn out and discouraged. Doan's Eidney Piliput me is good shape and I now feel better that before in years."

#### GOOD AS INSECTICIDE

Tobacco is Excellent for Use Against Insect Pests.

May Be Used Indoors and in the Open Air With Profitable Results-For Plant Lice It Has Proved Very Effective.

(By H. GARMAN.)

It is not generally recognized as it should be that we have in tobacco a splendid insecticude for use against some of the most troublesome softbodied insect pests. For plant lice it has proved very effective, and being harmles to plants, can often be employed where poisons are out of the question.

A pound and a half of tobacco stems in a wooden bucket with boiling water poured over them and left

A Bench of Lettuce Grown in a Conservatory Watered by Under-Drainage to Prevent rot, and Fumigated With Tobacco Extract-Completely Free From Both Rot and Aphides.

over night, make a good preparation for use about the house on flowers and other ornamentals infested with aphides.

Manufactured tobacco extracts with a known percentage of nicotine are on the market, and are more certain in their effect because of the possibility of making up each time a definite solution. One such extract which contains about three per cent. of nicotine has proved effective as a spray for aphides when used one part in seventy of water. This may be employed instead of the stems against the Grape Phylloxera on the roots of vines, and the wooly aphis on the trunks and roots of apple trees.

Concentrated extracts (40 per cent.) of tobacco have proved especially good for the writer for the destruction of aphides in the conservatory. At times when the whole house was occupied with plants, some of them very tender and others under experiment, such as to preclude the use of a spray, concentrated tobacco extract fumes "Men in youth, or age, or middle have proved most satisfactory in age, will sooner kiss a pretty mouth clearing all plants of the insects. The end should be set in the ground or every dose used by us recently for a section day."-"Wilsam," by S. C. Nethersole. of a house containing 2,296 cubic feet is four fluid ounces of nico-fume and eight ounces of water. Pieces of iron Our high appreciations and even are heated red-hot and with tongs are our expressed desires are not always dropped into the fluid in a large pan indices of our character. "Let me die or kettle. The door is closed and the

A smudge made by burning tobacco right away and joined himself to the stems is often employed by florists as a means of ridding hothouses of plant lice, but has not proved as effective in my hands as the vapor. #### WHITEWASH FOR HEN-HOUSES

Formula Given by Poultry Manager of Central Experiment Station at Ottawa, Canada.

A. G. Gilbert, poultry manager of the Central Experiment Station at Ottawa, Canada, says a durable and lasting whitewash may be made as follows: Put into a water-tight, clean barrel half a bushel of unslaked lime. Shake the lime to a depth of five inches. Stir briskly until slaked. Add two pounds of sulphate of zinc and two pounds of salt dissolved in hot wa-

These ingredients will prevent the wash from cracking or peeling off. It is better to apply the whitewash while hot. If to be used for inside of poultry-house, colony houses or coops, add half an ounce of carbolic acid. To color the whitewash, add yellow ochre, venetian red or any other desired color.

#### Land for Barley.

Rarley should have richer land than have a very strong root growth and needs a good supply of fertility. It is seeded in the spring, as oats are, and yields vary, as do those of all grains. It is harvested with a binder just as grown. wheat, but when wanted for malting there is more danger of discoloration on account of the time that the barley must stand in shock. The feeding value of barley is much the same as that of wheat.

## Whitewash for Houses.

There is a tendency among poultrymen to belittle the old-time advice to drills. Too heavy seeding causes whitewash the interior of the poultry heavy and unnecessary expense in houses, says a writer in an exchange. thinning. it prevents dampness, purifies the table growers could use it to advanplace, kills vermin and makes the tage as a soil improvement crop. houses look neat and inviting.

Oats as Hog Food. Oats as a hog food have never been high just now and this combination very popular for two reasons. First, forms one good reason why farm the price is usually too high; and, work teams should have steady work second, the feeding value is not so on the farm every day when the

Pennsylvania Statlon Finds Silage Good Ration, Economic in Character and Wholesome.

Silage is an excellent ration for horses, economic in character and wholesome in use. The Pennsylvania station gives the results of horse feedin" test where silage was compared with hay and other forage.

"The horse fed silage as a portion of their ration consumed less grain, made their gains at a lesser cost per pound, were sleeker and better finished than those fed on rations not containing silage."

In this test they noted that silage could be fed in amounts varying from five to twenty pounds per day. They recommended silage free from mold and made from corn fairly well matured. They also advised against feeding horses large quantities of heavy work when they are in a heated

condition. The Michigan Experiment Station has been feeding horses for many years on silage and favors its use, especially for horses not at heavy work. In a test made some years ago with seven teams of work horses, one horse of each team was fed hay and grain, while the other received small amounts of hay and grain with about fiften pounds of corn silage. These teams were doing moderate work. The experiment lasted twelve weeks

and the following results were noted: The silage-fed horses showed an average gain of five pounds per head. Besides the increase in body weight the driver noted that the silage fed horses worked fully as well and did not appear to be any softer than those not receiving silage. The silage-fed horses showed a better finish and sleeker coats.

#### GOOD TRELLIS FOR TOMATOES

One Can Be Put Together by Using Discarded Telephone Wires and Few Strong Stakes.

I use one by four inch pieces, plank eight feet long. One end sharpened and driven in the ground, in a perfect straight line. The wires are discarded telephone wires, No. 14 or 15 the size of wire used here. These I can get at junk prices, about 25 cents per 100

two feet as there is considerable strain on it when the tomato vines are laiden with fruit. The method of bracing is shown in the pen sketch. The end stake should also be set deep enough that it will not be pulled out by the weight of the vines and fruit. The wires should be well stapled to the stakes.

The second stake is set five feet from the first one. The others are set ten or twelve feet apart.

Bonny Best tomato is a very desirable early variety.

them.

Don't forget to have a row of sunflowers; the seeds are excellent for poultry. Sow the Queen onion thickly for

picklers. The little white bulbs are very attractive. When short of room, train squash vines on trellises or wire fence; they

are good climbers. For the land's sake and the improvement of the ration grow plenty of

clover and alfalfa. Plan cucumbers in level rows; in dry seasons they do better than when

grown in elevated beds. Nitrogen is gathered from the air by the clover, and deposited in the

soil; a gain in humus results. Fertility, barnyard manure and crop rotation are old subjects, but of vital

import to thousands of farmers. Wire fences grounded at about every fifth post will be practically proof against harm by lightning.

A row of gladioli along the edge usually is given to oats. It does not of the kitchen garden is a thing of beauty and a joy to the farmer's wife. As a general rule the finer the manure and the more evenly distributed the more accessible it is to the crops

> A dipper of very warm water turned over cabbage heads several times during the season, will destroy cabbage worms.

> Clover is the pivot about which a good rotation hinges. Corn is scarcely second in importance. The grains are third. Be careful in the adjustment of seed

Nevertheless, we keep on whitewash - The Soy bean is becoming more poping once or twice a year, and find that utar in northern districts. Many vege-

#### EXCELLENT FOR HORSE FEED UNIQUE CASE OF FILIAL LOVE

To Help His Mother a Penniless Nobleman "Tries" a Clown Act in Paris Theater.

Visitors to Paris who have recently wandered by chance into one of the "cafe concerts," which are mostly frequented by that class who neither toil nor spin, must have been amazed and saddened by a very unusual music hall turn, writes the Paris correspondent of the Brooklyn Eagle. Every night, between the "sentimental tenor" and the "chanteuse legere," a mournful looking young man appears.

He is greeted with derisive yells. He sings, or tries to sing, a sentimental ballad and a comic song. He also imitates animals, the noises of tools and the whistling of locomotives.

The effect is so deplorable that the audience recently insisted on the "noble clown" apelogizing for his lack of silage, especially after coming in from skill. He humbly advanced to the footlights and bowed to right, left and before him. Then in a voice choked with sobs, he began to express his regret. With pathetic resignation he went down on his knees, offered profuse apologies for his lack of skill and promised to do his best to please them in the future.

Few who have seen this lamentable exhibition know its origin and excuse. This abject buffoonery is inspired by one of the noblest movivesfilial love. This descendant of one of the oldest and noblest families in Venice was left alone, when very young. with his infirm and penniless mother. For many years they lived on the charity of friends, but the old woman is now in such health that admission into an almshouse would be the only means of saving her life. But this cannot be obtained without the payment of a certain sum, and her son is now employing the only means of procuring it open to him.

#### BREAKING OUT WOULD ITCH AND BURN

Bellton, Ga .- "Some time ago my feet and ears were frost bitten, which troubled me very much every winter. My ears would turn red and swell, with terrible itching and my heel would crack. I had a severe scalp trouble and also a breaking out on my wrists and hands which would itch and burn until I could not sleep of nights. There was an eruption on my scalp with dandruff. I had to keep my hair clipped close to keep down the irritation and itching. I tried several remedies and cream and two treatments of --- remedies which did me no good. Then I used Cuticura Soap and Ointment and I am now cured of all my troubles," (Signed) S. Echols, Mar. 12, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."

Abridged Bible.

An abridged Bible is being advocated-one that will contain only the vital parts of the great book, and that omits hundreds of pages of matter now not read at all except by students. No doubt such a Bible would become instantly popular, because it would all be interesting and to the point. In this age, none except students will wade through very long books. Everybody wants the truth boiled down to the very shortest space. The great story of the crucifixion is told in very few words, and all the essentials of the Bible for the average person could easily be Try the most promising new var- covered in one-fifth the pages required ieties of vegetables, but don't rely on for the whole work.-Gallipolis Tri-

Women Are Constantly Being Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"Worth mountains of gold," says one woman. Another says, "I would not give Lydia E. Pinkham's Vegetable Compound for all the other medicines for women in the world." Still another writes, "I should like to have the merits of Lydia E. Pinkham's Vegetable Compound thrown on the sky with a searchlight so that all suffering women could read and be convinced that there is a remedy for their ills."

We could fill a newspaper ten times the size of this with such quotations taken from the letters we have received from grateful women whose health has been restored and suffering banished by Lydia E. Pinkham's Vegetable Compound.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such a universal success? Why has it lived and thrived and kept on doing its glorious work among the sick women of the world for more

Simply and surely because of its sterling worth. The reason no other medicine has ever approached its success is plainly and simply because there is no other medicine so good for women's ills. Here are two letters that just came to the writer's desk-only two of thousands, but both tell a comforting story to every suffering woman who will read them-and be guided by them.

MRS. WILLIAMS SAYS:

Elkhart, Ind. - "I suffered for 14

years from organic inflammation, fe-

male weakness, pain and irregulari-

ties. The pains in my sides were increased by walking or standing on

my feet and I had such awful bearing

down feelings, was depressed in spirits and became thin and pale

with dull, heavy eyes. I had six doctors from whom I received only

temporary relief. I decided to give Lydia E. Pinkham's Vegetable Com-

pound a fair trial and also the Sani-

tive Wash. I have now used the

remedies for four months and cannot

express my thanks for what they

FROM MRS. D. H. BROWN.

Iola, Kansas .- "During the Change of Life I was sick for two years. Before I took your medicine I could not bear the weight of my clothes and was bloated very badly. I doc-tored with three doctors but they did me no good. They said nature must have its way. My sister ad-vised me to take Lydia E. Pinkham's Vegetable Compound and I purchased a bottle. Before it was gone the bloating left me and I was not so sore. I continued taking it until I had taken 12 bottles. Now I am stronger than I have been for years and can do all my work, even the washing. Your medicine is worth its weight in gold. I cannot praise it enough. If more women would take your medicine there would be more healthy women. You may use this letter for the good of others."-Mrs. D. H. Brown, 809 North Walnut

have done for me .- Mrs. SADIE WIL-LIAMS, 455 James Street, Elkhart, Indiana.
