**LOCALS.**

Plasterers will begin work on the new Bartholomew building in a few days. For a good reliable cement try Alpha Portland.—R. D. Foreman, Centre Hall.

Misses Isabella Rowe and Cora Luse, students at the Central State Normal School at Lock Haven, are home for the summer vacation.

A little child of Mr. and Mrs. William Stoner, near Centre Hall, is afflicted with scarietina or scarlet fever. The Stoner home is quarantined.

A baby boy was born to Mr. and Mrs. Jerome Wilkins, at Old Fort, Tuesday morning. Mr. Wilkins assists George Eshart in conducting the Bradford farm.

Mrs. Ashbridge Thomas, of Potters Mills, and Miss Ruth Royer, of Altoona, were reporter callers Tuesday. Miss Royer is a niece of Mrs. Harry C. Shirk, of Centre Hall.

Papers for the merging of the Huntington & Clearfield, the Cambria and Indiana County Telephone companies, have been filed at Harrisburg. The three companies, it is understood, will be operated under a new system that will have its headquarters in Clearfield.

John C. Bailey, who for the past six months had been in the employ of J. H. Weber as bookkeeper and salesman, has accepted a position in Philadelphia as cashier and bookkeeper in a large restaurant, and on Tuesday morning left for the City of Brotherly Love.

A special dispensation permitted the Masonic lodge at Huntingdon to confer the three degrees the Blue Lodge is capable of giving, upon Philip Orlandy, in one evening. Following the ceremonies the young man's father, Superior Court Judge George B. Orlandy, gave a banquet at which one hundred and thirty-five covers were laid.

The new St. Luke's Reformed church of Pleasant Unity, Rev. S. H. Dietzel, Ph. D., pastor, will be dedicated next Sunday. The Rev. Lewis Robb, D. D., of Wilkensburg, will preach the sermon. The edifice is a brick structure, with all modern conveniences and appointments, and through good management the pastor will be able to dedicate free of debt.

Calvin Horner is in the Blair county jail serving a three months' sentence for shooting at a man named John McClain, who, Horner claims, was too intimate with his wife. Horner was arrested several weeks ago and held for felonious assault, and when court convened he plead guilty. He is a son of Mrs. Catharine Horner, west of Centre Hall, and was engaged in the restaurant business in Altoona for several years.

W. T. Royer, of Tyrone, was in Centre Hall Tuesday, the guest of his aunt, Mrs. Rebecca Scholl, and his cousin, Mrs. S. S. Kreamer, at the Kreamer home. Mr. Royer is employed in the repair shops of the Pennsylvania Railroad at Tyrone, and his work is to put into condition locomotives which on account of wrecks or other accidents, have been disabled. He is also a member of the P. K. B. band, and it was in the interest of that organization that he came to Centre Hall. He had an interview with Hon. L. Rhone relative to having this band appear at the Grange Encampment and Fair in September. It is composed of forty-five members and considered one of the finest in this part of the state. Mr. Royer also was a printer in his younger days, and he paid his respects to the Reporter, for which on several occasions he composed type, fifteen or more years ago.

**Corner Stone Laying.**

The corner stone of the new Lutheran church at Gatesburg was laid last Sunday, and was attended with very impressive ceremonies. The pastor, Rev. L. S. Spangler, was assisted by Dr. C. T. Aikens, of Sellingsgrove. The contents of the stone consists of old coins, a testament, a list of the church officers, a list of the building committee, a county paper, and a copy of the Sunday-school lesson leaf.

The structure will be of brick and is designed on the plan of the new Lutheran church at Pine Hall. All the funds necessary for its erection are available and the work will be hastened to its completion.

The old church, which was built about forty-four years ago, was partly destroyed by fire several years ago, and instead of repairing the old structure, the building of a new temple of worship was decided upon.

**WOODEN CANNON.**

Crude but Effective Weapons Wound With Strips of Rawhide. Any one familiar with the construction of modern weapons of warfare and the high explosives used in them would naturally suppose a cannon made of wood would be of little or no value as a weapon.

Wooden cannons have been used with considerable success nevertheless in recent revolutions in Cuba, in Haiti and in the Dominican Republic.

The wood used in the construction of these crude weapons is a very tough variety, having a twisted grain that curls about the log in such a way that to split the timber with the ordinary means is almost impossible.

The best trees are selected, and a piece of the log five or six feet in length and about one foot in diameter is cut. After the bark has been removed and the log made perfectly round it is swung up on a crude truck, and a hole is burned into it from one end. The log is wound with strips of rawhide cut from the skin of a steer.

When the cannon is covered with the strips of hide another layer is wound on, and this is continued until the weapon has increased several inches in diameter.

After the log is covered and the bore is finished the weapon is treated to a hot draft, which tends to contract the hide binding, which becomes almost as strong as wire.

These crude cannons have been used with successful results in a number of instances, and it is astonishing the number of times they may be fired before they burst or become otherwise disabled.

**RAVENOUS ESKIMOS.**

They Eat and Digest Food That Would Kill an Ordinary Man. We hear much of American dyspepsia, but there is one native race of America that is certainly not troubled in this respect.

The Eskimo defies all the laws of hygiene and thrives. He eats until he is satisfied, but is said never to be satisfied while a shred of his feast remains unconsumed. His capacity is limited by the supply and by that only.

The Eskimo cannot make any mistake about the manner of cooking his food, since, as a rule, he does not cook it. Nor, so far as the blubber or fat of the arctic animal is concerned, is the Eskimo concerned about his manner of eating it.

Indeed, he may be said not to eat it at all. He cuts it into long strips an inch wide and an inch thick and then lowers the strip down his throat as one might lower a rope into a well.

Despite all this the Eskimo does not suffer from indigestion. He can make a good meal of the flesh and skin of the walrus, provision so hard and gritty that in cutting up the animal the knife must be continually sharpened.

The teeth of a little Eskimo child will, it is said by those in a position to know, meet in a bit of walrus skin as the teeth of an American child would meet in the flesh of an apple, although the hide of the walrus is from half an inch to an inch in thickness and bears considerable resemblance to the hide of an elephant.

The Eskimo child will bite it and digest it and never know what dyspepsia means.—Harper's Weekly.
