

Lutheran Minister Becomes Banquet Wednesday Evening—Church Wedding, and Very Pretty.

Rev. Frederick William Barry and Miss Anna Mary Mitterling were united in marriage on Wednesday evening at 6 o'clock in the Lutheran church, Centre Hall, where the groom is the pastor and the bride a member of the congregation. The ceremony was pretty and impressive, the recent improvements in the auditorium of the church adding to convenience and fitness for such a ceremony.

After the assembling of the guests, and promptly at the appointed time, the officiating minister, Dr. W. E. Fischer of Shamokin appeared on the altar platform and the decorations of white, gold and green. The first of the wedding party to pass through the column of ushers was the ring-bearer, Carrie Mitterling, sister of the bride, who entered on the right side of the auditorium and passed up the aisle on that side, taking her place on the right of the chancel platform. The groom was led to the altar by Rev. Jacob Diehl, pastor of the First Lutheran church in Lock Haven, through the left aisle. The maid of honor, Miss Laura Mitterling, also a sister of the bride, led the way for the bride and her father, who passed up the right aisle onto the chancel. The bride took a position immediately in front of the waiting minister, and to the right of the groom. "Who giveth this woman to thee man?" were the first words of Dr. Fischer in performing the ceremony, and at their sound the wedding march being played by Misses Berte and Olive Barry, sisters of the groom, ceased. After the ceremony the wedding party went to the home of the bride, Mr. and Mrs. William J. Mitterling, where a reception was held.

The bride was dressed in white satin, and looked very pretty.

The ushers were Messrs. Cleveland Mitterling, Henry Mitterling, W. J. Smith, and John Ciddron.

There were many gifts presented to the bride. The reception was a most delightful affair.

HOLDEN PLANS TO PUT ALFALFA ON EVERY FARM

Plan to Unite All Interests in Nation-Wide Campaign for the General Growing of Alfalfa.

Extension Department to Aid Any Community Interested in Conducting Campaign to Encourage the Growing of Alfalfa—No More Difficult to Grow Than Clover and Gives Double the Yield.

Alfalfa Automobile Trains Important Feature of the Work—Schedules to Be Arranged and Meetings to Be Held at Farm Homes—Prominent Speakers to Accompany Each Alfalfa Train—Alfalfa Organizations Will Be Formed in Each Community to Promote the Work—Field Men Experienced in Alfalfa Growing Will Follow Up Preliminary Work Wherever Possible and Give Aid in Getting a Start—Prof. P. G. Holden, Director Extension Department, International Harvester Company of New Jersey, Chicago, Will Direct the Work.

The campaign will be conducted in co-operation with farmers' institutes, bankers, business men, farmers, commercial clubs, granges, live stock and dairy associations and other organizations in any community where the people are anxious to improve their agricultural conditions and are willing to give time and money to carry on the work.

County and city superintendents of schools, colleges, institute workers, Chautauqua lecturers, and others interested in the work will be assisted in obtaining alfalfa charts and lantern slides. Alfalfa literature and booklets will be given wide distribution throughout the country. Special alfalfa articles will be sent to farm journals and magazines, and plate and matrix pages to newspapers. Alfalfa editions of newspapers will be published where campaigns are conducted. Dates will be arranged for "Alfalfa Day" in the schools.

To Begin Campaign Work in East, West and South.

Work to be started immediately in the cotton belt states and in the east and west. Thirty to forty meetings will be held in each county, the number depending on local conditions.

To accomplish the most in agricultural development, we must begin with the man behind the crop. Upon him depends the final working out of the principles of agriculture—the simple and practical things—which our schools, colleges and experiment stations are endeavoring to bring into general use.

Professor Holden proposes to carry these principles further even than the very effective work done on the agricultural trains, by using that modern vehicle—the automobile—going directly to the people on their own farms where the meetings are to be held.

Agricultural development needs in addition to the work of our public institutions, the individual efforts of every merchant, banker, corporation, or laboring man, and this plan calls for the most hearty co-operation.

This plan for increasing the yields of our crops by the more extensive growing of that wonderful soil improver, ALFALFA, is meeting the approval of all men who have any knowledge of the beneficial results of its introduction as a general crop.

Campaigns are now being conducted in many of the central western states, and Professor Holden is daily answering requests for his assistance in organizing other localities, and invites cordial co-operation with every community interested.

Where campaigns are contemplated it is required, first, that a request be made to the Agricultural Extension Department for assistance in carrying on the campaign.

What the local people will provide:

- Expenses (meals and lodging) for the alfalfa speakers and staff upon their arrival and during the campaign.
- From ten to twenty automobiles for each day of the campaign to carry the alfalfa crew and invited guests; one auto truck to carry literature, baggage, charts, and other equipment.
- Arrange for meeting places and publish schedule of same.
- Local advertising.
- Photographer, if possible.

The Agricultural Extension Department will provide:

- Advance men to assist in organization work.
- Lecturers.
- Literature.
- Special educational articles for newspapers and farm journals pertinent to alfalfa culture, object of campaign, etc.
- Field men to follow up the preliminary work and aid the people in any community where sufficient interest is shown to warrant it.
