"The trouble is," said Mrs. Catt, "that many women cannot be domestic; they have no homes. The word 'domestic,' therefore, should' not be used, as is too often the case, in a loose way.

The suffrage leader smiled.

"Yes," she continued, "some people give this word as elastic a meaning as the witness gave it in a Georgia court. Asked why he was not present to testify in a certain case, the man said he had had a 'domestic trouble' just about that time.

"'What was the domestic trouble, pray?' asked the examining attorney. 'Well, to tell the truth, boss,' said the witness, 'I was in the penitentiary for stealin' a cow.'"

FACE COVERED WITH PIMPLES

214 Brevard St., Tampa, Fla-"Some three years ago I commenced to suffer from a rash on my face and back. Before the pimples came on my face there were a lot of blackheads. It looked as if the blackheads turned into pimples because after a little while all of them were gone and my face was covered with pimples. They were small at first but gradually grew and right at the end of each pimple it was all white. I carelessly picked them with my finger nails, which made them spread, and I soon discovered them on my back. My back was covered with pimples and my face the same way. At night I could hardly sleep on account of the burning and itching sensation they weeds; but its success is almost en- caused. I did not like to go out be-

A FOOD DRINK

Which Brings Daily Enjoyment.

A lady doctor writes:

Though busy hourly with my own affairs, I will not deny myself the pleasure of taking a few minutes to tell of my enjoyment daily obtained from my morning cup of Postum. It is a food beverage, not an irritant like coffee.

"I began to use Postum 8 years ago, not because I wanted to, but because coffee, which I dearly loved, made my nights long, weary periods to be dreaded and unfitting me for business during the day.

"On advice of a friend, I first tried Postum, making it carefully as suggested on the package. As I had always used 'cream and no sugar.' mixed my Postum so. It looked good. was clear and fragrant, and it was a pleasure to see the cream color it as my Kentucky friend wanted her coffee to look-'like a new saddle.'

"Then I tasted it critically, for I had tried many 'substitutes' for coffee. I was pleased, yes, satisfied with my Postum in taste and effect, and am yet, being a constant user of it all these I continually assure my friends years. and acquaintances that they will like it in place of coffee, and receive benefit from its use. During the dry weather we gave the plants a drink every evening, soaking the ground well each time. The tips of the leaves were shorn

off again about two weeks after the first shearing.

In doing this there is always danger of injuring the plants unless one is very careful. If too many of the leaves are cut off the plants will be stunted and thereby rendered worthless.

All Can Keep Bees.

It requires no more intelligence and skill to raise bees than to keep poultry. It requires a certain amount of work and at the right time, yet this in no sense equals the attention given poultry. But for some reason few farmers have bees. If it is lack of knowledge that keeps them from it, then the excuse is easily overcome, for there are many bee journals and books that would give the desired information. If it be fear of bee stings these may be prevented by certain appliances. Surely no one should be kept from the enjoyment of honey beslowly because the fat globules are cause of cost. The bees and the necessary equipment need not cost much.
