

# DOCTORS DID NOT HELP HER

But Lydia E. Pinkham's Vegetable Compound Restored Mrs. LeClear's Health— Her Own Statement.

Detroit, Mich.—“I am glad to discover a remedy that relieves me from my suffering and pains. For two years I suffered bearing down pains and got all run down. I was under a nervous strain and could not sleep at night. I went to doctors here in the city but they did not do me any good.”

“Seeing Lydia E. Pinkham's Vegetable Compound advertised, I tried it. My health improved wonderfully and I am now quite well again. No woman suffering from female ills will regret it if she takes this medicine.”—Mrs. JAMES G. LECLEAR, 386 Hunt St., Detroit, Mich.

Philadelphia, Pa.—“Lydia E. Pinkham's Vegetable Compound is all you claim it to be. About two or three days before my periods I would get bad backaches, then pains in right and left sides, and my head would ache. I called the doctor and he said I had organic inflammation. I went to him for a while but did not get well so I took Lydia E. Pinkham's Vegetable Compound. After taking two bottles I was relieved and finally my troubles left me. I married and have two little girls. I have had no return of the old troubles.”—Mrs. CHAS. BOELL, 2650 S. Chadwick St., Phila., Pa.

**What Doctor Can Beat This?** In less than three months a physician of Portland, Me., has treated professionally five patients representing five successive generations of the same family, beginning with a centenarian and following in the direct line of descent down to her great-grandson. He first attended the old lady, who was ninety-nine years old, for senile gangrene resulting in her death. During her illness he was called on to prescribe for her daughter, aged seventy-five. Next this daughter's son, a florist, aged fifty, fell ill and required attention. Following him, a son, a clerk of twenty-seven, found himself in need of medical aid. And lastly to the clerk's wife was born a male child, whom the doctor was called upon to assist into the world, as he had been summoned to ease the great-grandmother's exit from it barely three months before.

## DON'TS FOR FOOTBALL

Player Should Not Get Discouraged Early in the Season.

Most Young Players and Many Older Ones Forget That They Have Two Arms—Many Fumbles Caused by Carrying Ball Loosely.

The following don'ts for football players were compiled by a writer in the St. Paul Pioneer Press. Absorb them, you mole skimmers: Don't become discouraged if you are not chosen for the so-called “first team” early in the season. There is no first or second team at the start. By plugging away and working hard you will be selected as a “regular” just as soon as the coach considers you prepared to hold down such a position.

Don't loaf in practice; it's a bad habit to get into and a hard one to get away from. Take the work seriously or not at all.

Don't tell your coach how the game should be played. He is supposed to know it and will do all of the instructing.

Don't forget to read the rules. Most players neglect to do so and are often “sore” when penalized for committing a foul. Ignorance of the rules causes more penalties than anything else.

Don't forget that you have two arms. Most young players, and many older ones, neglect to use the loose arm when carrying the ball. The “stiff arm” is the greatest defense a player has, and its use will often add several yards if manipulated properly. Ward off the tackler, at the same time throwing your own body aside so as not to lose your stride or overbalance yourself.

Don't carry the ball loosely. Many fumbles are caused by improper carrying. One end of the ball should be tucked into the pocket formed by the banded arm and body and the hand should be spread over the other end of the ball. With the ball thus firmly held the other arm is free to use for protection.

Don't be afraid to fall on the ball whenever it is loose on the ground during play. The average player disregards this rule with disastrous results. A little practice will enable one to fall on the ball in such a way as to eliminate injuries.

Don't “chew the rag” during the game. Remember that your captain is chosen to lead the team and is the only one who is permitted to talk. There are 22 players and if all take time to talk many valuable minutes are wasted.

Don't dispute decisions of the officials. They are selected to enforce the rules and their work is hard enough without additional troubles. It does no good to dispute decisions—let the captain do the conferring or arguing where there is a misunderstanding. The officials are not in a position to see everything that you see and they can see lots of things you can't see.

Don't waste time, when on the grid-iron, picking out friends on the side lines or in the stands. Your whole mind should be on the game itself.

Don't be afraid to tackle hard when you have a chance. The player who is afraid stands more chance of being injured than one who is fearless. Hit your man hard and low and hold him—don't let him slip or twist away.

Don't forget to keep your eyes on the ball. Always know where the oval is. This will prevent penalties for starting ahead of the ball, for off-side play, and will often prevent opponents from gaining on tricks and passes. Sometimes by keeping the eyes glued on the ball touchdowns are also prevented.

## CUBANS WITNESS BIG SERIES

Party of Fans, Headed by President of Almendares Baseball Club, See Giants and Athletics.

Cuban “fans” were among the first to arrive here to see the world's baseball championship series. The leader of the party is Eley Martinez, president of the Almendares baseball club of Havana, and with him were three special correspondents representing Havana and provincial newspapers as well as a few plain “fans.”

Although professional baseball in Cuba is really only about two years old, Senor Martinez said that three baseball clubs were now fully established in the city of Havana and tremendous interest in the game and developed, not only from a local standpoint, but also toward the games in the United States.

“Of course the national language of baseball is American slang,” said Senor Martinez, “and we use the same terms in describing points of the game. A fly is a fly, and a strike a strike.”

“However, our people have not all caught on to the pronunciation of some of the words in vogue, and you might not recognize what a ‘hillos’ is. It is the nearest some get to pronouncing a ‘hit.’ The umpire calls ‘one ball’ and not ‘uno bola.’ When there is a dispute over a decision there is apt to be a medley of languages. In the games with the American teams we have one American umpire and the other is a Cuban.”

“There are several Cuban players who have been doing well in this country on the big league teams. For instance, there is Marsans, of the Cincinnati's, who is the manager of the Almendares. We call him the ‘Cuban Ty Cobb’ and are very proud of him. He ranks second in stealing bases among the big professionals. Then there are two Cubans on the Washington team, Calvo and Acosta, who play ball at home in the winter.”

## DID DRAW THE LINE AT THAT

After All, There Was Something the Victorious Insurgents Would Not Be Guilty Of.

The successful revolutionist (for that month) leaned back in his chair. “While you correspondents have been reasonably accurate in your accounts,” he remarked, “you have overlooked some of our good points. We acknowledge capturing the insurgent general, starving him a week, beating him regularly, cutting off his ears and finally banishing him, but—”

He paused that the force of the remark might be fully felt.

They would heal a little and then they would get worse than ever again. They were very painful.
