

REVIEW OF FOOTBALL

One Upset After Another Startles Followers of Game.

Victory of Army Over Navy Climax of Season of Gridiron Surprises—How Teams Will Shape Up for Games This Fall.

With the Army beating the Navy at the Polo grounds, another surprise for the football season, when the game ended, was registered. The midshipmen, with their brilliant record in the early season games, were the favorites, but they were toppled over as Dartmouth was at the Brush stadium when a favorite over the Indians.

These two surprises were as startling to many football followers as the showing earlier in the season by Colgate, and the showing the Tigers made against Harvard, which many thought would have an easy time disposing of the Orange and Black.

Then came the Cornell-Pennsylvania game, in which the Ithacans gave the average follower of the sport a jolt when they triumphed over the Quakers, gaining their second victory over the Red and Blue in the long series.

The Indians paraded through the season with a good record, and there are some who claim they are entitled to football honors in the east, but this is the honor Harvard men are claiming for the Crimson. Dartmouth, too, would have been out with a claim to that intangible astern title had the Green beaten the Indians. This was the only Dartmouth defeat of the season.

Gridiron dopesters, now that they can get no more surprises for a year in football, are figuring how the big teams will shape up next fall. Princeton and Harvard will be better off, so far as veteran material is concerned,

Captain Storer of Harvard.

than Yale. They will lose only three men by graduation in June. Yale, on the other hand, will lose six men in June.

Captain Storer, O'Brien and Hitchcock will leave Harvard on graduation day. As these men played on the line, the star Crimson back field of Brickley, Mahan, Bradley and Logan will be left intact. The graduation of Captain Storer and Hitchcock will leave the two tackle positions vacant, and there are no substitutes who have won their letters in this position. Only three substitutes who have won their "H" will be graduated.

Captain Hobe Baker, Phillips and Emmons will be the men lost to Princeton by graduation, and while their loss will be greatly felt by the Tigers the coaches have some good material in the substitutes and from the freshman eleven to fill their places. Harvard may have to shift its line to fill the holes due to the graduation of Storer and Hitchcock, unless this year's freshman tackles show up well. Yale will lose Captain Ketcham, Pendleton, Marting, Warren, Avery and Ainsworth, played on the line. Macleish, Hubbard, Arnold, Brann and Way won their letter this year as substitutes in the line, and the coaches believe that they can be made into a strong set of forwards. Talbot and Carter will be the only regulars left in Blue's line.

The back field will have plenty of material. Ainsworth will be the only man to be graduated, leaving Knowles, Wilson and Guernsey in their old positions. This trio will be reinforced by several strong men from last year's team who were unable to play this fall, including Pumpelly and Markle. Wheeler, last year's quarter back, will be the only substitute back field player to be graduated.

Offers \$10,000 for Player.

Del Howard, former manager of the Louisville team, and now manager of the San Francisco team, announces that he stands ready to give the Chicago National league team \$10,000 for the immediate return of Outfielder Johnny Johnson, drafted by the Cubs last September. Howard is, of course, safe in his offer, inasmuch as it would be practically impossible to get Johnson, who now holds the world's record for stolen bases in a single season, out of the major leagues.

INTERCOLLEGIATE HOCKEY CHAMPIONS

Yale's Star Hockey Players.

From all accounts Yale is going to play an important part again in intercollegiate hockey this coming season. A \$100,000 ice rink has been constructed at New Haven. The opening of the hockey season finds the Yale team, the crack players of the winter sport, who by defeating Harvard last year, won the championship honors, in fine shape.

Front row, left to right: Dickey, McDonald, Odeway, Captain Heron, Gore.

Middle row, left to right: S. Coe, H. Sproul, M. Herron, W. H. Sweeney, Schiller.

Back row, left to right: Coach Howard, Mudge, P. Swift, F. H. Bangs, M. W. Gans, Jr.

SKATERS TO DECIDE HONORS

World's Championship Will Be Settled in Meet at Milwaukee in March—Many to Compete.

The first amateur and professional roller skating speed championship races ever held in the history of roller skating will be run off in the River-view skating palace, Milwaukee, during the latter part of March, 1914. Julian T. Fitzgerald, president of the Western Skating association, who has been promoting the event for the past 20 months, is the general manager of the meet.

Roller rinks throughout the United States were after the event, including those at St. Louis, Kansas City, Charleston, W. Va., Detroit, Buffalo and Cincinnati. The meet was awarded to Manager Joseph W. Munch of the Milwaukee rink for \$1,000. In April, 1912, a movement was started to raise money by popular subscription for the meet and to help defray the expenses of the amateur champions from the different states.

First prize for the amateur championship is a silver loving cup. Second, third, fourth and fifth prizes will be gold, silver and bronze medals. The winner of the professional championship will be awarded a diamond medal. Other prizes will be gold, silver and bronze medals. In addition, the professionals will race for a purse of \$500.

The champion skaters of England and France arrived in American a short time ago. It is estimated that at least 300 amateur and professional skaters will compete, making the event the first real championship meet ever held in this or any other country.

Hughy Jennings announces that the Tigers will start to train at Gulfport about February 5.

Manager Red Dooin believes that the 1914 pennant race will be one of the toughest in National league history.

Georgetown is to be on the schedule of either Harvard or the Army next season—at least, Georgetown thinks so.

Harvard's varsity football players will be asked to refrain from writing signed articles for the newspapers next season.

Frank Chance has worked together a pretty fair club that it is believed will cut quite a figure in the 1914 pennant race.

Not one of England's five classic races for three-year-olds this season went to a favorite. The Oaks, at 8 to 1, was the lowest odds against one of the winners.

Tracery is coming in for all sorts of praise from the English papers, the Field particularly pointing out the remarkable achievements of August Belmont's horse.

If Howard Jones declines to serve again at the head of the Yale gridiron warriors, it is a certainty that the position will be offered to Frank Hinkey, the famous shadow end. Hinkey has for several seasons assisted the head coaches.

AFTER FRANK GOTCH'S CROWN

Effort Being Made to Get Zbyszko, Polish Wrestler, to Take Part in Elimination Matches.

Zbyszko, the Polish wrestler, who has been competing in an open tournament in Paris, has been offered one of the largest guarantees ever made to a wrestler other than a world's champion to return to America to

Zbyszko, Polish Wrestler.

take part in elimination matches planned by a Boston promoter.

Foreign stars now here include Gustaf Fristonsky, the Bohemian heavyweight; Ivan Mamutof, a member of the Czar of Russia bodyguard, and Alex Aberg, the Finland champion. So, with Zbyszko and Mahmoud, the Bulgarian, these men constitute the most prominent of the contenders for the crown held by Champion Frank Gotch, who has retired.

ANTIPODEAN HITS BASEBALL

Australian Cricketer Severely Criticizes American Game—Associated With Spirit of Bluffing.

Baseball as played in America is severely criticized by a member of the Australian cricket team which recently toured the United States and Canada.

A Sydney paper containing an interview with the cricketer on the return of the team to Australia has just been received here.

"Candidly," the Australian athlete is quoted, "I don't like baseball as played in America. Baseball in Australia is a fine game, played in the spirit of our cricket. But that spirit is not known in American baseball, which is a professional game and, associated with bluffing of a character foreign to the Australian and English ideas of sport."

"There is, of course, money in it, but if baseball is ever to become a big game here it will need to be divorced from the spirit which pervades its American atmosphere."

Growing Jealous of Baseball.

Joseph Lally, of the Canadian amateur Athletic union, will endeavor to have special lacrosse sticks manufactured for the use of school children which will in the future do away with the cry that baseball was superseding the Canadian national summer game because it was so much cheaper to buy baseball bats than lacrosse sticks. He will donate 13 medals for the championship team of any organized school district in Canada.

Chesbro Seeking Job.

Jack Chesbro, the man who invented the spit ball and the man who lost the American league championship for the Highlanders by a wild pitch, is again knocking at the door of baseball for a berth. He wants to become a manager. He has applied to the Federal league for a job.

SEES DYNAMITE IN JURY ROOM

Jurors Flee When Explosive Is Discovered in Witness' Pocket

BUSINESS WAS STOPPED

Officer Forces Alex Burz to Throw Explosive Into the Susquehanna River—Carried as Evidence Against Brother.

Wilkesbarre.—Alex Burz, a councilman in Swoyersville Borough, entered the Grand Jury room at the court house with sticks of dynamite in his coat pockets. When members of the jury beheld the explosives they fled in terror and refused to go on with any business until the dynamite was removed. As Burz bumped against a heavy swinging door, one of the jurors discovered the explosive. He announced his discovery while on the run and the other jurors were quickly at his heels in a frantic effort to get out of the room. District Attorney John H. Bigelow was the only person to remain. An officer was called and Burz was taken to the Susquehanna River, where he was forced to throw the dynamite into the stream. Burz was a witness in a dynamiting case against his brother. The Burz home was dynamited a few weeks ago and the explosives Burz carried were sticks that were found about the home after the explosion.

Hatmaker's Will Valid.

Reading.—Judge Bushong handed down an opinion in Orphans' Court, in which he sustains the will of Colonel Edgar W. Alexander, a hat manufacturer, which has been contested by his daughter, Mrs. Nettie I. E. Moyer, wife of a banker, because of a clause which bequeathed to her only \$1,000. In practically disinheriting his daughter, Colonel Alexander accused her of "unnatural conduct" toward him. Under the will a number of employees in his hat manufacturing plant are rewarded for faithful services. He left an estate of \$350,000, most of which will eventually go to local charitable institutions.

Burglars Get Fine Wine.

Wynnewood.—Burglars in an advanced state of intoxication stole about \$2,000 worth of silverware from the home of Dr. Dudley Morton, at Wynnewood, and, on the same night, entered the house of H. L. Schwartz, not far away, but could get nothing there except something more to drink and something to eat. Captain Donaghy, of the Lower Merion police, made the facts about the robberies public. He has been working on them since they occurred.

Church Crumbles in Snow.

Lock Haven.—The Methodist Church at Island, near here, collapsed under the weight of snow that had piled up on it during the day. The brick building and furniture are a total wreck, as the heavy roof smashed everything. Because of the almost impassable roads services for the evening had, fortunately, been abandoned. All that remains of the structure are two front corners and a portion of the rear wall.

Mine Cave Wrecks Mill.

Scranton.—Three hundred girls were thrown out of employment when a mine cave settling occurred underneath the boiler plant of the Scranton Throwing Company, where the girls were employed. The employees had first started to work when a fireman discovered that the building was sinking. The fire under the boilers were put out, and the girls left the building without panic.

To Jail for Threats.

York.—With his heavy four-in-hand necktie as a noose, Paul Welmer, arrested for threatening the life of Patrolman Hertz with a loaded revolver, attempted suicide by hanging to the bars of his cell in City Hall. The timely entry of Patrolman W. H. Myers into the cellroom prevented the suicide. Welmer received a sentence of 60 days in jail.

Will Rewards Daughter.

Norristown.—Because she was a good nurse and housekeeper, and a great comfort to him, Dr. James G. Mensch, one of the best-known physicians of the Perkiomen region, willed to his daughter, Katie M. Mensch, the privilege of buying for \$7,000 the homestead, contents and drug store in Pennsburg. The rest of his estate is divided among children and grandchildren.

Deadlock on Solicitor.

Coatesville.—Coatesville Council is deadlocked over the selection of a Borough Solicitor. The candidates nominated are: A. M. Holding, of West Chester; William Tregay and W. E. Greenwood, Coatesville.

Buy Cattle Range.

Allentown.—In order to demonstrate his determination to show that the best way to make a living and grow wealthy is from the soil, Colonel Henry C. Trexler, the Quartermaster General of Pennsylvania, has purchased two more large farms in North Whitehall township, adjoining his game park, for a cattle range. Colonel Trexler has long been a student of the cattle and beef problem, and for several years has been the only farmer in Lehigh who has produced beef for slaughtering.

SNOW REALLY A BLESSING

Denver Newspaper Rejoices at the Remarkable Fall of "the Beautiful" Throughout the State.

It has been said before. Let it be said again. The snow that you swept from your walks, that sifted down your collars, that got into your hair, your eyes, your temples, is worth a million dollars to the agriculturists of Colorado. To the dry farmer who plows it into his soil it will bring rewards in a next year's bank account. Lying in the mountains it will flow down the ditches to the irrigators next season. On ranch and orchard and truck garden it means moisture and money. To the city it means health that always comes from reasonable weather. Wade through it with a smile on your lips, shovel it with some in your heart, roll it into balls and throw at your neighbor with a laugh and a cheery word. It spells temporary inconvenience and future prosperity—and a white Christmas for the public tree that brought all Denver—all Colorado—into that new, better, greater, get-together bond of friendship and work.—Denver Times.

No Cure for Cancer Yet.

In his annual report Dr. E. F. Bashford, general superintendent of research in the laboratories of the imperial cancer research fund told the members of the society that during the past year there had been 12 claims to the discovery of a cure for cancer. All of these had been investigated and no justification for any one of these claims had been obtained. Dr. Bashford also said women were more liable to cancer than men. In England and Wales in 1910 the death rate from cancer was 856 per 1,000,000 for men and 1,070 for women.

As the London Times says editorially in commenting upon this report: "The only reasonable expectation of curing cancer still rests upon its complete removal by the surgeon at the earliest possible time after it is discovered."—Medical Record.

Helping the Editor.

Wright—It seems to be getting harder work for the newspaper man all the time.

Penman—Oh, I don't know about that. I see that ball-bearing scissors have been patented by an Ohio inventor.

Adventures of a Guide.

"What did that hunter shoot while he was up here?" "Me and a deer, both by accident."

In 1912 more than 2,000 miles of railway were constructed in British Columbia.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood, and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Send 31 one-cent stamps for Dr. Pierce's Common Sense Medical Adviser—1008 pages—worth \$2. Always handy in case of family illness.

Address Dr. PIERCE, Buffalo, N. Y.
