His letter contained a set of resolutions introduced in the Pittsburg Chamber of Commerce and Pittsburg Board of Trade, and the printing of a few sections will give the reader an idea of the sentiment among a great many people in that section of country.

The one supports the other. The political revolution of 1912 promises to repeat itself in 1914. The local political elections of 1913 took many of the independent voters back to their old parties, but there promises to be the same independence in the next Gubernatorial and U. S. Theback-bone of the bose-ridden political parties must be broken if the people are to have a square deal.

A report from Washington that bears evidence of credibility says that President Wilson will veto the immigration bill unless the literacy test is stricken out. This would be the proper excutive action, for it is plain to all intelligent persons that to exclude immigrants who cannot read and write would cause more harm than good by keeping out the class of workers that are needed. These immigrants perform labor that Americans refuse to do, and as there is a growing demand for laborers on the rough work, a curtailment of the supply would have a serious effect on indus-
