# LAYING OUT A GARDEN NOTES OF THE POULTRY YARD

ERRONEOUS IDEA THAT MUCH TIME IS REQUIRED.

Plot 150 by 100 Feet Will Produce Enough Fruit and Vegetables for Family of Six-Run the Rows North and South.

(By E. PARKER.) side to this question of a garden. Beef, for instance, in its various forms | Hatch all you can of them. is notoriously expensive, especially where it is eaten twice or three times | not throw away the eggs unless they a day, whereas beans, peas, spinach, are cold. If you have another broody etc., when served with meat would hen, put her on the nest. She will make up half the amount eaten, thus finish the hatching, and it will save reducing the cash cost of the whole. her just so much time, as well as sav-And the impression that a vegetable ing the eggs. garden requires much time and care is such an erroneous one! Two or drink. It is very good for them, as three hours a week will suffice for a well as for the older fowls. The more garden 150 by 100 feet, which is cap- milk your poultry drink, the less meat able of producing fruit and vegetables it will be necessary to feed them. enough for a family of six, provided the rows are three feet apart so that flock. Much better results are oba horse may be used.

In laying out such a garden the is the results that count. rows should be run north and south, If you want the pullets to mature for planted thus vegetables receive early, and begin laying at five or six the greatest amount of sun. The first | months old, feed them properly and four rows should be six feet apart, and well from the start. Give them a the first of these might contain twelve properly balanced ration, and crowd currant and twelve gooseberry bushes set six feet apart. In the second row plant a hundred raspberry canes three feet apart, with two canes at each place. The third row will be for strawberries and will hold 150 plants grown in hills set one foot apart, no runners being allowed to grow. The next thirteen rows will be three feet apart and may be planted to the following vegetables in the order given: Asparagus plants, 50 one-year seedlings, set three feet apart in the row: parsnips, 50 feet; then a hundred feet of onions, of which 25 feet may be young sets for early summer; beets and lettuce, 50 feet; early cabbage, a hundred feet; late cabbage, a hundred feet; cauliflower, 50 feet; peas, three full rows, corn, four full rows; tomatoes, a hundred feet; beans, 50 feet; okra, ten feet; then 50 feet more of string beans and 150 feet of dwarf lima beans. The remaining four rows should be eight feet apart to allow the vines to spread. In the first row plant 25 muskmelons six feet apart then a row of cucumbers set six feet apart, five eggplants and ten early squash, all six feet apart. The next row may be planted to eight Hubbard squash and twelve rhubarb plants, set six feet apart, and the last two rows may very properly be given over to herbs and flowers for cutting.

great many people abroad, notably the eight to ten months, before getting drawers of water and hewers of wood, any returns. live almost entirely on vegetables, con- Hasten the growth of young cock- them. I have told my wife that when sidering meat a luxury only to be in- erels, by feeding them all they will I die I want her to put on my tombdulged in once a week, while we in eat. Keep them fat enough for the America, having the most delicious table all the time, and they will reach and greatest variety of vegetables the required weight for the market grown anywhere, discard them for much sooner. It is the earlier marmeat.

### RAISING BEST DAIRY BREEDS

No More Profitable Line of Stock Growing Than Raising Good Cows for the Dairymen.

Any farmer is safe in breeding and and the eggs. raising for sale large milking or butter-producing cows. As an industry duction only there is no need for keepthere is no more profitable line of ing any males. It costs about \$1 to stock growing than raising good cows feed each one, and their room might and selling them to the dairymen who better be given to that many more are making a specialty of producing hens. market milk or selling their milk to

A Good Milk Producer.

condensing plants where they do not have the by-product returned to their farms to feed out to the calves that are being raised to replace the cows that are annually discarded from their herds.

The keeping of more cows for creameries and cheese factories is also encouraging and many men are willing to pay a good price for wellb.sd dairy cows.

### SUNLIGHT AS DISINFECTANT tery white and the shell is apt to be

Most Disease Germs Are Killed by Direct Light, as Repeated Tests Have Demonstrated.

(By H. PRESTON HOSKINS.) cheapest disinfectants at our disposal, shell and sound grains in the ration and we should take advantage of this fed to laying hens, eggs with firm fact at every opportunity. In the con-shells, rich in protein and delicately struction of barns or shelters of any flavored are sure to result, providing kind for animals, ample provision of course, that the flock is given clean should be made for the admission of nests and runs and is kept free from the maximum amount of sunlight mites. Southern exposure is desirable, that is, having the majority of the windows facing the south. The warmth thus provided in cold weather is desirable, raisers would be living in the lap of and much of the excessive heat in luxury. The time will come when summer can be avoided by providing there will be no more excuse for hog suitable curtains or screens. Most dis- cholera than for human cholera that ease germs are easily killed by direct until a century or so ago periodically sunlight, as has been repeatedly shown devastated Europe and America. Both

Whitewash Improves Looks of House and Is Good Disinfectant-Give Turkeys Free Range.

(By MRS. A. J. WILDER.) Lime is a very good thing to use about the poultry houses. An occasional coat of white-wash on walls and on the nest boxes greatly improves the looks of the house, besides being a good disinfectant and vermin killer.

Pullets hatched in April or the first There is an important economical of May, make late fall and winter layers, and they are the ones that pay.

If a sitting hen leaves the nest, do

Give the little chicks skim milk to

Do not keep too many hens in one tained from the smaller flocks, and it

A Nice Sunny Yard for the Chickens Is Necessary.

them as fast as you can. There is It is frequently forgotten that a no need having to feed pullets from

kets that pay the best prices. Don't make the mistake of thinking you can half feed your hens and make a success of the poultry business. The wants of the hen's body comes first. If there is any surplus it goes into the eggs. Where there is no surplus there are no eggs. It is your business to provide enough food for the body

If you are keeping hens for egg-pro-

Turkeys must have free range in order to do well. Do not keep them closely confined. If you have fed them regularly, they will continue to come up at that time for their feed, even if allowed to run free.

## PRODUCTION OF GOOD EGGS

Wisconsin Expert Emphasizes Importance of Clean, Whole Food-Keep Nests Clean.

Just because an egg is freshly laid by an apparently healthy hen it can not be assumed that it is a good egg. according to James G. Halpin of the College of Agriculture of the University of Wisconsin, who emphasizes the need of clean, wholesome food for the production of first-class eggs. Hens that are forced to obtain the greater portion of their living as scavengers and given a poor range to work on cannot produce eggs of as good quality as can a flock which regularly is fed a good ration.

Eggs lacking in protein have a wathin owing to the partial absence of lime. Such eggs, besides being of less value as food, are more than likely to bring forth puny chickens of low vitality, subject to white diarrhea and an early death. With proper quanti-Sunlight is one of the best and ties of wheat, bran, clover, oyster

"What do you mean?" "I've got a jumping toothache."

### BLOTCHES COVERED LIMBS

19 Roach St., Atlanta, Ga.-"A few months ago I had some kind of skin eruption that spread until my limbs and feet were covered with blotches and watery blisters. It looked like eczema. When the trouble reached my neck and face I was almost driven frantic. It itched and stung so intensely that I could not sleep or wear any clothing on the affected parts. After two months I commenced to use Cuticura Soap and Ointment and after two days I noticed improvement and in six days the trouble left. My skin was fair and smooth again and the eruption never returned.

"My cousin was a sufferer from pimples, known as acne, on his face and seemed to grow worse all the time. I recommended Cuticura Soap and Ointment to him and now his face is smooth for the first time in three years and he owes it all to Cuticura Soap and Ointment." (Signed) Wal-

ter Battle, Oct. 7, 1912. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."-Adv.

Admits She is Fat.

Stella Mayhew is fat-just plain fat. This is the term she herself applies to her avoirdupois, without trying to disguise it as "plump" or "stout." And she doesn't mind joking with herself about it.

On a certain occasion she was letting her audience into a few of her

"I have tried everything recommended to reduce," she admitted, "but I keep on getting fatter. Why, there isn't a thing I read about, guaranteed to take off flesh, that I don't try."

the second row, who had made herself conspicuous by several remarks during Miss Mayhew's talk, inquired: "Did you ever try poison?"-St. Louis Post-Dispatch.

At this pause a woman seated in

Overworked.

The papers are publishing stories of Dr. Weir Mitchell. This is one of the best of them:

One day a patient came into his office and found him closing a bundle of letters. "All resignations from committees or boards," he said, gleefully. "I'm going to get off all stone, 'Committeed to the grave!' "

Town Feuds. Church-You don't have family

feuds here, I suppose? Gotham-Don't we? Why, say, a family across the street got a phonograph, and the people next door to them started their two boys taking lessons on the fiddle.
