GET AFTER SUMMER PESTS
This is the Time to Wage War Against the Deadly Fly and the Annoying Mosquito.

Let us bear in mind that one of the prime objects of a spring cleanup is to eliminate the fly and the mosquito. When we are exercising our muscles and our ingenuity ridding our dwellings and neighborhoods of dust and filth, it will be worth our while to give these twin winged pests serious attention.

The first spring fly, of course, came some time ago, though she is still pleasantly modest and retiring. It is not reassuring, however, to reflect that the little insect is keeping carefully out of our sight and the reach of our swatters while she lays a few myriads of eggs, which presently will hatch out into a whole flying regiment of nuisances and disease-carriers.

The shy and unobtrusive mosquito is making the best use of her time for the same purpose. When the open season on human beings arrives she hopes to have a whole army corps of her progeny to lead to the attack.

Now is the time to get busy if we want to preserve ourselves from the pests a few months hence. The water and the kerosene can be fully as important household implements at this season as the broom and the scrubbing brush.

Watchful Waiting.

Old Man—What are snigs?
Sonny—I don't know. I ain't never caught any yet.

HER MOTHER-IN-LAW
Proved a Wise, Good Friend.
A young woman out in Ia. found a wise, good friend in her mother-in-law, jokes notwithstanding. She writes:
"I was greatly troubled with my stomach, complexion was blotchy and yellow. After meals I often suffered sharp pains and would have to lie down. My mother often told me it was the coffee I drank at meals. But when I'd quit coffee I'd have a severe headache."

"While visiting my mother-in-law I remarked that she always made such good coffee, and asked her to tell me how. She laughed and told me it was easy to make good 'coffee' when you use Postum.
"I began to use Postum as soon as I got home, and now we have the same good 'coffee' (Postum) every day, and I have no more trouble. Indigestion is a thing of the past, and my complexion has cleared up beautifully."
"My grandmother suffered a great deal with her stomach. Her doctor told her to leave off coffee. She then took tea but that was just as bad.
"She finally was induced to try Postum which she has used for over a year. She traveled during the winter over the greater part of Iowa, visiting, something she had not been able to do for years. She says she owes her present good health to Postum."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.
Postum now comes in two forms:
Regular Postum—must be well boiled, 15c and 25c packages.
Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 20c and 50c tins.
The cost per cup of both kinds is about the same.
"There's a Reason" for Postum.

RINGWORM ITCHED TERRIBLY

1545 Aisquith St., Baltimore, Md.—
"My children were afflicted with what they called ringworm of the scalp contracted from a house-cat they were playing with. The ringworm formed on their scalps about the size of a silver dollar and their hair fell out, leaving a round scale or crust on their scalps. Their hair fell out in round spots. There was terrible itching, and they scratched till the blood came. They were very fretful and could not sleep at night, and they were very cross."

"They were treated for several months with no improvement whatsoever. I was told they would never have any hair and would always be bald. Then I began using Cuticura Soap in connection with Cuticura Ointment and the first week I could see the wonderful remedies were doing all they were claimed to do and in six weeks' time they were entirely cured. They all have a beautiful growth of hair." (Signed) Mrs. Sadie Pollock, Jan. 1, 1913.
Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 22-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Oldest Welshman.
The oldest Welshman in the world is Mr. Thomas Morris, who lives at Westernville, Neb. Although he is now an American citizen, he was born a subject of George III, at the little village of Berriew, Montgomeryshire, on January 15, 1794. He is therefore one hundred and twenty years old.

His father was an agricultural laborer and died when the boy was three years old. Morris was apprenticed to a cobbler and followed his trade in this country until 1871, when, at the age of seventy-seven, he emigrated to America.
The old man is very proud of the fact that he has lived in three centuries. He remembers the union of Great Britain and Ireland, the assassination of President Lincoln and the laying of the first Atlantic cable.
Morris can still walk, with the aid of a stick and see with the aid of spectacles, which he first purchased after passing his hundredth birthday. His hearing is good, and he enjoys a cup of tea or coffee with each meal.—Daily Express.

Dog Mothers Kittens.
"Mike," a rat terrier owned by William Bailey of Georgetown, was discovered yesterday mothering a pair of kittens he had stolen from the home of a neighbor. "Mike" had gone to the house, picked the kittens up by the neck, and carried them to his own home, where he was discovered playing with them and making them comfortable in every way. When the two kittens were returned to their mother "Mike" was inconsolable, and has since refused to eat.—Georgetown (Del.) Dispatch to the Philadelphia Inquirer.

A Pre-Established Harmony.
"Mr. Brown's started his garden. I saw him planting his seeds this morning."
"That reminds me; it's time I turned the chickens loose."

Natural Consequence.
"The wind is rising."
"That's because it is from the East."

AND THEN THEY UNDERSTOOD

Locomotive Engineer Made Quite Plain What Had Caused Argument Between Travelers.

Two commercial travelers while in a train got into an argument over the action of the vacuum brake.
"It's the inflation of the tube that stops the train," declared the first traveler.
"Wrong, wrong!" shouted the second. "It's the output of the exhaustion."
Then when the train arrived at the station they agreed to submit the matter for settlement to the engineer. That gentleman, leaning condescendingly from his cab, listened with an attentive frown to the two travelers' statements of their argument. Then he smiled, shook his head and said:
"Well, gents, ye're both wrong about the workin' of the vacuum brakes. Yet it's very simple and easy to understand. When we want to stop the train we just turn this valve and then we fill the pipe with vacuum!"

"Hard Luck" Story.
A Washington clubman is firmly convinced that the fates are against him, especially with reference to his golf playing.
"It's no use," he said to a friend, "I can't lift the hoodoo." Nine times out of ten I miss the ball when driving off from the first tee at the Country club. And every one of those nine times I look around and find the veranda lined with people, all staring at me with eyes the size of porcelain plaques on a plate rail. The tenth time, however, I hit the ball; I knock it to a speck. Then I turn proudly around, my chest swelling with pride. And there's not a single soul on the veranda. Everybody has just gone in."

The Sweet Thing.
