Red clover in many fields in the Valleys is in head and the crop threatens to be a short one. The grass has not attained the growth which the much needed rain would have given it.

THE DEMOCRATIC STATE PLATFORM.

Document Clear-cut in Denouncing Penroselism and Bi-partisan Evils.

The leading editorial in the Philadelphia Ledger on Friday morning is reprinted below in full:

There is no uncertainty in the Democratic State platform respecting the policies and achievements of the national Administration or in State issues. There is strong dissent from the confidence it expresses in the wisdom of the Federal legislation and presidential guidance, but there can be no doubt whatever that on State issues the Democrats have fairly stated problems confronting the Commonwealth and have outlined a program of action which is endorsed by hundreds of thousands of thoughtful and conscientious citizens and which the Republicans cannot afford to ignore.

Voters nowadays do not greatly overrate the importance of political platforms. These documents are too often drawn solely with the object of making friends and avoiding aggressive opposition, with the result that they are ambiguous in phraseology and uncertain in meaning. That indictment, however, cannot be drawn against the Democratic platform. Its clear-cut denunciation of Penroselism and the bi-partisan evils that are the inevitable result of Penroselism, its positive declaration for reform in legislative procedure, and especially in the method of appropriations, its promise to revise the State's system of taxation, to favor local option legislation, the reorganization of the State Highway Department on a non-political basis, its support of the referendum on the woman suffrage question and various progressive measures for industrial amelioration, are admirable statements of important issues upon which the people will be called upon to pass and of the remedies which in the main have commended themselves to the best thought of the State.

What is of greater importance, however, is the character of the men who will stand upon the platform. The Democrats in Pennsylvania have some chance of success this year and it is gratifying that the Democratic ticket is headed by men of ability, in whom the public has confidence. Whatever the differences on broad economic policy between those standard bearers of the Democracy and the people of this normally Republican State, there is a certainty that their policies, in the event of their success, will be applied with patriotic sincerity.

Everybody welcome at the big lot sale. Free band concert, 1914 touring car given away.

Why So Many Graduates Fail.

President Sparks of State College, in an address delivered at the commencement of Franklin and Marshall Academy, stated that recently he had sent out 700 letters to business firms asking what proportion of college graduates failed in business, and the reason for such failures. An analysis of the answers showed that such failures are not due to a lack of knowledge on the part of the college men, but to indifferent habits and an unwillingness to begin at the bottom of the ladder.

He advocated hard, consistent work on the part of students, contending that for one boy or girl injured by overstudy a half dozen others are injured by late hours, improper meals and bad habits.

Dr. Sparks deprecated the fact that so many girls are willing to endanger health, life and even virtue in factories rather than to find good homes in private families, because they want to be "employees" and not "servants."

Convention of Threshermen and Farmers.

"Centre County Threshermen and Farmers' Protective Association" will meet in convention in the court house at 10 a. m., on Wednesday, June 17th.
