GREAT NAVAL FLEETS MAKE WARLIKE MOVES

All Are on the Alert for the Opening of Hostilities-The Final Efforts to Avert a Conflict.

hope of averting a general European guns have been placed in position.

First, Russia and Austria are en gaged again in direct negotiations. Second, both Great Britain and France are using their utmost en-

deavors in favor of peace. On the other hand, Russia has ordered a general mobilization and Germany has declared a state of siege, which is undoubtedly a prelude to, if it does not cover, mobilization.

France has not yet mobilized, but at Cabinet councils, issued decrees establishing a moratorium and taking other action which could only be determined upon the eve of war. Unofficially the French army is being virtually mobilized.

Great Britain is practically, though not officially, mobilized, and the smaller European States, as a precaution, have ordered the mobilization of their armies-Belgium, Holland and Switzerland to protect their territory from being used as a highway for the belligerents; Norway, Sweden and Denmark to guard themselves on general principles.

A Significant Move.

The withdrawal of three famous German yachts from the Cowes regatta is significant. They include the Emperor's Meteor and Krupp's Germania. All the countries involved in the war

have prohibited the export of many products, and all the stock exchanges in England and Scotland are closed. The European state banks have raised their rates, and the Bank of England rate has been doubled.

A Rome dispatch to the Exchange Telegraph Company says the Italian government learns that Germany will ask Russia and France to cease their military operations forthwith.

Might Be Captured.

There is much interest and speculation here over the fate of the North Head, Md. German Lloyd steamer Kron Prinzessin Cecilie in event of war being declared before her arrival at Bremen. The vessel sailed from New York last Tuesday, carrying a large amount of Artillery And Infantry To Man Forts, specie, and is due to touch at Plymouth and Cherbourg.

It is presumed here that in the event of war she might elect to return way of the North of Scotland.

Reprieve Angers a Murderer.

An unusual scene was enacted at Versailles (France) jail recently, when the public prosecutor went to inform two murderers that their death sentence had been commuted to penal servitude for life.

One, Joseph Brugen, received the news joyfully, but the other, Louis Louis, exclaimed: "What, you asked the jury for my head, and now you come to tourture me by a reprieve? I do not want it; I must have liberty or the guillotine. I won't go to the galleys at any price."

So saying he rushed upon the public prosecutor, seized him by the throat and endeavored to strangle him. The keeper had great difficulty in releasing the official and putting the convict in a strait jacket.
