

Too Dangerous to Overlook

Kidney trouble is too often overlooked and too often neglected. But the kidneys give early signals of distress that should not be mistaken. Backache, headaches, dizzy spells, rheumatic pains, too frequent, scanty or painful urination are all signs of kidney weakness and should not be mistaken.

When these warnings appear, use Doan's Kidney Pills, the reliable, successful, strongly recommended kidney remedy. Help the medicine by drinking water freely, hold to good habits and a serious attack of kidney disease may be avoided. Public testimony is the best proof of merit.

A Virginia Case.

Mrs. J. B. Briscoe, 115 Prince St., Alexandria, Va., says: "I had dizzy spells and the sensations from my kidneys were in a bad shape. When I lay down, my back ached so badly I couldn't sleep. Mornings I was sore and lame and I was in a most frantic with nervousness. After doan's Kidney Pills rid me all these troubles."

The W. L. Douglas shoes are always worth what you pay for them.

An Optimist. Ex-Police Commissioner Rhineland Waldo, who established a policemen's public library that has been a great success, praised, at a luncheon in New York, New York's police system.

"It has especially been good since Mayor Gaynor's day," Mr. Waldo said and then, in response to an objection: "Oh, that's nothing. Be an optimist. Don't mind trifles. Look like the henpecked husband, on the bright side of things."

"By gosh," a henpecked husband said, "I hear some chaps kicking because their wives always have the last word. Now, for my part, to give my wife the last word never bothers me a bit."

"It don't!" "No, on the contrary, I always feel thankful when she gets to it."

The Follow-Up Method. "Why do you get the pretty girls jobs first? Is that fair?" "Best for all concerned," declared the head of the school of stenography. "The pretty girl soon marries her employer, and then there's a permanent job for one of the plainer young ladies."

Overwork drives almost as many people to nervous prostration as over rest does. Poverty is no disgrace, but wealth can't always say as much.

FOOD FACTS What An M. D. Learned. A prominent Georgia physician went through a food experience which he makes public.

"It was my own experience that first led me to advocate Grape-Nuts food and I also know, from having prescribed it to convalescents and other weak patients, that the food is a wonderful builder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and sick patients gain rapidly, just as I did in strength and weight."

"I was in such a low state that I had to give up my work entirely, and went to the mountains of this state, but two months there did not improve me; in fact, I was not quite as well as when I left home."

"My food did not sustain me and it became plain that I must change. Then I began to use Grape-Nuts food and in two weeks I could walk a mile without fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life."

"As a physician who needs to help all sufferers, I consider it a duty to make these facts public." Name given by Postum Co., Battle Creek, Mich.

"Trial 10 days of Grape-Nuts, when regular food does not seem to sustain the body, works wonders. 'There's a Reason.' Look in pkgs. for the famous little book, 'The Road to Wellville.' Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

The Psychology of It. Stuyvesant Ogden, a San Francisco millionaire, said in Washington the other day:

"The present business depression—in, indeed, there be a business depression—is psychological. There is, I mean, no smallest excuse for it. It is born of the nightmare fears of men's minds. In a word, it reminds me of a music hall girl."

"The stage manager of a music hall rushed to the proprietor the other night and said:

"Turn 14 refuses to go on with her trained mice. She says she's been completely unnerved ever since that young student was eaten in Chicago."

GOODYEAR TIRES AT ANTE-BELLUM PRICES. The Goodyear Tire & Rubber Co. announce "No war prices on Goodyear Tires." Mr. F. A. Sieberling, president of the company, thus explains their unique position.

"We advanced Goodyear prices, as others did theirs, when the rubber panic came. Almost in a day crude rubber rose in New York from 55 cents per pound to much over a dollar."

"The New York supply was too small to consider. We called our London people to buy up the pick of the rubber there. By acting quickly and paying cash they obtained 1,500,000 pounds of the finest rubber."

"That big supply of rubber is now nearly all on the way to the Goodyear factory in Akron. It constitutes the best of the London supply."

"We are using the same grade of rubber and the same amount of it as we always have used in these tires."

"We are running our factory with three shifts of men, twenty-four hours a day. So long as we remain in this fortunate position on rubber, we shall supply tire users at before-war prices to the limit of our capacity."

RASH ON CHILD'S HEAD. 2127 Division St., Baltimore, Md.—"The trouble on my child's face and head appeared as a rash and then it got so that the skin looked drawn and water and blood would run out. That would cause a scab and her head and face were a mass of sores. They would crack and bleed and then her head began to get scaly and I thought it was dandruff. I started to take the scab off and found her head was a mass of them. When she would cry it seemed worse because the water would stream down her face and itch and she would dig and scratch. Her little head was bald as it was so sore that all the hair came out. My baby would cry at night and I could not sleep."

"Then I decided to get Cuticura Soap and Ointment. I would make a lather of the Cuticura Soap but her face and head were so sore I hated to touch them so I would take a soft cloth and wash her head. After I dried it with a soft towel I would gently apply the Cuticura Ointment. With the first treatment I could see a change in my baby and before I used the whole treatment she was completely healed and her skin is beautiful." (Signed) Mrs. Lillie Owens, Jan. 31, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Rare Minerals in Tasmania. The number of rare minerals found to exist in Tasmania is constantly being added to, and the latest addition is molybdenite, which is used in the manufacture of "molybdenum steel," to which it gives a special hardness and toughness that makes it suitable for use in propeller shafts, guns and boilers. It is also used, to lesser extent, in the making of pottery glass and other things. The price of molybdenite is now \$2.50 a ton, or nearly four times the present price of tin.
