The voters of the 21st Congressional district want to send a man to congress who will support President Wilson at all times and that man is W. E. Tobias of Clearfield county. No Penrose aid is wanted this time. Vote for Tobias.

The Pennsylvania Railroad Company and other corporations have Congressmen enough at Washington who will do their bidding without asking the voters of the 21st district to send one of their representatives and stockholders to help make the laws to govern all the people. Vote for W. E. Tobias, who will honestly represent the district and the interests of every man alive.

TUESDAY, PINCHOT DAY.

Washington Candidate for United States Senator Chief Attraction Beginning of Week on Grange Pa. k.

Monday and Tuesday forenoon were devoted almost exclusively to the arrangement and rearrangement of exhibits in the horticultural building, and the exhibitors of implements, wares, etc., were putting the last finishing touches to their exhibit quarters and adjusting machinery. The outlets, too, took advantage of the time to arrange every detail so that on the great days, Wednesday and Thursday, business and nothing else would need their attention.

A little after ten o'clock Tuesday morning Hon. Gifford Pinchot put in an appearance, preceded by the Boalsburg Boal band. With the distinguished gentlemen were Hon. Theodore Davis Boal, who entertained Mr. Pinchot and party the night before at his country home on the outskirts of Boalsburg, Dr. Locke, the Washington party's county chairman, Mr. Mouthrop of Dubois, candidate for congress; Mr. Mayo, candidate for U. S. Senator, and a representative of the North American. Mrs. Pinchot, a bride of a few weeks, also accompanied the party and seemed to greatly enjoy the outing. At the Park headquarters an informal reception was given the candidates and their companions. This occupied the time until the noon hour, when the party was entertained at luncheon by the general manager of the Grange Encampment and Fair, Hon. Leonard Rhone. Mrs. Pinchot sat to the right of Mr. Rhone, and Mr. Pinchot to the right of Miss Florence Rhone. Surrounding the table were men of all political faiths, and women who believed they should have the privilege to vote, consequently politics was not a question discussed.

The meeting in the auditorium was turned over by Mr. Rhone to Dr. Locke, who paid an earnest tribute to him. The chairman then introduced Mr. Mouthrop, the Washington party candidate for congress. Another speaker was Mr. Mayo, candidate for state senator. The chief speaker was Mr. Pinchot, who declared that the big thing to be done in Pennsylvania is the elimination of Penrose and his supporters from Pennsylvania politics. The speaker asked his audience whether it was a good thing for Penrose and Tener to put Bigelow at the head of the highway department, a department whose overhead charges each year are \$500,000.

Speaking of Mr. Brumbaugh Mr. Pinchot said:

"I want your help for Vance C. McCormick. Can you trust a man to stand against Penrose after the election who before the election is afraid to disown him? Mr. Brumbaugh is afraid to take a stand against Penrose. There is not a corrupt corporation, not a crooked, corrupt politician who does not stand for Penrose."

DIXON'S HEALTH TALK.

Conservation vs. Destruction Commissioner's subject for This Week.

The involvement of the larger portion of the civilized world in warfare the frightful destruction of human life due to modern arms and the vastness of the operations has focused the attention of our entire Nation upon the events occurring across the seas and has cast a gloom over the minds of all thinking men.

Within a generation phenomenal strides have been made toward the conservation of mankind throughout the world. We have begun to learn how to preserve the weak and protect the strong from disease. Already the efforts along these lines have resulted in enormous economic savings and have made possible gigantic monuments to the constructive ability of mankind such as the Panama Canal.

When the great Nations of the world are sending the flower of their manhood to destruction it is almost natural to feel that efforts to conserve life are ephemeral. However, when the work of destruction has ceased the work of re-building must begin. The economic struggle for existence will be keener than ever before in the history of the world and the conservation of the health of the peoples struggling to recuperate will be a still greater factor in their efforts to regain their physical and economic equilibrium.

As a nation we are in a unique and important position; to maintain which we will need sound bodies and sane minds.

Let us continue with redoubled vigor the work of improving individual and public health.
