Second Politician—Well, ye see, it's like this. You don't pay nothin' to nobody and the government pays it for ye.  
First Politician—Well, that sounds a bit of all right, don't it—London Punch.

#### The British Hussars.

The Seventh Queen's Own Hussars formed from dragoons in 1807 was the regiment in which the duke of Connaught served to learn cavalry service, after being in the rifles and artillery. His son, Prince Arthur, and also the Prince Alexander of Teck began their military career in the same regiment.

#### A Word from the Weary.

"You seem inclined to favor criticism of the railroads."  
"Yes," replied the weary statesman; "I'm tired of having them criticize my motives. Let 'em criticize somebody's locomotives."

Of course, there isn't any sense in getting mad when the home team loses, but who cares anything about sense at such a time?

### DESCRIPTION WAS ALL RIGHT

Not Just What Jones Was Looking for, But Brown Surely Had Told the Truth.

As Brown landed on the platform he ran full butt into Jones.

"Where bound, Jones, and why such speed?" queried Brown.

"Just off to Seashell-on-the-Mud, and am anxious to get some fruit before I start."

"Fruit? Just the thing! Now she's just off; jump in that carriage. I left a fine pear in the corner."

Jones got in and started searching around.

"My friend said he left a fine pear in the corner," explained Jones, as an old lady sniffed angrily at the way he searched round her.

"Guess he meant that corner, my man," she snapped.

Jones looked and saw a young couple blushing furiously.

#### Better Name.

The dog was a curious creature with a short body and long dangling ears. The newsboy owner was proud, however, as he held it in leash.

"What kindo purp is it?" asked an acquaintance.

"Dachshunt," replied the newsie.

"That's what I said."  
"Dash nothing," the other contemptuously retorted, "it looks more like a hyphen."—Youngstown Telegram.

### WILL BE EXPENDED WISELY

Statement Showing How the Proceeds of Sale of Red Cross Seals Are to Be Spent.

For the benefit of the numerous organizations who helped to sell nearly forty-five million Red Cross seals last year and for the general public, the American Red Cross and the National Association for the Study and Prevention of Tuberculosis have framed a definition of anti-tuberculosis work showing how the proceeds from these holiday stickers are to be used. The definition limits the expenditure of money only for the year ending April 30, 1915.

The definition was framed at a recent meeting of the National Association for the Study and Prevention of Tuberculosis and states that the term "anti-tuberculosis work" as it relates to the expenditure of Red Cross seal money shall include the following activities:

1. The construction of hospitals or sanatoria for the care of the tuberculous.

2. The maintenance of the tuberculous.

3. The provision of day or night camps for the tuberculous; the provision and maintenance of dispensaries, visiting nurses, open air schools, fresh air classes, or preventoria for the care or treatment of tuberculous cases or for the prevention of the spread of tuberculosis.

4. The maintenance of educational or legislative activities which have for their object the prevention of infection with tuberculosis.

#### Her Memory All Right.

Mrs. Geddes had a new maid, and she found it necessary to repeat her instructions several times before Nora obeyed them. The mistress had told her repeatedly about the finger-bowls, and one day, when there were guests they were again forgotten.

"Now Nora," said Mrs. Geddes, extremely exercised over the omission, "this is the sixth time I've had to tell you about the finger-bowls. Didn't the woman you last worked for have them on the table?"

"No, mum," replied Nora, "her friends always washed their hands before they cum."

Its Tendency.  
"Mayme has a very open countenance, hasn't she?"

"Yes, and one that is very hard to shut up."

Both Affected.  
"Singing in the grand opera expands the chest."

"Yes. The chest and the head."

### Inventor of the Airbrake.

Who really invented the airbrake? Certainly the automatic airbrake, the one that has proved practicable and of permanent value in modern railroad-ing, was the product of the late George Westinghouse's ingenuity. His patent for the automatic brake was taken out in 1872, superseding the non-automatic or "straight" Westinghouse airbrake patented in 1869, and later the Westinghouse vacuum brake was invented. But, as in the case of most other inventions, there are several claimants for originality in this field. Thus, Mme. M. Drouanet, daughter of M. Debruges of Paris, claims the distinction of priority for her father. The New York Times has a letter from State Senator William P. Fiero of White Plains containing a patent office declaration by his grandfather, Henry Miller, of a "new and useful improvement in the application of steam and compressed air to the purpose of operating railroad brakes," recorded January 2, 1855. Mr. Miller was doubtless a pioneer in the progress of air-brake invention.

#### The Bridal Trousseau.

The old idea of providing brides with a score or more of gowns, wraps and hats has quite gone by. Even the fashionable trousseau of today contains no more than a dozen gowns, if as many. Styles change so fast that by fall the gowns for the June wedding, necessarily made some weeks before the ceremony, begin to look odd. Some authority has declared that the best dressed woman in Paris buys no more than three new toilets each year, but the opinion may be ventured that she is altering her last year's supply most of the time. The vast assortments of lingerie have also dwindled. Nobody provides such a multitudinous wedding outfit nowadays as used to be required.—Leslie's.

#### It Ought To.

"What are you going to call the new baby?"

"Reginald Claude," replied Mr. Bligine.

"Isn't Reginald Claude a rather affected name?"

"Yes, I want him to grow up to be a fighter, and I fancy that Reginald Claude will start something every time he goes to a new school."—London Opinion.

Proven.  
"Her father thinks a great deal of you."

"Huh! He refused me her hand in marriage."

"That proves it."

A harp and crown await the man who lives up to his wife's expectations.

## FARMER'S WIFE TOO ILL TO WORK

A Weak, Nervous Sufferer Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Kasota, Minn. — "I am glad to say that Lydia E. Pinkham's Vegetable Compound has done more for me than anything else, and I had the best physician here. I was so weak and nervous that I could not do my work and suffered with pains low down in my right side for a year or more. I took Lydia E. Pinkham's Vegetable Compound, and now I feel like a different person. I believe there is nothing like Lydia E. Pinkham's Vegetable Compound for weak women and young girls, and I would be glad if I could influence anyone to try the medicine, for I know it will do all much more than it is claimed to do." — Mrs. CLARA FRANKS, R. F. D. No. 1, Maplecrest Farm, Kasota, Minn.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

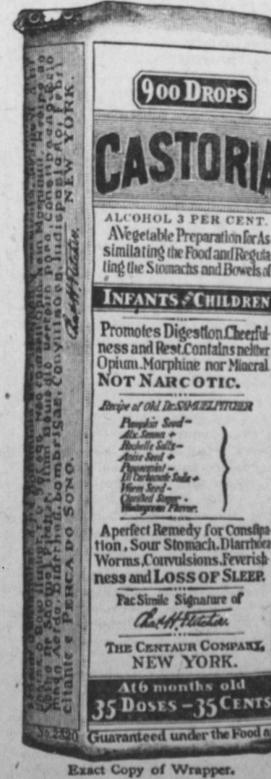

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless; *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food; *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
