Forest Ocker of Mifflinburg moved his family to this place on last Saturday.

NEWS OF 1880.

Notes Taken From Files of The Centre Reporter of Thirty-four Years Ago.

September 23rd-John Boozer and Wm. L. Kuriz are delegates of the Y. M. C. A. of Centre Hall, to the state Mrs. Samuel Kiester, son and convention of the association at Wilkesbarre.

The seventh annual picnic of the Patrons of Husbandry of Centre county was held on the mountain above Mr. and Mrs. Blaine Pensyl and Centre Hall, on last Thursday. The daughter Marjory of Altoona are spend. crowd was very large and was made up ing a few weeks among relatives in of families from every part of the Penns Valley. For a few days this county and from some adjoining week they were entertained at the counties. Four bands were present: home of their cousin, John D. Lucas, The Pleasant Gap band, the Millheim band, the well-known Zion band, and the Pine Hall band. There were nineteen booths for selling refreshments and all made money. The speakers for the day were Rev. J. Keller Miller, David Wilson, senator Alexander, and Seth Yocum. It was nearly dark before the crowd left the mountair. Good order prevailed. Everybody was there; everybody had enough to eat; plenty of music; plenty of ladies; and general good cheer all around.

Died-On September 15, near Penn Hall, Jacob Bitner, aged sixty years and nine months.

#### Martz-Williams.

DIXON'S WEEKLY HEALTH TALKS.

Commissioner of Health Says Imperfect Fyes of School Children Are a Heavy Bandicap in chocl Work.

In all of our schools there are children, who to use the small boy's expression are "blind in one eye and can't see out of the other." Unfortunately often the children themselves are not aware of it nor are their parents and teachers.

Near sighted children struggle to see the blackboard from their benches in the rear of the school room and far sighted children in the front rows endeavor in vain to get distinctly the imagine on the board immediately before them.

Childr n with an astigmatism in one or both eyes are made unaccountably nervous and irritable by the constant demands upon their imperfect vision. Persistent headsches are often caused by such imperfections. Of three hundred thousand chil-

dren inspected in the rural schools of Pennsylvania over 82,000 were found to have defects of sight which no effor had been made to correct. Nothing is more irritating or trying to the nerves than the continual strain resulting from the effort to see through imperfect eyes. To the growing child whose brain is endeavoring to grasp new facts and solve new problems it is often times an insurmountable barrier. There are bundreds of "dull' children who could be cared by properly fitted glasses. Unfortunately man parents hesitate to have small children wear glasses on account of appearances or for other equally foolisb reasons. They fall to realize that of en the wearing of glasses for a few years is sufficient to correct a visual error which left uncared for would continue for a lifetime.
