No Time Has Been Fixed For the Transfer Of Control Of Vera Cruz To the Mexican Authorities.

Washington, D. C .- Official announcement that the American troops would not be withdrawn from Vera Cruz before October 11 and that no time had been fixed for the transfer of control of that port to Mexican authorities was accepted as meaning that General Funston's forces will not be ordered home until the Carranza-Villa break has been settled and order re stored in the republic.

It was pointed out that if the troops were withdrawn before the trouble between the Constitutionalist factions had been adjusted the action would be interpreted as an indication of favoritism toward the party to which the port of Vera Cruz was surrendered.

Officials said, however, that it was highly probable several detachments Withdraws \$3,000,000 From Reported Divisions in His Army would be withdrawn from Vera Cruz within the next two weeks, leaving a sufficient force to remain as long as the circumstances warranted. PLANS PROBE OF LABOR PROBLEMS

The Rockefeller Foundation Starts Investigation.

Deliberately Attempting To Grapple With the Most Complicated Question Of Modern Times."-Canadian In Charge.

New York .- "For the well being of mankind throughout the world," as they characterized it, the trustees of the Rockefeller Foundation announced inauguration of an investigation into the problem of industrial relations and the appointment of Hon. W. L. Mackenzie King, former minister of labor for Canada as its director.

In method the investigation is to be carried on after the manner of the Institute for Medical Research. The root of the social disorder, which the foundation acknowledges exists today, is, it is stated, to be probed to the bottom, systematically and scientifically. It will be sought to disclose the cause of the "bitter enmities and destructive tendencies" between capital and labor and to "find means of promoting harmonious, united action between the two great bodies."

In announcing the investigation the foundation says:

"In facing the problem the Rockefeller Foundation is deliberately attempting to grapple with what it believes to be the most complicated and at the same time most urgent question of modern times, and it is for this reason that the investigation has been started.
