

WILLIAM H. PATTERSON

To many of the citizens in Centre county, William H. Patterson, candidate for state senate from the thirty-fourth district of Pennsylvania, is a comparative stranger. His grandfather, Capt James Patterson, several generations removed, who settled at Conestoga Manor, in Lancaster county, in 1715, was also the grandfather of the descendants of Gen. James Potter, Hon. Andrew Gregg, Roland Curtin and Governor Curtin. His grandfather, Capt. John Harris, of Millintown, also several generations removed, was also the grandfather of the descendants of James Harris, who with Col. James Dunlop laid out the town of Bellefonte in 1795. He also has the proud distinction of being the nephew of William Calvin Patterson, late superintendent of the Pennsylvania State College, who served that institution so efficiently and faithfully for more than thirty-seven years.

Thus, while a stranger to most of our citizens, Mr. Patterson comes from the same forbears who have done so much to advance the material interests of this county. He was born on a farm at Warriorsmark, Huntingdon county. His father, John Irvin Patterson, served over four years as a member of Company I, Fifth Pa. reserves, and was quartermaster of his regiment. His mother was Sarah Hutchinson, a near relative of the Grays and Matterns. His youth was spent upon the farm, his education being obtained in the common schools, at Millersville State normal and at Penn State. To obtain this education he taught school in the winter and attended school and studied law in the summer. He read law with the late H. M. Bairdridge of Hollidaysburg; was admitted to the bar in May, 1878, and located at Houtzdale, Clearfield county, the same month, where he continued the successful practice of the law until April, 1895, when he removed to Clearfield where he is now living, actively engaged in the practice of his profession. In 1882 he married Frances, daughter of the late Judge William C. Foley.

Mr. Patterson has always been a Democrat in politics. He, however, has never aspired to holding office for the emoluments thereof, has never been a candidate for a state or county office but has been serving the people as school director and in offices drawing no compensation. For some years he served as a member of the school boards of Houtzdale and Clearfield, introducing in the latter schools the departmental method of instruction and in connection therewith manual training, domestic science, physical culture, vocal and instrumental music, and a department of elementary chemistry.

He is now serving his third term as a trustee of the Pennsylvania State College, to which institution he has given much of his time and energies, but with the satisfaction of assisting and affording the young men and women of this commonwealth, engaged in the agricultural, mechanical, mining and industrial pursuits, the opportunity of obtaining an education free of cost. It has been his pleasure to have assisted young men from this senatorial district through college who are now occupying responsible positions of trust in many of the largest manufacturing, industrial and like institutions in the United States. Mr. Patterson is also president of the Clearfield Shade Tree commission, the object of which is to further beautify the already attractive town.

He is engaged in mining and shipping bituminous coal and it speaks well for him that he and his partners have never experienced any labor troubles or disputes with their employees. Mr. Patterson has also been a director in the Clearfield National bank for the past 20 years and is one of the governors of the Chamber of Commerce of Clearfield, an institution that has made Clearfield one of the most thriving and progressive towns in the state. He has been a member of the Presbyterian church for the past thirty years and is actively engaged in Y. M. C. A. work.

As a candidate for state senator in this district Mr. Patterson stands for the enactment of equitable labor compensation and child labor laws. He will urge sufficient appropriation for Penn State to afford the young men and women of this senatorial district and of the commonwealth, engaged in agricultural, mechanical, mining and industrial pursuits to obtain free of cost a collegiate or technical education. He is in favor of a change in the manner of obtaining state aid in support of the hospitals and believes that the state should create and appropriate a budget for this purpose, the budget to be appropriated and divided pro rata among the hospitals of the state according to the number of free patients receiving treatment the year previous. This would take the hospitals out of politics and each hospital would receive the amount of the state aid to which it is entitled.

Mr. Patterson also stands for a repeal of the present state highway laws and advocated the division of the highways into sections containing a number of miles each, and the election of supervisors from the community in which the section is located, whose duty it shall be to employ the workmen, purchase the materials, build and keep in repair, under the supervision of a county engineer, the said sections of road in conformity with certain specifications, the whole to be under the supervision of a highway department. This would model the highway department along the lines of the common schools of the commonwealth as at present constituted, and the money appropriated by the state would be expended upon the roads and not go into the pockets of favored and political contractors and state employees.

Mr. Patterson also stands for county wide local option laws being submitted to the people. He believes that the electors of this state and senatorial district should have the privilege of voting upon this question and that the majority vote of the people should control this question.
