Dangers to the Eye.

Mr. Louis Bell, the electrical illuminating expert, and Dr. F. H. Verhoeff, an eye specialist, have published in Science their opinion that the alleged dangers to the eye from ultraviolet radiation of sunlight and various artificial lights amount to nothing at all. They admit that there have been many "sensational attacks" upon modern illuminants as dangerous by reason of injurious effects of ultraviolet or actinic rays, but these have "entirely neglected any quantitative relation between the radiation and its supposed pathological effects." Very little of these rays can penetrate the cornea, and the crystalline lens cuts off completely those that straggle through toward the retina. Protective glasses are useful only, they conclude, in cutting off dazzling lights and undue heat.

TELLS HOW TO CUT COST OF LIVING

Can Be Greatly Reduced By Substitution.

VEGETABLE GROWERS' MEET

Substitute Vegetables For Meat, Says Dean R. L. Watts, Head Of Vegetable Growers, Propose To Convention.

The high cost of living can be greatly reduced by the substitution of nutritious vegetables for meats that cost more according to statements made in an address by Dean R. L. Watts, of the Pennsylvania State College at the recent session of the seventh annual convention of the Vegetable Growers' Association of America, in Horticultural Hall, Philadelphia.

Dean Watts, who is president of the Vegetable Growers' Association, told the hundreds of delegates that the vegetable growers should participate in the program of extension service provided by the Government and agricultural colleges.

"The campus of an agricultural college is not the few acres surrounding the college building, but the entire State in which it is situated," he said.

In 1913 the appropriations of the State and nation combined for agricultural education in Pennsylvania amounted to \$10,000. The passage of the Smith-Lever bill means a tremendous sum for extension work in the future which will soon total a half million dollars, it was stated yesterday.

"The history of every civilized nation," said Dean Watts, "is that, as the population becomes denser, meat products increase in price and vegetables are used more largely. This is an advantage, as a vegetable diet has always been conceded more wholesome than one composed largely of meat."

Addresses also were made by Howard D. Selby, of the Philadelphia Vegetable Growers' Association and Director Porter, who welcomed the delegates on behalf of Mayor Blankenburg. C. W. Waid, of the Michigan Agricultural College, reported for the committee on weights and measures.

Farm-To-Table Service.

Postmaster Thornton, of Philadelphia, will ask the aid of the rural mail carriers to hasten the establishment of the "farm to the table" service of the postoffice by the extension of the parcel post. He will ask the Washington authorities to instruct the third and fourth class postmasters to have the rural carriers who come closest to the farmers explain the plan and invite them to communicate with the Philadelphia zone rate for one pound is due may be mailed up to fifty pounds under the parcel post rules. The Philadelphia rate for one pound is five cents and the maximum is thirty cents for fifty pounds. Between money order postoffices C. O. D. service can be arranged at an additional cost of ten cents. This also includes insurance against loss. With this advantage farmers can receive orders by telephone mail, the goods and have them paid for on delivery.

State Charities Session.

Dr. Martin G. Brumbaugh, spoke at the session of the State Charities Convention in the Court House at Carlisle. Dr. Brumbaugh was introduced by President Andrew S. Miller, of the Charities Convention. His address was non-political and dealt entirely with charitable problems and his views of a broad interpretation which led to his expressed aim, "the day when Pennsylvania will know no suffering." His discourse was a plea for co-operation to improve the condition of the unfortunate poor in their own homes rather than to remove them to institutions where they would be public charges.

State Awards Fair Paintings.

The Panama Pacific Exposition Commission has awarded contracts for mural paintings and other ornaments to the State building at the Exposition to Edward Turnbull, Pittsburgh, who will execute two large canvases; Giuseppe Donato, Philadelphia; Charles J. Taylor, August Seller and Sue E. Watson, Pittsburgh. The works will be retained by the State after the close of the Exposition.

Agricultural Federation Elects.

The Agricultural Federation of Pennsylvania re-elected Secretary of Agriculture N. B. Critchfield as president and M. S. McDowell, State College, as secretary. A committee to draft legislation was named.

Dr. C. B. Cochran, State chemist, reports that he has made a recent analysis of the water supply of West Chester and found it in good sanitary condition.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN.—"I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. JENNIE AKERMAN, c/o Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. MURDOCH, 25 Gordon St., South Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.
