DEATHS.

From Our Boalsburg Correspondent.

Mrs. Hannah Burchfield died on Friday, November 6th, at the home of her daughter, Mrs. William Beck, in Altoona. She had been in poor health for more than a year. Her last illness was pneumonia. Mrs. Burchfield's maiden name was Hannah Johnston, a daughter of James and Hannah Johnston. She was born in the hotel at Boalsburg April 6th, 1833, and was married to William Burchfield, March the 8th, 1856, at Birmingham, Pa. They lived at Pine Grove Mills several years, afterwards at Shingletown where Mr. Burchfield died in 1873. She had seven children, five of whom survive, namely, Mrs. J. H. Jacobs of Boalsburg, Mrs. William Beck, Mrs. Jacob Felty, Edward and Hugh all of Altoona. Thirteen grandchildren and three great grandchildren also survive. Funeral services were held at her late home on Sunday afternoon by her pastor, Rev. Miller of the First Presbyterian church. Monday the remains were brought to the home of her daughter at Boalsburg. The relatives and friends who composed the funeral cortege were Mr. and Mrs. J. B. Felly, son and daughter, Mrs. William Beck, Mr. and Mrs. Paul Beck, Mr. and Mrs. Edward Burchfield and daughter, Hugh Burchfield, Hugh Beck, Mrs. Mabel Simpson, Mrs. J. M. Calvert and daughter, Mrs. Babcock, Ross Gillford and sister Emma, Mrs. Jennie Stewart, Mrs. E. P. McIntire of Altoona, Harry Stuart of Sandy Ridge, and Mrs. William Twig of Curwensville. Tuesday forenoon services were held at the J. H. Jacobs home, Rev. J. I. Stoneypher, assisted by Rev. S. C. Stover officiating. Interment was made in the Branch cemetery.

Mrs. Mary Elizabeth Karstetter died at the home of her niece, Mrs. W. L. Swarm, in Millheim, Sunday morning at 8:40 o'clock, following a short illness with peritonitis. Since the death of her husband many years ago she had been living alone in Millheim and was spending a few weeks at the home of her niece when death claimed her. She was sixty-seven years of age. Funeral services will be held this (Thursday) morning from her late home and interment will be made in the Union cemetery, Rev. W. H. Williams of the M. E. church, officiating. Surviving her are five daughters and three sons, namely, Mrs. Anna Stevenson, Mrs. Stuart Keen, Millheim; Mrs. Lella Rickert, McKeesport; Mrs. C. P. Shoemaker, Rutherford, N. J.; Mrs. H. B. McGinnis, Aurora, Ill.; W. F. Karstetter, Darby; L. E. Karstetter, Port Carbon; F. C. Karstetter, Aurora, Ill. The following brothers and sisters also survive: Wm. H. Hartman, WilliamSPORT; W. S. Hartman, Millheim; Mrs. Rebecca Lettzell, Millheim; Mrs. Irma Breon, Rebersburg; Mrs. Minnie Hartier, Altoona.

William Fergus Potter, the last of a family of eight children of Mr. and Mrs. Samuel Potter, deceased, died at the home of his niece, Mrs. Lizzie Blythe, in Philadelphia, late Sunday night, at the age of eighty-seven years. Death was due to his advanced age. Funeral services were held in Philadelphia and his body was shipped to Bellefonte where interment took place Wednesday.

Mr. Potter was born in Pleasant Gap and when a young man of twenty-two years struck for California at the time of the gold excitement. Fifteen years ago he returned from the west and again located at Pleasant Gap where he lived until five years ago when Mr. and Mrs. Blythe, the latter a daughter of Abram V. Miller, removed to Philadelphia. Mr. Potter accompanying them. He was never married. J. T. Potter of Centre Hall is a cousin of the deceased.

Live Stock Day Postponed.

After the first page of this paper, containing the program for Live Stock Day at State College, came from the press, the following announcement was received from the college authorities:

Live Stock Day, which was scheduled for Saturday at The Pennsylvania State College, has been indefinitely postponed because of the prevalence of the "foot and mouth" disease. While no outbreak of infection has been reported among the cattle of Centre county, the authorities have taken the precaution to protect the valuable herd of prize stock at the State institution.

The live stock, worth \$30,000, is being carefully shielded against disease. It is housed in the new dairy barn and stock pavilion. Both these structures were to have been dedicated in connection with the Pennsylvania Day celebration, on next Friday, November 13, but the exercises were postponed at the suggestion of Dr. C. J. Marshall, secretary of the State Live Stock Sanitary Board.

The Agricultural Fair will be held without the live stock exhibition and the college barns will be closed to visitors.

Miss Grace Smith is spending this week at State College.

INTERNATIONAL HARVESTER MACHINES
SOME POSITIVE FACTS
If in need of a manure spreader you cannot buy a better spreader than the LOW SPREAD SPREADER, and in fact, you cannot afford to buy any other. It is noted for its durability and reliability. It is an all steel spreader, and being low down makes it easy to load. Wide wheels, which give better traction, and fitted with best tyre known. The position of the rear axle carries a sufficient portion of the weight, thus enabling good work, regardless of the condition of the soil. This spreader can be had with or without the wide spread attachment. When the wide spread attachment is used it will spread a width of eight or nine feet. Call around at our place of business and let us point out to you many more good features of the LOW SPREAD SPREADER.

Become Acquainted With the BLUEBELL Cream Separator

THERE is a good deal more to buying a cream separator than just paying out your money for any machine you happen to take a fancy to. You can find this out after you buy, or you can find it out before you buy. Generally the latter is the cheaper of the two. For instance, this BLUEBELL cream separator you are practically buying two machines in one—a clarifier and a separator. In some separator bowls, whatever foreign substances are in the milk that the strainer will not remove, collect on the skimming devices and on the sides of the bowl, interfering with the skimming and contaminating all the milk and cream that goes through the separator. In this machine these foreign substances are collected into the clarifying chamber before separation takes place. Unless you know this separator you can hardly realize the difference that this feature makes in the separation of milk.

More Strong Points in the International Harvester Engine

ALL the working parts on this engine are located on the right-hand side, for convenience in inspecting, oiling and cleaning. All parts are numbered and are easily removable. In case of accident, notify us at once what numbers are needed, and we will supply duplicate parts that will fit just the same as the original parts. The cylinder is cast from a special quality of close-grained gray iron. The walls are so thick that the bore may be reground several times to keep the cylinder true all the years the engine lasts. There are no valve pockets in this cylinder to absorb heat and sap the power. The water jacket is cast in one piece with the cylinder and allowance is made for a sufficient supply of water, especially around the valves. These points mean economy in owning an I H C engine. You don't want to lose any time on account of repairs or replacements, and an I H C engine places you pretty nearly in that ideal condition.
