THE W BRAND

REVOLVER AND PISTOL CARTRIDGES.

Winchester Revolver and Pistol cartridges in all calibers prove their superiority by the targets they make. Shoot them and you'll find they are **ACCURATE, CLEAN, SURE**

Mighty Handy.
Some negroes are insatiable "jiners," and their favorite organizations are those which assure an ostentatious funeral. A mistress was remonstrating with her servant about belonging to one of them. "Don't you think it is mighty foolish to pay the 'Friends and True Mourners' society' twenty-five cents every month?" "Naw'm, Miss Ma'y, I don't. You see, dee ain't like some of de s'cieties; dee acts liberal, and don't skimp on nothin'. Dee gives you de finest kind of coffin, en makes a way for ev'rybody to git to your burial. En den, 'sides dat, dee gives you thirty dollars at de grave, en you know thirty dollars comes in mighty handy."

SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is

Paxtine
A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." GIANT SUBMARINE FOR THE U. S. NAVY

To Have Cruising Radius of Thirty-Five Hundred Miles. SURFACE SPEED 21 KNOTS

Will Be Twice Size Of Any Under-Sea Fighter In World—Cost About \$1,250,000—Will Be Known As "Fleet Submarine."

Washington, D. C.—Designs have been completed and specifications prepared in the United States Navy Department for a new and distinct type of submarine, which will outclass submarines of the German U-9 class. It will be the greatest submarine afloat.

This new type will be known as a "fleet submarine." It will displace 1,200 tons, which means that it will be twice the size of any existing submarine now in commission. The aim of the naval authorities in calling for bids for this distinctive type of underwater craft is to obtain a sea-keeping, fleet-going submarine of high speed and great defensive power. It must be able to accompany the American battleship fleet, never to lag behind the fleet, and to have the same cruising radius.

The proposed submarine will be built on rather long lines, like a sea-going destroyer, and will probably be about 300 feet in length. This length is necessary in order to install the more powerful propelling machinery and to find space for the increased equipment of reserve torpedoes and extra torpedo tubes. The new fleet submarine will have its own wireless telegraph outfit. It will have a cruising radius of about 3,500 miles at 21 knots speed, will have rapid-fire guns for self-defense and will carry enough torpedoes to sink a modern fleet of dreadnaughts.

JACKIES SHUT OUT OF THEATRE.

Cause Arrest Of Attaches, Charging Discrimination.
New York.—Four sailors of the United States Navy, who saw service at Vera Cruz and who are now recuperating in the hospital at the Brooklyn Navy Yard, appeared in a police court here as complainants against employees of a Broadway theatre who, they said, had refused to admit them because they wore uniforms. The sailors—Albert T. Walker, Max Brodie, Wilfred G. Dobson and Henry G. Conrad—said their application at the box office for tickets was rejected and that they were refused admission to the theatre after they had procured tickets through a civilian. The defendants were the ticket seller, doorman and special officer at the theatre.

TAP LINE A PRECEDENT

Differences Between Railroads and Corporations Over Allowances Will Now Go Into the Courts For New Test.

Washington, D. C.—Partly changing its position on account of the decision of the Supreme Court in the tap line case, the Interstate Commerce Commission announced that it would not hand down an order in the industrial railway case, but would permit the railroads and the industrial corporations to reach an agreement themselves.

The commission announced that it took his position in order that the agreements made between the railroads and industrial corporations could be tested in the courts. "We shall except the trunk line roads," said the commission, "to re-establish allowance, divisions or demurrage or per diem arrangements with industrial roads only in instances in which the transaction is bona fide and in which it is clearly lawful and proper."

14 STATES HAVE DRY LAWS.

Chicago.—Fourteen States now have laws prohibiting the sale of alcoholic beverages. The fourteen include four States added to the "dry" list as the result of last week's election. On the face of the returns prohibition has just been adopted by Arizona, Washington, Oregon and Colorado.

TOOTHACHE DOSE EXPLODES.

Philadelphia.—Anton Yucker, wife and daughter are in a hospital here seriously burned and otherwise injured as the result of one dose of toothache powder. Viola, the daughter, complained of an aching molar and her mother found a powder remedy which had been purchased in Austria 10 years ago. As the powder was being heated, some fell on the stove, causing an explosion which wrecked the room. Physicians at the hospital said the remedy contained nitroglycerin.

WASHINGTON NEWS.

Long litigation over title to tide lands in Seattle was decided by the Supreme Court in favor of the State and against the Washington Dredging and Improvement Company. Formal consideration of the Eastern railroads' application for advanced freight rates was begun by the Interstate Commerce Commission.
