H. T. Weight of Renovo has leased the home of Clement Luse and will move into it when Mr. Luse begins farming operations next spring on the Luse farm now occupied by William Houser. Mr. Weight is a retired railroad shopman, and will make a first-class citizen.

The tax collector in the Yeagertown district set a good example to tax collectors in other localities when he caused the arrest of two men for the non-payment of taxes aggregating the sum of \$1.33 apiece. One paid up immediately upon arrest, and the other after a day or two rest in jail. There is too much exonerating on the part of the authorities, the Yeagertown way being the better way.

A. S. Krebs and crew of railroad men are tearing up the rails east of Penns Cave station and replacing them with a heavier type. The present rail on the local branch weighs seventy pounds per yard; the new rails will weigh eighty-five pounds per yard. The heavier rail has supplanted the lighter on several divisions and in a short time the entire branch will be laid with the more serviceable steel.

Jacob Shearer must be considered as the champion raiser of big porkers, at least until such a time as someone else comes along and wrests the title from him. On Monday he killed six hogs, the heaviest of which weighed 565 lbs. Two others came within twenty-five pounds of the quarter ton mark and the remainder were not far behind. There was nothing said about the sausage, but it's a safe bet that if straightened out one end would almost reach Belgium.

Messrs. D. K. Keller and G. L. Goodhart, the former secretary and the latter treasurer of the Centre County Mutual Fire Insurance Company, the latter part of last week, adjusted the loss suffered by Samuel Hoy, when his barn burned. The full amount of the policies held were allowed, as follows: On buildings, \$2505; on contents, \$1152.52. The total loss is variously estimated, \$6000 being a fair figure. One of the conditions on the policies issued by this company is that a barrel or other vessel filled with water and buckets be located between the engine and the barn. This condition was complied with by the insured, but the fire spread so rapidly that even with this precaution there was no chance to extinguish the fire.

**Foot and Mouth Disease in Mifflin Co.**

State inspectors from the Pennsylvania Livestock and Sanitary Board summoned to Mifflin county by the outbreak of the foot and mouth disease on the farm occupied by Oliver P. Harpster, east of Lewistown, confirmed the diagnosis of Dr. S. G. Hendren, local veterinarian, that the cattle were suffering with the dread disease.

A number of the animals were gripped by the malady in its acute form and after a brief conference the decision was reached that the entire herd of twenty-five head should be destroyed as the most effective means to eradicate the disease from this section.

A flock of sheep kept upon the farm were also condemned and will be killed along with the cattle. The swine are housed in an isolated outbuilding and these animals will likely be spared.

**Child Scalds Self.**

The Reporter's Brushvalley correspondent reports this week that Gladys Hettinger, the two-year-old child of Mr. and Mrs. Herbert Hettinger, was badly scalded when it drew from the table a dish of hot cabbage, the entire contents falling on the upper part of its body. The little one's condition is regarded as critical.
