Reasons for Gratification.

The temperance forces of the county have reason to be deeply gratified by the action of Congress on December 22nd.

It is the first time in the history of the Republic that the question of national prohibition has gotten on the floor of either branch of congress. The fact that the first effort should show a clear majority of eight is exceedingly gratifying.

A record has been made. The friends of the measure will no longer be fighting in the dark. For the first time the battle line is fairly and clearly drawn. The appeal is now to the people.

The longer it takes to secure submission a shorter time will be required to reach ratification.
