TO FLUSH THE KIDNEYS Eat Less Meat and Take Salts for Backache or Bladder Trouble-

Neutralize Acids.

DRINK LOTS OF WATER

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is frritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick

headache, dizziness, stomach gets sour,

tongue coated and you feel rheumatic

twinges when the weather is bad. Eat less meat, drink lots of water: also get from any pharmacist four ounces of J. d Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys also to neutralize the acids in urine, so it no longer is a source of irrita-

tion, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active Druggists ere say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble .-Adv.
