NEWS OF 1881.

Notes Taken From Files of The Centre Reporter of Thirty-four Years Ago.

October 20th—Rev. Flecher has returned with his family from his four weeks visit to Somerset county. He was surprised to find the parsonage having exterior improvements put on during his absence.

Married—Bruce Lingle of Centre Hall and Miss Zillah Knox of Blair county.

October 27th—There is much sickness in Boslesburg and vicinity, mostly typhoid fever. Old father Young is very low.

A little son of James A. Keller, near this town, made a narrow escape the other day, while in the orchard assisting in gathering apples. A sled on which about 15 bushels of the fruit was placed ran over him when the horses were started, the runners turning him round and round until it passed over. The boy was somewhat bruised but his metal was so tough that he was found out of danger next day.

Jacob Harpeter, opposite this office, killed 105 grey squirrels so far this fall. Jake's a good shot.

An attempt was made on Wednesday night to rob the safe at the Coburn station, which, however, proved an unsuccessful job.

The newly erected Evangelical church at Asronsburg will be dedicated on the 29th of November.

William Sandoe of Millintown will open a new tailor establishment in this town in about two weeks.

Mr. and Mrs. Samuel Schreckengost and daughter from Hollidaysburg autoed to the Harry Schreckengost home on Saturday evening to spend over Sunday.

The Ice Box.

The ice box is necessary in hot climates for the preservation of milk and meat. Where there are infants and young children in the family the proper care of the milk requires ice in order that it may be kept at a sufficiently low temperature to prevent it from becoming a poison.

For the proper care of food during the hot weather cleanliness of the vessels and ice box is essential. The box should be cleaned thoroughly at frequent and regular intervals. The interior should be washed first with cold

water and soap then rinsed with scalding water. The drainage pipe should be kept free from slime. Where a rubber tube is used to carry off the waste water this can be boiled without damaging it.

The ice itself should be thoroughly washed always before it is put into the box. Unless there is absolute certainty that the ice is made from filtered water or obtained from a source free of sewage pollution it should not be placed directly on food or in the drinking water.

Economy and health will both be served by placing the drinking water in a receptacle next to the ice. This will bring it to as low a temperature as is healthful. Food drinks interfere with digestion and are a menace to health. They often arrest digestion and not infrequently produce death. Red meats should never be frozen or placed in contact with ice.

Scrupulous cleanliness will be repaid by the saving in food stuffs and the maintaining of their quality.

Weaver Piano In Friend's Central School, Philadelphia.

"It is a pleasure for me to inform you that the Weaver Piano purchased some years ago from your company is giving most excellent satisfaction. It has been in constant use.

Very sincerely,
J. EUGENE BAKER, Principal,
Friend's Central School,
Philadelphia, Pa.

This is one of the largest and oldest high schools in Philadelphia. It was established in 1845. The Weaver Piano is the best piano now manufactured and meets all the requirements where a truly great piano is desired. That is why it was selected by Friend's Central School.

WHY DO WEAVER PIANOS PLEASE?

Because the Weaver Organ & Piano Co., of York, Pa., have been building pianos and organs for 45 years and have never manufactured any instruments except a good one. Their whole ambition has been to conduct a business that would grow a little higher in the respect of the public each year. Their present position as manufacturers of the Weaver—the highest standard of Piano quality so far attained—is due to that ambition.

You wouldn't be surprised that Weaver Pianos last a lifetime if you knew the men, methods and materials on which their reputation is based. Weaver Pianos are used and endorsed by many of the world's leading musicians, including Alice Nielsen, Mme. Homer, Victor Herbert, Frank La Forge, Frank Croton and many others. The Weaver Co. also make and sell the Charming Toned York Piano—the popular Livingston Piano, and the celebrated Weaver Organ.

These Instruments are everywhere conceded to be
