

Tabernacle Meetings Soon to Close.

Next week will be the last week of the Centre Hall tabernacle meetings. They are still growing in interest and power. The pleasant nights following the several weeks of rain have resulted in increased attendance. On Sunday night 1500 people were in attendance and listened to the sermon on the unpardonable. On Tuesday night the building was packed once more the occasion being the Boozers' sermon. The Evangelist paid his best respects to tobacco and the liquor business and dealt with both with a fair or favor. The liquor dealer was arraigned and chastized but scarcely more so than the careless church member who lets his vote go in on the side of license for the liquor business could live not without his help. Messes' "Smoking" song and the Brewer's Big Horse, both rewritten with local hit, were much appreciated and loudly applauded.

Thursday night will be Christian Endeavor night. The Linden Hall C. E. Society has promised to bring sixty young people and the local societies will be present. The sermon will be, "Seeing with open eye."

Friday night will be musical night. Sermon, "Striving with the Infinite."

Saturday, "Striving with the Infinite."

Sunday, 9 a. m., sermon, "Jesus Brethren." 3 p. m., Evangelist Brown will address a general meeting at the tabernacle. At the same hour Rev. H. M. Brown will address a young folks' meeting in the Presbyterian church to which all girls and boys are earnestly invited. Special music will be provided for them. Parents wishing to accompany them may do so. Sunday night, sermon, "The Good Shepherd," one of Mr. Brown's best.

Tuesday night, "The Christian and his amusements," being a discussion of the much vexed dance and card questions.

Next week is the closing week. It is sure to be the best. Come.

For a Big Display at Encampment.
A little more than three weeks remains until the opening of the Grand Encampment and Fair at Centre Hall. With the biggest crops in many years already stored away and an unusually large corn crop coming on there is reason to believe that it will be possible to make the best display of agricultural products in the history of the Encampment. All that remains for the success of the display is the little time and effort necessary to get the products ready and place them on exhibition. The association urges that every farmer contribute toward this feature and bring the wheat, oats, pumpkins, corn, or potatoes which he might say is superior to that which he will see on exhibition during the fair. Select your meritorious products now and have them ready for the opening exhibition day, Monday, September 13.

LOCALS
Rev. D. S. Kurtz is spending a short time in Lancaster.
Miss Phoebe Potter of Linden Hall was a guest of Mrs. Lizzie Jacobs on Tuesday.
Rev. Samuel Moody of Hollidaysburg was a welcome visitor at the Mrs. Mary Bearick home one day last week.
Mrs. Sara Kerlin suffered a rupture of a blood vessel in her left eye Saturday evening and is now at the home of her son, A. E. Kerlin.
J. D. Neese, one of Gregg townships best farmers, was a caller Tuesday evening. He reports having burned the heaviest oats crop in many years.
The mangled body of a man who on investigation proved to be William G. Bullock of Julian was found on Tuesday morning on the tracks of the Bald Eagle Valley railroad, a short distance from Milesburg. It is supposed that he was killed in jumping a freight train.

For a time automobiles will have to contend with a thank-you-ma'am in striking the crossing at the diamond in Centre Hall. The crossing this week was raised about six inches and later on it is planned to fill up the entire diamond level with it. This part of the town has been an eye sore to everyone for a long time owing to the hut-deep mud hole that exists there and the news that it is to be put in better shape is indeed good news.

Miss Grace Cummings, oldest daughter of Mr. and Mrs. J. Arber Cummings, on the Van Tries farm near Linden Hall, was attacked by a cross bull Sunday evening while attempting to drive the animal in the barnyard. The bull struck her, throwing her to the ground and upon arising the beast made a second attack, but the girl's father, hearing her screams, arrived in time to drive the bull off. In falling Miss Cummings sustained a broken right arm. Dr. H. H. Longwell, assisted by his brother-in-law, Dr. J. B. Barietti, reduced the fracture.

Surviving him are three sons—George and William, on the homestead, and Newton, of Altoona. Four daughters—Cora, at home, Mrs. Lloyd Miller, of Williamsport and two located in the west, also survive. START OF POSTAL SERVICE

First Attempt at System Began in England as Far Back as the Year 1635.

How many of us know that the post office began to exist in the year 1635! Special messengers and the common carrier were till then the only means of communication.

After that date a horse post carried letters along the great roads into the different parts of England, those who lived near these roads hurrying out at the sound of the postman's horn. And the remote byways were not neglected.
If one desired to send a letter to some remote town in Yorkshire, one went to Ludgate, then to the Bell Savage in, close by, and there intrusted it to the carrier for the country in question. The messenger from London would not penetrate into byways. Each country had its system of foot-roads, which linked the outlying districts with its chief towns and with the great high roads. The London courier, pressing on to his terminus, was relieved of packets for remote regions by the local postman, who, in turn, passed them on from hand to hand to their destination. In somewhat similar fashion, though less regularly and smoothly, letters inland were carried over the long and tedious journey to the hands for which they were laboriously indited.

NAMES THAT REALLY SUITED

Child Found No Trick at All to Alter the Cognomen of Her Two Pets.

When little Dorothy's papa's friend presented to little Dorothy, on her birthday, two tiny, aristocratic, white, fluffy balls of angora kittens, she named them on the spot Duke and Duchess. Time passed and the kittens grew into cats and then there came an event. Duke became the mother of four new kittens.
"This will never do, my dear," said little Dorothy's mamma. "You must find other names for your cats. What will you call them?"
Little Dorothy did not answer at once. Instead she pondered over the matter all day. Just before bedtime she went to her mother with the air of one whose mind has been relieved of a great weight.
"I know what I'll call them, mamma," she said. "It's quite simple. I'll call the one that I first named Duke—the mother-cat—I'll call Marmaduke, and I'll call the one I first named Duchess—the papa-cat—I'll call him Ben Hur."

Biggest Pair of Tusks.
In the stables of the royal palace at Mandalay, in Burma, there may be seen an elephant with a remarkable pair of tusks, which the Burmese declare are the largest in the world, says the Wide World Magazine. These gigantic tusks measure as much as seven feet nine inches on the outside curve, with a greatest circumference of no less than seventeen inches. To naturalists the most extraordinary point about these tusks, which are still being carried by their owner, is that they virtually touch the ground and almost meet. Apparently, however, their owner experiences no inconvenience from these long and cumbersome appendages while taking exercise.
As a zoological curiosity the elephant has naturally attracted wide attention, and it is said that several offers have already been received for the tusks when the animal should see fit to depart this world.

That Uplifted Feeling.
One of the things which "every woman knows" is that feeling of elation produced by putting on beautiful clothes, or even some eccentricity, provided it is of the newest fashion. Probably men—who are singularly like women in these highly civilized days—are perked up by a new tie or exhilarated by a fancy waistcoat, only they do not talk about these mysteries as much as women do.
But love of finery has a deep psychic meaning, and according to one of our leading brain specialists there is "an emotional accompaniment of elation following the putting on of a pretty garment"—a rather pompous way of saying what every feminine thing, from the fat baby who rejoiced over her coral necklace to the grand-mother who sticks a pink bow in her lace cap, is intensely aware of.
